

CURRICULUM – 2020

(C-20)

DIPLOMA IN

ARCHITECTURAL ASSISTANTSHIP

State Board of Technical Education & Training
Andhra Pradesh
Amaravathi

CURRICULUM- C 20
FOR
DIPLOMA PROGRAMMES OF SBTET, AP

PREAMBLE

The proposed programme intends to develop a skilled technician to support the industries both nationally or globally. It also helps to kindle the spirit of entrepreneurship with necessary skills and theoretical inputs aligning with the National policy of 'Make in India'. The programme also provides for accomplishing higher education goals for those who wish to enrich their theoretical concepts further.

The State Board of Technical Education and Training, (SBTET) AP, has been offering Diploma programmes to meet the above said aspirations of the stake holders: industries, students, academia, parents and the society at large. As such, it has been the practice of SBTET, A.P., to keep the curriculum abreast with the advances in technology through systematic and scientific analysis of current curriculum and bring out an updated revised version at regular intervals. Accordingly the SBTET, AP under the aegis of the Department of Technical Education, Andhra Pradesh in its 57th Board Meeting held on 05-02-2019 (vide item no: 18) resolved to update the Polytechnic Curriculum C-16 with the guidance of National Institute of Technical Teachers Training & Research (NITTTR), Extension Centre, Vijayawada (ECV), to be implemented with effect from the academic year '20-21.

Analysis of Curriculum C-16 (SWOT analysis) started in the month of June-2019. Feedback was collected from all stake holders: Students, Lecturers, Senior Lecturers, Head of Sections and Principals for all programmes for this purpose. A series of workshops with subject experts followed in the subsequent weeks and the draft curricula were prepared for every programme. Finally, an interactive session with representatives from industries, academia and subject experts was held on 04.01.2020 for thorough perusal and critique of draft curricula; and the suggestions received thus received from Industrialists and academia have been recorded , validated by another set of experienced subject teachers from the Department of Technical education for incorporation into the Curriculum C-20.

The design of new Curricula for the different diploma programmes has thus been finalised with the active participation of the members of the faculty teaching in the Polytechnics of Andhra Pradesh, and duly reviewed by Expert Committee constituted of academicians and representatives from industries. Thus, the primary objective of the curriculum change is to produce employable technicians in the country by correlating the growing needs of the industries with relevant academic input.

The outcome based approach as given by NBA guidelines has been followed throughout the design of this curriculum is designed to meet the requirements of NBA Accreditation, too.

The revised New Curriculum i.e., Curriculum–2020 (C-20) is approved by BoG of SBTET for its implementation with effect from 2020-21.

Highlights of Curriculum C-20:

1. Duration of course for regular Diploma and for sandwich Diploma is 3 years and 3½ years respectively.
2. The Curriculum is prepared in Semester Pattern. However, First Year is maintained as Year-wise pattern.
3. 6 Months Industrial training has been introduced for 3 years Diploma Courses and 1 year Industrial Training is introduced for 3 ½ years Sandwich Diploma courses.
4. Updated subjects relevant to the industry are introduced in all the Diploma courses.
5. CISCO course content has been incorporated into the ECE and CME programmes for certification from CISCO in lieu of industrial training when students are unable to get Industrial Training placement in any industry.
6. The policy decisions taken at the State and Central level with regard to environmental science are implemented by including relevant topics in Chemistry. This is also in accordance with the Supreme Court guidelines issued in Sri Mehta's case.
7. Keeping in view the increased need of communication skills which is playing a major role in the success of Diploma Level students in the Industries, emphasis is given for learning and acquiring listening, speaking, reading and writing skills in English. Further as emphasized in the meetings, Communication Skills lab and Life Skills lab are continuing for all the branches.
8. CAD specific to the branch has been given emphasis in the curriculum. Preparing drawings using CAD software has been given more importance.
9. Upon reviewing the existing C-16 curriculum, it is found that the theory content is found to have more weightage than the Practical content. In C-20 curriculum, more emphasis is given to the practical content in Laboratories and Workshops, thus strengthening the practical skills.
10. With increased emphasis for the student to acquire Practical skills, the course content in all the subjects is thoroughly reviewed and structured as outcome based than the conventional procedure based.
11. Curricula of Laboratory and Workshops have been thoroughly revised based on the suggestions received from the industry and faculty, for better utilization of the equipment available in the Polytechnics. The experiments /exercises that are chosen for the practical sessions are identified to confirm to the field requirements of industry.
12. An exclusive section for assessing Higher order Thinking skills (HOTS) has been introduced in summative evaluation.

Acknowledgements:

It is pertinent to acknowledge the support of the following in the making of Curriculum C-20. A series of workshops in three phases were conducted by NITTTR, AP Extension Centre, Vijayawada involving faculty from Polytechnics, Premier Engineering Colleges & Industries to analyze the Previous C-16 Curriculum and to design C-20 Curriculum under the guidance of Dr C. R. Nagendra Rao, Professor & Head, NITTTR-ECV. The efforts & support extended by NITTTR to bring out final Curriculum C-20 by incorporating needs, aspiration & expectations of all stake holders is highly appreciated and gratefully acknowledged.

The Members of the working group are grateful to Sri M.M. Nayak, I.A.S., Special Commissioner of Technical Education & Chairman of SBTET, AP. and Sri. G. Anantha Ramu, I.A.S., Principal Secretary, Department of Skill Development and Training for their guidance and valuable inputs during process of revising, modifying and updating the Curriculum C-20.

The Members acknowledge with thanks the guidance & inspiration provided by Sri. V.S. Dutt, Secretary, SBTET, Andhra Pradesh and other officials of Directorate of Technical Education and the State Board of Technical Education, Andhra Pradesh, experts from industry, academia from the universities and higher learning institutions and all teaching fraternity from the Polytechnics who are directly or indirectly involved in preparation of the curricula.

RULES AND REGULATIONS OF C-20 CURRICULUM

1 DURATION AND PATTERN OF THE COURSES

All the Diploma programs run at various institutions are of AICTE approved 3 years or 3½ years duration of academic instruction.

All the Diploma courses are run on year wise pattern in the first year, and the remaining two or two & half years are run in the semester pattern. In respect of few courses like Diploma in Bio-Medical course, the training will be in the seventh semester. Run-through system is adopted for all the Diploma Courses, subject to eligibility conditions.

2 PROCEDURE FOR ADMISSION INTO THE DIPLOMA COURSES:

Selection of candidates is governed by the Rules and Regulations laid down in this regard from time to time.

- a) Candidates who wish to seek admission in any of the Diploma courses will have to appear for the Common Entrance Test for admissions into Polytechnics (POLYCET) conducted by the State Board of Technical Education and Training, Andhra Pradesh, Vijayawada.

Only the candidates satisfying the following requirements will be eligible to appear for the Common Entrance Test for admissions into Polytechnics (POLYCET).

- b) The candidates seeking admission should have appeared for S.S.C examination, conducted by the Board of Secondary Education, Andhra Pradesh or equivalent examination thereto, at the time of applying for the Common Entrance Test for admissions into Polytechnics (POLYCET). In case of candidates whose results of their Qualifying Examinations is pending, their selection shall be subject to production of proof of their passing the qualifying examination in one attempt or compartmentally at the time of admission.
- c) Admissions are made based on the merit obtained in the Common Entrance Test (POLYCET) and the reservation rules stipulated by the Government of Andhra Pradesh from time to time.
- d) For admission into the following Diploma Courses for which entry qualification is 10+2, candidates need not appear for POLYCET. A separate notification will be issued for admission into these courses.
- i). D.HMCT ii).D. Pharmacy

3 MEDIUM OF INSTRUCTION

The medium of instruction and examination shall be English.

4 PERMANENT IDENTIFICATION NUMBER (PIN)

A cumulative / academic record is to be maintained of the Marks secured in sessional work and end examination of each year for determining the eligibility for promotion etc., A Permanent Identification Number (PIN) will be allotted to each admitted candidate to maintain academic records.

5 NUMBER OF WORKING DAYS PER SEMESTER / YEAR:

- a) The Academic year for all the Courses shall be in accordance with the Academic Calendar.
- b) The Working days in a week shall be from Monday to Saturday
- c) There shall be 7 periods of 50 minutes duration each on all working days.
- d) The minimum number of working days for each semester / year shall be 90 / 180 days excluding examination days. If this prescribed minimum is not achieved due to any reason, special arrangements shall be made to conduct classes to complete the syllabus.

6 ELIGIBILITY (ATTENDANCE TO APPEAR FOR THE END EXAMINATION)

- a) A candidate shall be permitted to appear for the end examination in all subjects, if he or she has attended a minimum of 75% of working days during the year/Semester.
- b) Condonation of shortage of attendance in aggregate up to 10% (65% and above and below 75%) in each semester or 1st year may be granted on medical grounds.
- c) A stipulated fee shall be payable towards condonation for shortage of attendance.
- d) Candidates having less than 65% attendance shall be detained.
- e) Students whose shortage of attendance is not condoned in any semester / 1st year and not paid the condonation fee in time are not eligible to take their end examination of that class and their admissions shall stand cancelled. They may seek re-admission for that semester / 1st year when offered in the next subsequent academic semester/year.
- f) For INDUSTRIAL TRAINING:
 - i) During Industrial Training the candidate shall put in a minimum of 90% attendance.
 - ii) If the student fails to secure 90% attendance during industrial training, the student shall reappear for 6 months industrial training at his own expenses.

7 READMISSION

Readmission shall be granted to eligible candidates by the respective Principal/ Regional Joint Director.

- a) (i) Within 15 days after commencement of class work in any semester (Except Industrial Training).
(ii) For Industrial Training: before commencement of the Industrial training.
- b) Within 30 days after commencement of class work in any year (including D. Pharmacy course or first year course in Engineering and Non Engineering Diploma streams).
Otherwise such cases shall not be considered for readmission for that semester / year and are advised to seek readmission in the next subsequent eligible academic year.
The percentage of attendance of the readmitted candidates shall be calculated from the first day of beginning of the regular class work for that year / Semester, as officially announced by CTE/SBTET but not from the day on which he/she has actually reported to the class work.

8 SCHEME OF Evaluation

a) First Year

THEORY Courses: Each Course carries Maximum marks of 80 with examination of 3 hours duration, along with internal assessment for Maximum of 20 marks. (Sessional marks). However, there are no minimum marks prescribed for sessionals.

Laboratory Courses: There shall be 40 Marks for internal assessment i.e. sessional marks for each practical Course with an end examination of 3 hours duration carrying 60 marks. However, there are no minimum marks prescribed for sessionals.

b) III, IV, V, VI and VII Semesters:

THEORY Courses: End semester evaluation shall be of 3 hours duration and for a maximum of 80 marks.

Laboratory Courses: Each Course carry 60/30 marks of 3hours duration 40/20 sessional marks.

9 INTERNAL ASSESSMENT SCHEME

a) Theory Courses: Internal assessment shall be conducted for awarding sessional marks on the dates specified. **Three unit tests shall be conducted for I year students and two Unit Tests for semesters.**

Internal Assessment shall be of 90 minutes duration and for a maximum of 40 marks. For each test

The average of marks of all the test, reduced to 20 shall be taken as final sessional in any case.

b) Practical Courses:

(i) Drawing Courses:

The award of sessional marks for internal Assessment shall be as given in the following table

Distribution of Marks for the Internal Assessment Marks			
First Year (Total:40 Marks)		Semesters (Total:40 Marks)	
Max:20 Marks	Max:20 Marks	Max:20 Marks	Max:20 Marks
From the Average of THREE Unit Tests.	From the Average of Regular Class work Exercises.	From the Average of TWO Unit Tests.	From the Average of Assessment of Regular Class work Exercises.

All Drawing exercises are to be filed in **serial order** and secured for further scrutiny by a competent authority

(ii) Laboratory Courses:

Student's performance in Laboratories / Workshop shall be assessed during the year/ semester of study for 40 marks in each practical Course.

Evaluation for Laboratory Courses, other than Drawing courses:

- i. Instruction (teaching) in laboratory courses (except for the course on Drawing) here after shall be task/competency based as delineated in the Laboratory sheets, prepared by SBTET, AP & NITTTR- ECV and posted in SBTET website.
- ii. Internal assessment for Laboratory shall be done on the basis of task/s performed by the student as delineated in the laboratory sheets, prepared by SBTET, AP & NITTTR- ECV and posted in AP, SBTET website.
- iii. Question paper for End semester Evaluation shall also be task/s based and shall be prepared and distributed by SBTET as done in case of theory courses be prepared as per SBTET rules in vogue.

- c) Internal assessment in Labs / workshops / Survey field work etc., during the course of study shall be done and sessional marks shall be awarded by the concerned Teacher.
- d) For practical examinations, except in drawing, there shall be two examiners. External examiner shall be appointed by the Principal in consultation with respective Head of Section preferably choosing a qualified person from in the order of preference.
- i) Nearby Industry
 - ii) Govt. / Semi Govt organization like R & B, PWD, PR, Railways, BSNL, APSRTC, APSEB etc.,
 - iii) Govt. / University Engg. College.
 - iv) HoDs from Govt. Polytechnic

Internal examiner shall be the person concerned with internal assessment as in (c) above. The end examination shall be held along with all theory papers in respect of drawing.

- e) Question Paper for Practicals: Question paper should cover (the experiments / exercise prescribed to test various) skills like handling, manipulating, testing, trouble shooting, repair, assembling and dismantling etc., from more than one experiment / exercise
- f) Records pertaining to internal assessment marks of both theory and practical Courses are to be maintained for official inspection.

- g) **In case of Diploma programs having Industrial Training, Internal Assessment and Summative Evaluation**, shall be done as illustrated in the following table:

Assessment no	Upon completion of	By	Based on	Max Marks
1	12 weeks	1.The faculty concerned and 2. Training Mentor of the industry	Learning outcomes as given in the scheme of assessment ,for Industrial Training	120
2	20-22 weeks			120
3.Final summative Evaluation	23 week	1.The faculty member concerned, 2.HoD concerned and 3.An external examiner	1.Demonstration of any one of the skills listed in learning outcomes	30
			2.Training Report	20
			3.Viva Voce	10
TOTAL				300

10 MINIMUM PASS MARKS

THEORY EXAMINATION:

For passing a theory Course, a candidate has to secure a minimum of 35% in end examination and a combined minimum of 35% of both Sessional and end examination marks put together.

PRACTICAL EXAMINATION:

For passing a practical Course, a candidate has to secure a minimum of 50% in end examination and a combined minimum of 50% of both sessional and practical end examination marks put together. In case of D.C.C.P., the pass mark for typewriting and short hand is 45% in the end examination. There are no sessional marks for typewriting and Shorthand Courses of D.C.C.P course.

INDUSTRIAL ASSESSMENT:

Pass marks is 50% in assessment at Industry (I and II assessments put together) and also 50% in final summative assessment at institution level

11. PROVISION FOR IMPROVEMENT

Improvement is allowed only after he / she has completed all the Courses from First Year to Final semester of the Diploma.

- a) Improvement is allowed in any 4 (Four) Courses of the Diploma.
- b) The student can avail of this improvement chance **ONLY ONCE**, that too within the succeeding two examinations after the completion of Diploma. However, the duration including Improvement examination shall not exceed **FIVE** years from the year of first admission.
- c) No improvement is allowed in Practical / Lab Courses or Project work or Industrial Training assessment. However, improvement in drawing Course(s) is allowed.
- d) If improvement is not achieved, the marks obtained in previous Examinations hold good.
- e) Improvement is not allowed in respect of the candidates who are punished under Mal-practice in any Examination.
- f) Examination fee for improvement shall be paid as per the notification issued by State Board of Technical Education and Training from time to time.
- g) All the candidates who wish to appear for improvement of performance shall deposit the original Marks Memos of all the years / Semesters and also original Diploma Certificate to the Board. If there is improvement in performance of the current examination, the revised Memorandum of marks and Original Diploma Certificate will be issued, else the submitted originals will be returned.

12. RULES OF PROMOTION FROM 1ST YEAR TO 3rd, 4th, 5th, 6th and 7th SEMESTERS:**A) For Diploma Courses of 3 Years duration**

- i. A candidate shall be permitted to appear for first year examination provided he / she puts in 75% attendance (which can be condoned on Medical grounds upto 10%) i.e. attendance after condonation on Medical grounds should not be less than 65% and pay the examination fee.
- ii. A candidate shall be promoted to 3rd semester if he/she puts the required percentage of attendance in the first year and pays the examination fee. A candidate who could not pay the first year examination fee has to pay the promotion fee as prescribed by State Board of Technical Education and Training, AP from time to time before commencement of 3rd semester.

- iii. A candidate shall be promoted to 4th semester provided he/she puts the required percentage of attendance in the 3rd semester and pay the examination fee. A candidate, who could not pay the 3rd semester exam fee, has to pay the promotion fee as prescribed by State Board of Technical Education and Training AP from time to time before commencement of 4th semester.

A candidate is eligible to appear for the 4th semester examination if he/she

- a) Puts the required percentage of attendance in the 4th semester
- b) Should not have failed in more than four Courses in 1st year

For IVC & ITI Lateral Entry Students:

- a) A candidate is eligible to appear for the 4th semester examination if he/she puts the required percentage of attendance in the 4th semester
 - b) A candidate is eligible to appear for the 4th semester examination if he/she clears at least two Courses in third semester.
- iv) A candidate shall be promoted to 5th semester provided he / she puts the required percentage of attendance in the 4th semester and pays the examination fee. A candidate, who could not pay the 4th semester examination fee, has to pay the promotion fee as prescribed by State Board of Technical Education and Training from time to time before commencement of 5th semester.

A candidate is eligible to appear for the 5th semester examination if he/she

- a) Puts the required percentage of attendance in the 5th semester
- b) Should get eligibility to appear for 4th Semester examination.

The first backlog exam in 5th semester will be conducted only in instant/supplementary diploma examination.

For IVC& ITI Lateral Entry students:

- a) Puts the required percentage of attendance in the 5th semester
- v) A candidate shall be sent to Industrial training provided he/she puts in the required percentage of attendance in the 4th semester and pay the examination fee/ promotion fee as prescribed by SBTET.
- A candidate is eligible to appear for Industrial Training assessment (Seminar/Viva-voce)

- a) Puts the required percentage of attendance, ie., 90% in 6th semester Industrial Training

For IVC & ITI Lateral Entry students:

- a) Puts the required percentage of attendance, ie., 90% in 6th semester Industrial Training.
- b) should get eligibility to appear for 5th Semester Examination.

B) For Diploma Courses of 3 ½ Years duration (MET/ CH/ CHPP/ CHPC/ CHOT/ TT):

- i. A candidate shall be permitted to appear for 1st year examination provided he / she puts in 75% attendance (which can be condoned on Medical grounds upto 10%) i.e. attendance after condonation on Medical grounds should not be less than 65% and pay the examination fee.

- ii. A candidate shall be promoted to 3rd semester if he/she puts the required percentage of attendance in the 1st year and pays the examination fee. A candidate who could not pay the 1st year examination fee has to pay the promotion fee as prescribed by State Board of Technical Education and Training from time to time before commencement of 3rd semester.
- iii. A candidate shall be promoted to 4th semester provided he/she puts the required percentage of attendance in the 3rd semester and pay the examination fee. A candidate, who could not pay the 3rd semester exam fee, has to pay the promotion fee as prescribed by State Board of Technical Education and Training from time to time before commencement of 4th semester.
 - A candidate is eligible to appear for the 4th semester exam if he/she
 - a). Puts the required percentage of attendance in the 4th semester
 - b). Should not have failed in more than Four backlog Courses of 1st year.

For IVC & ITI Lateral Entry students:

- a) Puts the required percentage of attendance in the 4th semester
- iv. A candidate shall be promoted to 5th semester industrial training provided he / she puts the required percentage of attendance in the 4th semester and pays the examination fee. A candidate, who could not pay the 4th semester examination fee, has to pay the promotion fee as prescribed by State Board of Technical Education and Training from time to time before commencement of 5th semester.
- v. Promotion from 5th to 6th semester is automatic (i.e., from 1st spell of Industrial Training to 2nd spell) provided he/she puts the required percentage of attendance, which in this case ie.,90 % of attendance and attends for the VIVA-VOCE examination at the end of training.
- vi. A candidate shall be promoted to 7th semester provided he / she puts the required percentage of attendance in the 6th semester and pays the examination fee. A candidate, who could not pay the 6th semester examination fee, has to pay the promotion fee as prescribed by State Board of Technical Education and Training from time to time before commencement of 7th semester.
- vii. A candidate shall be promoted to 7th semester of the course provided he/she has successfully completed both the spells of Industrial Training.

- A candidate is eligible to appear for 7th semester examination if he/she
 - a) Puts in the required percentage of attendance in the 7th semester
 - b) Should get eligibility to appear for 4th semester Examination.

For IVC & ITI Lateral Entry students:

- a) Puts in the required percentage of attendance in the 7th semester
- b) Should not have failed more than four backlog Courses of 3rd Semester

C) For Diploma Courses of 3 ½ Years duration (BM):

The same rules which are applicable for conventional courses also apply for this course. The industrial training in respect of this course is restricted to one semester (6 months) after the 6th semester (3 years) of the course.

- i. A candidate shall be permitted to appear for first year examination provided he / she puts in 75% attendance (which can be condoned on Medical grounds upto 10%) i.e. attendance after condonation on Medical grounds should not be less than 65% and pay the examination fee.
- ii. A candidate shall be promoted to 3rd semester if he/she puts the required percentage of attendance in the first year and pays the examination fee. A candidate who could not pay the first year examination fee has to pay the promotion fee as prescribed by State Board of Technical Education and Training from time to time before commencement of 3rd semester.
- iii. A candidate shall be promoted to 4th semester provided he/she puts the required percentage of attendance in the 3rd semester and pay the examination fee. A candidate who could not pay the 3rd semester examination fee, has to pay the promotion fee as prescribed by State Board of Technical Education and Training from time to time before commencement of 4th semester.
 - A candidate is eligible to appear for the 4th semester examination if he/she
 - a) Puts in the required percentage of attendance in the 4th semester
 - b) Should not have failed in more than Four backlog Courses of 1st year

For IVC & ITI Lateral Entry Students:

- A candidate is eligible to appear for the 4th semester examination if he/she puts the required percentage of attendance in the 4th semester
- iv. A candidate shall be promoted to 5th semester provided he / she puts the required percentage of attendance in the 4th semester and pays the examination fee. A candidate, who could not pay the 4th semester examination fee, has to pay the promotion fee as prescribed by State Board of Technical Education and Training from time to time before commencement of 5th semester.
 - A candidate is eligible to appear for the 5th semester exam if he/she
 - a) Puts in the required percentage of attendance in the 5th semester.
 - b) Should get eligibility to appear for 4th Semester examination.

For IVC & ITI Lateral Entry students:

- a) Puts in the required percentage of attendance in the 5th semester.
- b) Should not have failed in more than Four backlog Courses of 3rd Semester.
- v. A candidate shall be promoted to 6th semester provided he/she puts in the required percentage of attendance in the 5th semester and pays the examination fee. A candidate who could not pay the 5th semester examination fee, has to pay the promotion fee as prescribed by State Board of Technical Education and Training from time to time before commencement of 6th semester.
 - A candidate is eligible to appear for 6th semester examination
 - a) Puts in the required percentage of attendance in 6th semester and
 - b) should get eligibility to appear for 4th Semester Examination.

For IVC & ITI Lateral Entry students:

- a) Puts in the required percentage of attendance in 6th semester.
- b) Should get eligibility to appear for 5th Semester Examination.

- vi. A candidate shall be promoted to 7th semester provided he/she puts in the required percentage of attendance in 6th semester and pay the examination fee. A candidate, who could not pay the 6th semester examination fee, has to pay the promotion fee prescribed by SBTET from time to time before commencement of the 7th semester (Industrial Training).

A candidate is eligible to appear for 7th semester Industrial Training assessment (Seminar/Viva-voce) if he/she

- a) Puts in the required percentage of attendance, i.e., 90% in 7th semester Industrial Training
- b) Should get eligibility to appear for 4th Semester Examination.

For IVC & ITI Lateral Entry students:

- a) Puts in the required percentage of attendance, i.e., 90% in 7th semester Industrial Training.
- b) Should get eligibility to appear for 5th Semester Examination.

Important Note:

Seminar/Viva-voce should not be conducted for Not-Eligible Candidates, till the candidate gets eligibility. However, the record of internal Assessment for Industrial Training for 260 marks shall be maintained at Institution Level for all candidates and the data is to be uploaded only for eligible candidates. For not eligible candidates the data is to be uploaded as and when the candidate gets eligibility.

OTHER DETAILS

- a) In case a candidate does not successfully complete the Industrial training, he / she will have to repeat the training at his / her own cost.
- b) The First spell of Industrial training shall commence 10 days after the completion of the last theory examination of 4th Semester.
- c) The Second spell of Industrial training shall commence within 10 days after the completion of first spell of Industrial training.

13. STUDENTS PERFORMANCE EVALUATION

Successful candidates shall be awarded the Diploma under the following divisions of pass.

- a) First Class with Distinction shall be awarded to the candidates who secure an overall aggregate of 75% marks and above.
- b) First Class shall be awarded to candidates who secure overall aggregate of 60% marks and above and below 75% marks.
- c) Second Class shall be awarded to candidates who secure a pass with an overall aggregate of below 60%.
 - i. The Weightage of marks for various year/Semesters which are taken for computing overall aggregate shall be 25% of I year marks + 100% of 3rd and subsequent Semesters.
 - ii. In respect IVC & ITI Lateral Entry candidates who are admitted directly into diploma course at the 3rd semester (i.e., second year) level the aggregate of (100%) marks secured at the 3rd and subsequent semesters of study shall be taken into consideration for determining the overall percentage of marks secured by the candidates for award of class/division.

- d) Second Class shall be awarded to all students, who fail to complete the Diploma in the regular 3 years/ 3 ½ years and four subsequent examinations, from the year of first admission.

14. EXAMINATION FEE SCHEDULE:

The examination fee should be as per the notification issued by State Board of Technical Education and Training, AP from time to time.

15. STRUCTURE OF EXAMINATION QUESTION PAPER:

I. Formative assessment (Internal examination)

a) For theory Courses:

Three unit tests for first year and two unit tests for semesters shall be conducted with a duration of 90 minutes for each test for maximum marks of 40. It consists of part A and Part B.

Part A contains five questions and carries 16 marks. Among these five questions first question consists of four objective items like one word or phrase answer/filling-in the blanks/true or false etc with one mark for each question. The other four questions are short answer questions and carry three marks each.

Part B carries 24 marks and consists of three questions with internal choice i.e., Either/Or type, and each question carries 8 marks.

The sum of marks of 3 tests for 1 year and 2 tests for semesters shall be reduced to 20 marks in each Course for arriving at final sessional marks.

b) For drawing Courses:

For 1 year:

Three unit tests with duration of 90 minutes and for maximum marks of 40 marks shall be conducted for first year. It consists of part A and Part B.

Part A consists four questions for maximum marks of 16 and each question carries four marks (4×4 marks=16 marks).

Part B carries maximum marks of 24 and consists of five questions while the student shall answer any three questions out of these five questions. Each question in this part carries a maximum marks of 8, (3×8 marks=24 marks).

The sum of marks obtained in 3 unit test marks shall be reduced to 20 marks for arriving at final sessional marks. Remaining 20 marks are awarded by the Course teacher based on the student's performance during regular class exercise.

For semester: Two unit tests with duration of 90 minutes and for maximum marks of 40 marks shall be conducted. The sum of marks obtained in 2 unit test marks shall be reduced to 20 marks for arriving at final sessional marks. Remaining 20 marks are awarded by the Course teacher based on the student's performance during regular class exercise

- c) For Laboratory /workshop:** 50% of total marks for the Course shall be awarded based on continuous assessment of the student in laboratory/workshop classes and the remaining 50% shall be based on the sum of the marks obtained by the students in two tests.

II. Summative assessment (End examination)

The question paper for theory examination is patterned in such a manner that the Weightage of periods/marks allotted for each of the topics for a particular Course be considered. End Examination paper is of 3 hours duration.

a) Each theory paper consists of Section 'A', 'B' and 'C'.

Section 'A' with Max marks of 30, contains 10 short answer questions. All questions are to be answered and each carries 3 marks, i.e., $10 \times 3 = 30$.

Section 'B' with Max marks of 40 contains 5 essay type questions including Numerical questions (without any divisions in the question), with internal choice (Either/or type), each carrying 8 marks, i.e., Max. Marks: $5 \times 8 = 40$.

Section 'C' with Max marks of 10 contains single essay type, Higher order Thinking skills question (HoTs) including Numerical questions, without choice (without any divisions in the question),

Thus the total marks for theory examination shall be: 80.

b) For Engineering Drawing Course (107) consist of section 'A' and section 'B'.

Section 'A' with max marks of 20, contains four (4) questions. All questions in section 'A' are to be answered to the scale and each carries 5 marks, ie. $4 \times 5 = 20$.

Section 'B' with max marks of 40, contains six (6) questions. The student shall answer any four (4) questions out of the above six questions and each question carries 10 Marks, ie.

$4 \times 10 = 40$.

c) Practical Examinations

For Workshop practice and Laboratory Examinations, Each student has to pick up a question paper distributed by Lottery System.

Max. Marks for an experiment / exercise : 50

Max. Marks for VIVA-VOCE : 10

Total Max. Marks : 60

In case of practical examinations with 50 marks, the marks shall be distributed as

Max. Marks for an experiment / exercise : 25

Max. Marks for VIVA-VOCE : 05

Total Max. Marks : 30

In case of any change in the pattern of question paper, the same shall be informed sufficiently in advance to the candidates.

d) Note: Evaluation for Laboratory Courses, other than Drawing courses:

- I. Instruction (teaching) in laboratory courses (except for the course on Drawing) hereafter shall be task/competency based as delineated in the Laboratory sheets, prepared by SBTET, AP and posted in its website.
- II. Internal assessment for Laboratory shall be done on basis of task/s performed by the student as delineated in the laboratory sheets, prepared by SBTET, AP and posted in its website.
- III. Question paper for End semester Evaluation shall be prepared as per SBTET rules in vogue.

16. ISSUE OF MEMORANDUM OF MARKS

All candidates who appear for the end examination will be issued memorandum of marks without any payment of fee. However candidates who lose the original memorandum of marks have to pay the prescribed fee to the Secretary, State Board of Technical Education and Training, A.P. for each duplicate memo from time to time.

17. MAXIMUM PERIOD FOR COMPLETION OF DIPLOMA Programmes:

Maximum period for completion of the diploma courses is twice the duration of the course from the date of First admission (includes the period of detention and discontinuation of studies by student etc) failing which they will have to forfeit the claim for qualifying for the award of Diploma (They will not be permitted to appear for examinations after that date). This rule applies for all Diploma courses of 3 years and 3 ½ years of engineering and non-engineering courses.

18. ELIGIBILITY FOR AWARD OF DIPLOMA

A candidate is eligible for award of Diploma Certificate if he / she fulfil the following academic regulations.

- i. He / She pursued a course of study for not less than 3 / 3 ½ academic years & not more than 6 / 7 academic years.
- ii. He / she have completed all the Courses.
Students who fail to fulfil all the academic requirements for the award of the Diploma within 6 / 7 academic years from the year of admission shall forfeit their seat in the course & their seat shall stand cancelled.

For IVC & ITI Lateral Entry students:

- i. He / She pursued a course of study for not less than 2 / 2 ½ academic years & not more than 4 / 5 academic years.
- ii. He / she has completed all the Courses.
Students who fail to fulfill all the academic requirements for the award of the Diploma within 4 / 5 academic years from the year of admission shall forfeit their seat in the course & their seat shall stand cancelled.

19. ISSUE OF PHOTO COPY OF VALUED ANSWER SCRIPT, RECOUNTING& REVERIFICATION:

A) FOR ISSUE OF PHOTO COPIES OF VALUED ANSWER SCRIPTS

- I. A candidate desirous of applying for Photo copy of valued answer script/s should apply within prescribed date from the date of the declaration of the result.
- II. Photo copies of valued answer scripts will be issued to all theory Courses and Drawing Course(s).
- III. The Photo copy of valued answer script will be dispatched to the concerned candidate's address as mentioned in the application form by post.
- IV. No application can be entertained from third parties.

B) FOR RE-COUNTING(RC) and RE-VERIFICATION(RV) OF THE VALUED ANSWER SCRIPT

- i. A candidate desirous of applying for Re-verification of valued answer script should apply within prescribed date from the date of the declaration of the result.

- ii. Re-verification of valued answer script shall be done for all theory Courses' and Drawing Course(s).
- iii. The Re-verification committee constituted by the Secretary, SBTETAP with Course experts shall re-verify the answer scripts.

I. **RE-COUNTING**

The Officer of SBTET will verify the marks posted and recount them in the already valued answer script. The variations if any will be recorded separately, without making any changes on the already valued answer script. The marks awarded in the original answer script are maintained (hidden).

II. **RE-VERIFICATION**

- (i) The Committee has to verify the intactness and genuineness of the answer script(s) placed for Re-verification.
- (ii) Initially single member shall carry out the re-verification.
- (iii) On re-verification by single member, if the variation is less than 12% of maximum marks, and if there is no change in the STATUS in the result of the candidate, such cases will not be referred to the next level ie., for 2-Tier evaluation.
- (iv) On re-verification by a single member, if the variation is more than 12% of maximum marks, it will be referred to 2-Tier evaluation.
- (v) If the 2-Tier evaluation confirms variation in marks as more than 12% of maximum marks, the variation is considered as follows:
 - a) If the candidate has already passed and obtains more than 12% of the maximum marks on Re-verification, then the variation is considered.
 - b) If the candidate is failed and obtains more than 12% of the maximum marks on Re-verification and secured pass marks on re-verification, then the status of the candidate changes to PASS.
 - c) If a candidate is failed and obtains more than 12% of the maximum marks on Re-verification and if the marks secured on re-verification are still less than the minimum pass marks, the status of the candidate remain FAIL only.
- (vii) After Re-verification of valued answer script the same or change if any therein on Re-verification, will be communicated to the candidate.
- (viii) On Re-verification of Valued Answer Script if the candidate's marks are revised, the fee paid by the candidate will be refunded or else the candidate has to forfeit the fee amount.

Note: No request for Photo copies/ Recounting /Re-verification of valued answer script would be entertained from a candidate who is reported to have resorted to Malpractice in that examination.

20. MAL PRACTICE CASES:

If any candidate resorts to Mal Practice during examinations, he / she shall be booked and the Punishment shall be awarded as per SBTETAP rules and regulations in vogue.

21. DISCREPANCIES/ PLEAS:

Any Discrepancy /Pleas regarding results etc., shall be represented to the SBTETAP within one month from the date of issue of results. Thereafter, no such cases shall be entertained in any manner.

22. ISSUE OF DUPLICATE DIPLOMA

If a candidate loses his/her original Diploma Certificate and desires a duplicate to be issued he/she should produce written evidence to this effect. He / she may obtain a duplicate from the Secretary, State Board of Technical Education and Training, A.P., on payment of prescribed fee and on production of an affidavit signed before a First Class Magistrate (Judicial) and non-traceable certificate from the Department of Police. In case of damage of original Diploma Certificate, he / she may obtain a duplicate certificate by surrendering the original damaged certificate on payment of prescribed fee to the State Board of Technical Education and Training, A.P.

In case the candidate cannot collect the original Diploma within 1 year from the date of issue of the certificate, the candidate has to pay the penalty prescribed by the SBTET AP from time to time.

23. ISSUE OF MIGRATION CERTIFICATE AND TRANSCRIPTS:

The Board on payment of prescribed fee will issue these certificates for the candidates who intend to prosecute Higher Studies in India or Abroad.

24. The following specific changes are discussed and incorporated:

All the courses in earlier curricula are reviewed and the following specific changes are discussed and incorporated.

- During the workshop an idea of modular scheme of instruction has emerged which doesn't suit to Architecture program as Architecture programme is a combination of art and technology. Architecture program involves more of creativity, visualization, perception of design concepts and art skills, which cannot be attained in one-week modules but needs a continuous practice. Hence, modular system of C-20 cannot be adopted for Architecture programme.
- Contemporary topics related to certain subjects are introduced for updating the student to fit for the industry.
- It is proposed to have five theory and five practical / drawing courses in each semester.
- From C-05 curriculum, Industrial training has been successfully running and it is very beneficial to students in getting practical exposure and also getting placements. Consulting architects strongly suggested to continue it in C-20 also as practical exposure is the very essence of Architectural education and practical training cannot be separated from architecture curriculum. Hence, practical training is continued for one full semester at fifth semester level.
- AA-105 Building materials: market survey on material specimen collection is added to enable the students to visualise the materials and to know their costs. Classification of stones in chapter 1, glass bricks in chapter 10, antifungus & anti corrosive paints in chapter 12, PVC doors & windows, plastics for water tanks & false ceilings, Gypsum boards, Aluminium elevation sheets & composite panels, polycarbonate sheets, cement boards, tensile roofing are added in chapter 14.

- AA-106 Basic design -chapter 05 (colour theory) has been added and the exercises to be done are specifically mentioned under separate heading “exercises”.
- AA-107 Architectural Graphics: Conic Sections are added in chapter 7, which is a new topic which strengthens the subject.
- AA-302 History of Indian Architecture: Deccan architecture in chapter 8 & Mughal gardens in chapter 9 are added.
- AA-304: In Surveying, Total station is included in the new draft curriculum.
- AA-306: Architectural design-I & AA-406: Architectural design-II Case study is added in C-20 curriculum to have practical exposure before designing the architectural portfolios. Barrier free aspects are included in design problems.
- AA-307: Building construction drawing-I & AA-407: Building construction drawing-II topics are kept in a sequence of constructional operations of a building i.e. from foundation to parapet level.
- AA-308 Interior Designing and Landscaping chapter 04 (Landscape Elements) The elements have been categorized and elaborated.
- AA-310: In Surveying Practicals -Practicals on Total station is added.
- AA-403 World Architecture In chapter 05, Byzantine Architecture has been included and in chapter 06 Gothic architecture Reims Cathedral has been added.
- Urban planning subject is shifted from IV semester to VI semester.
- AA-602 Modern Architecture: In chapter 01 (industrial revolution) three structures were added. New chapter 03 (Colonial architecture of India) has been introduced. From chapter 04 one topic Hashmukh Patel has been deleted.
- AA-604 Structural Design: in chapter 1-various types of concretes and concreting methods are added and working stress method is deleted.
- Consulting Architects suggested to add Building Services drawing and Practicals. Hence AA-606 Building services drawing has been introduced in place of Building services lab and Practical are covered in construction practice Lab. Two topics 1. Illumination 2. Green buildings are included
- AA-610 Project work is added in 6th semester and one subject “Design Practice lab” is deleted from 6th semester as its contents are repeating in project work.

25. GENERAL

- i. The Board may change or amend the academic rules and regulations or syllabi at any time and the changes or amendments made shall be applicable to all the students, for whom it is intended, with effect from the dates notified by the competent authority.

- ii. All legal matters pertaining to the State Board of Technical Education and Training, AP are within the jurisdiction of Vijayawada.
- iii. In case of any ambiguity in the interpretation of the above rules, the decision of the Secretary, SBTET, A.P is final.

DAA
(Diploma in Architectural Assistantship)

Vision

Develop Architectural Assistants (Diploma Architects) to be competent technically, aesthetically and professionally active in the field, to present the Architectural themes, schemes and projects and to create self-sufficient and employed individuals to serve the society through professionalism, ethics and values.

Mission

- M1: To provide a suitable base of learning of Architectural education through curriculum and make it conducive to produce proficient professionals in the field of activity.
- M2: To enable to learn and apply the learnt skills, while in profession or in the job or in industry.
- M3: To produce quality professionals who can make and present the Architectural concepts suitable to the project and work independently and collectively in a team maintaining human values and ethics.
- M4: To create self-sufficient individuals, who can serve and transform the society through their profession.

Program Educational Objectives (PEOs)

Architecture (Shelter Creation) is the very basic essential subject and profession, after Food and Clothing (Roti, Kapada). It is the profession that can transform the people, cities and the whole of the environments. It is the most visual subject and profession, that is visible and evident everywhere in all the human habitats. The world's great civilizations, prosperity and developments are measured and remembered by their great monumental structures and the city-scapes. The subject is well connected to all the fields such as... residential, educational, religious, spiritual, commercial, health, industrial, recreational, political, transport, cinema, sports and games. The profession is ever-active and can influence all the sectors and can bring vital changes in every field of activity. The scope of the profession is unlimited and ever-changing.

- PEO1: To enable to learn and apply the essential shelter needs of human beings in architectural designs and use them to the need and utility in making architectural environments.
- PEO2: To enable to know the materials of construction and architectural design, and make the architectural drawings, approval drawings, do estimates of materials and cost.
- PEO3: To be active in the fields of communication, soft skills and entrepreneurial, and work independently or in a team.
- PEO4: To be ever-active and changeable to the changing needs and contemporary needs of people and society.
- PEO5: Maintain professional codes, ethics and human values and be active and resilient in the aspects of local, regional, national and international developments, culture, work culture and environment.

PART-A: 10 Questions 3 marks each =30 Marks

PART-B: 5 Questions 8 marks each =40 Marks

Part-C: 1 Question 10 marks =10 Marks
(Higher Order Question)

All Questions are compulsory

Internal choice

No choice, one compulsory question

: 60 minutes

: 90 minutes

: 30 minutes

NOTE: * indicates questions can be given from any of the corresponding lessons in the blue print.

Question Paper Pattern for Unit Tests

Part A: 16 marks: 4 questions with 1 mark each (FIB, True/false, one word/phrase, etc.)
4 questions with 3 marks each (short answer/ descriptive/ applicative questions)
Part B: 24 marks: 3 questions 8 marks each with internal choice

LEARNING OUTCOMES

1. English for Employability

- 1.1. Explain the need for improving communication in English for employability
- 1.2. Use adjectives and articles effectively while speaking and in writing
- 1.3. Write simple sentences

2. Living in Harmony

- 2.1. Develop positive self-esteem for harmonious relationships
- 2.2. Use affixation to form new words
- 2.3. Use prepositions and use a few phrasal verbs contextually

3. Connect with Care

- 3.1. Use social media with discretion
- 3.2. Speak about abilities and possibilities
- 3.3. Make requests and express obligations
- 3.4. Use modal verbs and main verbs in appropriate form
- 3.5. Write short dialogues for everyday situations

4. Humour for Happiness

- 4.1. Explain the importance of humour for a healthy living
- 4.2. Improve vocabulary related to the theme
- 4.3. Display reading and speaking skills
- 4.4. Frame sentences with proper Subject – Verb agreement
- 4.5. Explain the features of a good paragraph and learn how to gather ideas as a preliminary step for writing a good paragraph.

5. Never Ever Give Up!

- 5.1. Practice to deal with failures in life.
- 5.2. Use the present tense form for various every day communicative functions such as speaking and writing about routines, professions, scientific descriptions and sports commentary.
- 5.3. Write paragraphs with coherence and other necessary skills.

6. Preserve or Perish

- 6.1. Describe the ecological challenges that we face today and act to save the environment.
- 6.2. Narrate / Report past events.
- 6.3. Develop vocabulary related to environment.
- 6.4. Write e-mails.

7. The Rainbow of Diversity

- 7.1. Illustrate and value other cultures for a happy living in multi-cultural workspace
- 7.2. Use different types of sentences
- 7.3. Ask for or give directions, information, instructions
- 7.4. Use language to express emotions in various situations
- 7.5. Write letters in various real life situations

8. New Challenges – Newer Ideas

- 8.1. Explain the functional difference between Active Voice and Passive Voice
- 8.2. Use Passive Voice to speak and write in various contexts
- 8.3. List the major parts and salient features of an essay
- 8.4. Explain latest innovations and get motivated

9. The End Point First!

- 9.1. Illustrate the importance of setting a goal in life
- 9.2. Report about what others have said both in speaking and writing
- 9.3. Write an essay following the structure in a cohesive and comprehensive manner
- 9.4. Apply the words related to Goal Setting in conversations and in life

10. The Equal Halves

- 10.1. Value the other genders and develop a gender-balanced view towards life
- 10.2. Identify the use of different conjunctions in synthesising sentences
- 10.3. Write various types of sentences to compare and contrast the ideas
- 10.4. Apply the knowledge of sentence synthesis in revising and rewriting short essays
- 10.5. Develop discourses in speech and writing

11. Dealing with Disasters

- 11.1. Speak and write about different kinds of disasters and the concept of disaster management
- 11.2. Generate vocabulary relevant to disaster management and use it in sentences
- 11.3. Analyze an error in a sentence and correct it
- 11.4. write different kinds of reports

STATE BOARD OF TECHNICAL EDUCATION –A.P
C20- AA-101-ENGLISH
UNIT TEST-1

Time: 90 minutes

Max. Marks: 40

PART-A

4X4= 16 marks

Instructions: Answer all the questions. Each question carries FOUR Marks.

1. Rewrite / Fill in the blank as directed. Each question carries ½ Mark. **(CO2)**
 - a) Write the antonym of 'cruel'
 - b) Write the synonym of 'love'
 - c) Give prefix to 'adventure'.
 - d) Give suffix to 'liberate'
 - e) It is _____ universal truth. (Fill in with suitable article)
 - f) The boy is fond ____ ice-cream. (Fill in the blank with proper preposition)
 - g) He ____ not like sweets. (Fill in the blank with correct primary auxiliary verb.)
 - h) We _____ respect our national flag. (Fill in with a proper modal verb)
2. Rewrite the sentences as directed. Each question carries One mark. 4X1=4 Marks **(CO2)**
 - a) No other metal is so useful as iron. (Change into superlative degree)
 - b) Very few students are so clever as Ramesh. (Change into comparative degree)
 - c) Guess the contextual meaning of the italicized word in the following sentence.
"The CBI officer has *interrogated* the bank employees in connection with the scam."
 - d) Only sings plays Prasanth not also well but cricket. (Rearrange the jumbled words)
3. Fill in the blanks with proper form of the verb given in brackets. 4X1 = 4 marks **(CO2)**

The IPSGM _____(hold) in our college last month. Nearly all the colleges in our zone _____(participate) in the event. The prizes _____ (distribute) by the district collector. Next year, Government Polytechnic, Vijayawada _____ (conduct) the games meet.
4. Rewrite the following sentences after making necessary corrections: 4X 1= 4 Marks **(CO3)**
 - a) The police has arrested the culprit.
 - b) Three hundred miles are a long distance.
 - c) The Principal along with the Heads of Sections have visited the laboratories.
 - d) Either he or I is to blame.

PART-B

3X8=24 Marks

Instructions: Answer all the questions and each question carries EIGHT marks.

5. Write a dialogue of at least five turns between a shopkeeper and customer about buying a mobile phone. **(CO3)**
6. Make an analysis and write a paragraph in around 100 words about your strengths and weaknesses in learning and using English and also the measures to improve it. **(CO3)**
7. Write a paragraph in about 100 words on how to overcome low esteem and negativity. **(CO3, CO4)**

STATE BOARD OF TECHNICAL EDUCATION –A.P
C20-AA-101-ENGLISH
UNIT TEST-II

Time: 90 minutes

Max. Marks: 40

PART-A

4X4= 16 Marks

Instructions: Answer all the questions. Each question carries FOUR marks.

1. Match the words in column A with their corresponding meanings in column B **(CO2)**

Column A

- a) Deserve
- b) hidden
- c) Preserve
- d) Incessant

Column B

- i) continuous
- ii) protect
- iii) worthy
- iv) praise
- v) unseen
- vi) affection

2. Rewrite as directed: **(CO3)**

- a) You ask your Mom to give you another chocolate. (Change into a request)
- b) The baby fell down and got injured. (Change into an exclamatory sentence)
- c) The match was very interesting. (Frame a question using 'how')
- d) Hemanth submitted his project report last week. (Frame Yes-No question)

3. Fill in the blanks with appropriate forms of verbs given in brackets: **(CO2)**

- a) The Sun _____ (set) in the west.
- b) Balu _____ (sing) for over fifty years in the films.
- c) We _____ (see) a camel on the road yesterday.
- d) They _____(enter) the stadium before the gates were closed.

4. Change the voice of the following: **(CO2)**

- a) Marconi invented the radio.
- b) Sravanthi has been offered a job.
- c) Pragathi can type the letter.
- d) The Chief Guest will be received by the Final year students.

PART-B

3X8=24 Marks

Answer all the questions. Each question carries EIGHT marks.

- 5. Write a letter to your younger brother motivating him to deal with failures and hurdles in life. **(CO3)**
- 6. Write an essay in around 120 words on the role of robots in the modern world. **(CO3)**
- 7. Read the following passage and answer the questions that follow: **(CO3)**

The greatest enemy of mankind, as people have discovered, is not science, but war. Science merely reflects the social forces by which it is surrounded. It was found that when there is peace, science is constructive when there is war, science is perverted to destructive end. The weapons which science gives us do not necessarily create war. These make war increasingly more terrible. Until now, it has brought us on the doorstep of doom. Our main problem, therefore, is not to curb science, but to substitute law for force, and international government for anarchy in the relations of one nation with another. That is a job in which

everybody must participate, including the scientists. Now we are face to face with these urgent questions: Can education and tolerance, understanding and creative intelligence run fast enough to keep us side by side without our mounting capacity to destroy? That is the question which we shall have to answer, one way or the other, in this generation. Science must help us in the answer, but the main decision lies within ourselves. The hour is late and our work has scarcely begun.

- a. What is the chief enemy of man?
- b. What does science reflect?
- c. When is science perverted?
- d. What makes war more terrible?
- e. Why do we need international government?
- f. What are the four aspects that may stop destruction?
- g. Have we really started our work to fight the problem discussed?
- h. Pick the word from the passage that would mean: 'replace with other one'

STATE BOARD OF TECHNICAL EDUCATION –A.P
C20-AA-101-ENGLISH
UNIT TEST-III

Time: 90 minutes

Max. Marks: 40

PART-A

4X4 = 16 Marks

Instructions: Answer all the questions. Each question carries Four marks.

1. Give the meaning of the word in italics: (CO3)
 - a) When the girls laughed in the class, the teacher was *furios*.
 - b) He was *rusticated* from the school for his misbehavior.
 - c) Vikramaditya was a *benevolent* Indian King.
 - d) We should not show any *discrimination* between boys and girls.
2. Change the speech of the following: (CO2)
 - a) He said, "I am sorry."
 - b) The teacher said to the boys, "Why are you late?"
 - c) Sushma said that she had submitted her report recently.
 - d) Pratap requested Priya to give him her pen.
3. Rewrite as directed: (CO2)
 - a) Though he was weak, he took the test. (change into a simple sentence)
 - b) You must work hard to achieve success. (change into a complex sentence)
 - c) If you run fast, you will catch the bus. (change into a compound sentence)
 - d) The fog disappeared when the Sun rose. (Split into two simple sentences)
4. Locate eight errors from the following passage and correct them. (CO2)

Once upon a time there live a king who was very kind to his people. In his council of ministers, there is a wise man. He had a son called Sumanth who was a educated and highly learned. Once the wise minister fall sick. All the physicists in the country could not heal him. Then Sumanth will go in search of medicine in Himalayas. He bring the special medicinal roots to cure his father's sickness. Sumanth looked before his father carefully and healed him. The king rewarded Sumanth with rich gifts.

PART- B

3X8 = 24 Marks

Instructions: Answer all the questions and each one carries eight marks.

5. Read the following paragraph and make notes first and then its summary. (CO3)

Astronauts are people who travel on space ships. They need to have a very clean home. They travel far from Earth. We need clean kitchens everywhere on earth and in space. Astronauts have to solve two problems: how to get food and how to keep their spaceship clean. Here is how they solved the food problem. At first, the astronauts took tubes of food with them into space. They would squeeze a tube and eat semi-liquid food. It did not taste great, but since they did not need to take dishes or silverware with them, they had no dishes to wash. Today's spaceships have a bigger menu. Astronauts can eat from bowls. In fact, they take cereal and other standard foods with them. The foods are packaged in special containers to keep them fresh. They use knives, forks, and spoons. One unusual item on their table is a pair of scissors. They use the scissors to open the food packages. They can eat right from the package. They have a kitchen on the spaceship. Its oven can heat food to 170 degrees. The kitchen has water

and sets of meals that come on trays. The astronauts choose their menu before they go into space. They take a lot of food with them. The astronauts keep bread and fresh fruits and vegetables in a special food locker. How do they keep the kitchen clean? They do not have to worry about mice or other rodents. They make sure that there are no rodents before the ship leaves. But sometimes mice travel on the ship. Those mice are part of experiments. They live in cages. How do astronauts keep their trays clean? That is another health problem the astronauts solve. They need to stay healthy in space. To carry a lot of water to wash trays would be a lot of extra weight. They pack wet wipes in plastic bags. They use them to clean trays. So, their kitchen is clean and they stay healthy.

6. Write an essay in about 120 words on the importance of goal setting and your short and long term goals. **(CO3,CO4)**
7. Write a report about the bush fire that raged in Australia recently by using the following clues: forest, natural disaster, wild fire, dried leaves, no rain fall, wild animals, burnt alive, loss of flora and fauna, fire fighters, uncontrollable, moderate rains, environmental pollution, measures to protect...etc. **(CO3)**

STATE BOARD OF TECHNICAL EDUCATION- A.P
Model Question Paper
C20-AA-101- ENGLISH

Time: 3hrs

Max.Marks:80

PART-A

10X3=30 Marks

Instructions: Answer all the questions. Each question carries Three marks.

1. a) Fill in the blanks with suitable articles: **(CO2)**
I have seen _____ European at _____ local market.
- b) Fill in with proper form of adjective given in the bracket: **(CO2)**
China is the _____ country in the world. (populous, more populous, most populous)
- c) i) Choose the synonym from the following for the word : 'filthy' **(CO3)**
dirty / clean / hygienic / tidy
- ii) Choose the antonym from the following for the word: 'exterior' **(CO3)**
external / internal / open / interior
2. a) i) Give prefix for the word: 'popular' **(CO2)**
ii) Write suffix for the word : 'king' **(CO2)**
- b) He was married _____ her _____ January 2015. (Fill in with appropriate preposition) **(CO3)**
- c) Match the words in column A with their corresponding meanings in column B: **(CO2)**
- | Column-A | Column-B |
|-----------------|-----------------|
| i) Dynamic | a) tasty |
| ii) Gloomy | b) active |
| | c) sad |
| | d) proud |
3. a) The old man hunted for his spectacles. (Give the contextual meaning of the word in italics) **(CO3)**
- b) The committee / have submitted / its report / to the President. (identify the part which contains an error) **(CO3)**
- c) Recently has a scooter purchased Shanthi. (Rearrange the jumbled words to make a meaningful sentence.) **(CO3)**
4. a) Use the following primary auxiliary verb in sentence of your own: **(CO2)**
' does'
- b) Fill in the blank with proper modal auxiliary verb based on the clue in the bracket: **(CO2)**
Harish _____ speak four languages. (ability)
- c) Rakesh wants two hundred rupees from his father. (Write the sentence how he requests his Father) **(CO2)**
5. Fill in the blanks with suitable form of the verb given in brackets: **(CO2)**
- a) He _____ (go) for a walk daily.
- b) The bus _____ (arrive) just now.
- c) We _____ (live) in Chennai since 2005.
6. Change the voice of the following sentences: **(CO2)**
- a) English is spoken all over the world.
- b) They watched a movie yesterday.
- c) The Chief Minister will inaugurate the exhibition.
7. a) It is a beautiful rainbow. (Change into an exclamatory sentence) **(CO3)**
- b) C.V. Raman won the Nobel Prize in 1930. (Frame a question using 'When') **(CO3)**
- c) He can swim across the river. (change into 'Yes / No' question) **(CO3)**

8. Change the speech of the following: (CO2)
 a) He said, "I will go to Delhi tomorrow."
 b) Ravi said to Ashok, "Where are you going?"
 c) She told him to mind his own business.
9. Rewrite as directed: (CO2)
 a) In spite of being busy he attended the meeting. (Rewrite the sentence using 'though')
 b) She is poor. She is honest. (combine the two sentences using 'but')
 c) On seeing the tiger, he climbed a tree. (split into two simple sentences)
10. Rewrite the following sentences after making necessary corrections: (CO2)
 a) We have gone to picnic yesterday.
 b) Suresh watched T.V when I went to his house.
 c) They left Gujarat before the earthquake occurred.

PART-B

5X8=40

Instructions: Answer the following questions. Each question carries EIGHT marks.

11. Write a paragraph in about 100 words on what you do daily. (CO3,CO4)
 OR
 Write a paragraph in about 100 words on the uses and misuses of social media.
12. Construct a dialogue of at least five turns between an American and you about places worth visiting in your city. (CO3,CO4)
 OR
 Compose a dialogue of at least five turns between two friends, one favouring homemade food and the other, fast foods.
13. Write a letter to your parents about your preparation for year-end examinations. (CO3,CO4)
 OR
 Write a letter to the editor of a newspaper about the inconvenience caused due to loud speakers in your area.
14. Write an essay in about 120 words on measures to prevent water pollution.
 OR
 Write an essay in about 120 words on importance of gender equality.
15. Read the following passage and answer the questions that follow: (CO3)

A farmer in ancient China had a neighbour who was a hunter, and who owned ferocious and poorly trained hunting dogs. They jumped over the fence frequently and chased the farmer's lambs. The farmer asked his neighbour to keep his dogs in check, but this fell on deaf ears. One day the dogs again jumped the fence, attacked and severely injured several of the lambs.

The farmer had had enough, and went to town to consult a judge who listened carefully to the story and said: "I could punish the hunter and instruct him to keep his dogs chained or lock them up. But you would lose a friend and gain an enemy. Which would you rather have, friend or foe for a neighbour?" The farmer replied that he preferred a friend. "Alright, I will offer you a solution that keeps your lambs safe, and which will keep your a neighbour a friend." Having heard the judge's solution, the farmer agreed.

Once at home, the farmer immediately put the judge's suggestions to the test. He took three of his best lambs and presented them to his neighbour's three small sons, who were beside themselves with joy and began to play with them. To protect his son's newly acquired playthings, the hunter built a strong kennel for his dogs. Since then, the dogs never again bothered the farmer's lambs. Out of gratitude for the farmer's generosity toward his sons, the

hunter often shared the game he had hunted with the farmer. The farmer reciprocated by sending the hunter the cheese he had made. Within a short time the neighbours became good friends.

- a) What kind of dogs does the neighbor have?
- b) When did the farmer consult the judge?
- c) What would be the consequence if the judge punished the neighbor?
- d) What was the solution suggested by the judge?
- e) What did the neighbour's sons do with the gifts they received?
- f) How did the dogs stop bothering the farmer's lambs?
- g) What items are exchanged happily between the two neighbours?
- h) Pick the word from the passage that would mean: 'a closed shelter for dogs'.

OR

Read the following short poem and answer the questions that follow:

Crisp in the winter's morning,
Softly all through the night,
What is this without warning,
Falling and white?

I have never seen snow,
But I can imagine it quite –
Not how it tastes, but I know,
It falls and is white.

One morning I'll open the door,
To bring in the morning's milk,
And all around there'll be snow –
Fallen and still.

How I'll roll in the stuff!
How I'll tumble and spin!
Until the neighbours cry,
Enough! And send me back in.

- Q.1. What is the poem about?
2. How does snow fall?
3. Did you ever touch snow? How did you feel?
4. a) Pick the word from the poem that means 'slip and fall'
b) Write the antonym for the word 'soft'

SECTION – C

1X10=10 Marks

16. Write a report on the blood donation camp organized by International Red Cross Society in your college. Use the following clues: date, time, place, arrangements, donors, equipment, doctors, response, sponsors, snacks, volunteers, help others, save lives...etc.

Course Code	Course Title	No. of Periods/week	Total No. of periods	Marks for FA	Marks for SA
AA-102	Engineering Mathematics-I	5	150	20	80

S.No.	Unit Title	No. of periods	COs mapped
1	Algebra	31	CO1
2	Trigonometry	44	CO2
3	Co-ordinate Geometry	23	CO3
4	Differential Calculus	33	CO4
5	Applications of Differentiation	19	CO4, CO5
Total Periods		150	

Course Objectives	<ul style="list-style-type: none"> (i) To apply the principles of Algebra, Trigonometry and Co-Ordinate Geometry to real-time problems in engineering. (ii) To comprehend and apply the concept of Differential Calculus in engineering applications.
--------------------------	---

Course Outcomes	CO1	Identify various functions, resolve partial fractions and solve problems on matrices.
	CO2	Solve problems using the concept of trigonometric functions, their inverses and complex numbers.
	CO3	Find the equations and properties of straight lines, circles and conic sections in coordinate system.
	CO4	Evaluate the limits and derivatives of various functions.
	CO5	Evaluate solutions for engineering problems using differentiation.

ENGINEERING MATHEMATICS – I
COMMON TO ALL BRANCHES
Learning Outcomes
UNIT – I

C.O. 1 Identify various functions, resolve partial fractions and solve problems on matrices.

L.O. 1.1 Define Set, ordered pairs and Cartesian product - examples.

1.2 Explain Relations and functions – examples

1.3 Find Domain & Range of functions – simple examples.

1.4 Classify types of functions (into, many-to-one, one-one, onto and bijective).

1.5 Define inverse functions - examples.

1.6 Define rational, proper and improper fractions of polynomials.

1.7 Explain the procedure of resolving rational fractions of the type mentioned below into partial fractions

$$\begin{array}{ll}
 i) \quad \frac{f(x)}{(ax+b)(cx+d)} & ii) \quad \frac{f(x)}{(ax+b)^2(cx+d)} \\
 iii) \quad \frac{f(x)}{(x^2+a^2)(bx+c)} & iv) \quad \frac{f(x)}{(x^2+a^2)(x^2+b^2)}
 \end{array}$$

1.8 Define a matrix and order of a matrix.

1.9 State various types of matrices with examples (emphasis on 3rd order square matrices).

1.10 Compute sum, scalar multiplication and product of matrices. Illustrate the properties of these operations such as associative, distributive, commutative properties with examples and counter examples.

1.11 Define the transpose of a matrix and write its properties;

1.12 Define symmetric and skew-symmetric matrices with examples. Resolve a square matrix into a sum of a symmetric and skew-symmetric matrices and provide examples.

1.13 Define determinant of a square matrix, minor, co-factor of an element of a 3x3 square matrix with examples. Expand the determinant of a 3 x 3 matrix using Laplace expansion formula. State and apply the properties of determinants to solve problems.

1.14 Distinguish singular and non-singular matrices. Define multiplicative inverse of a matrix and list properties of adjoint and inverse. Compute adjoint and multiplicative inverse of a square matrix.

1.15 Solve system of 3 linear equations in 3 unknowns using Cramer's rule and matrix inversion method.

UNIT - II

C.O.2 Solve problems using the concept of trigonometric functions, their inverses and complex numbers.

L.O. 2.1 Define trigonometric ratios of any angle.

2.2 List the values of trigonometric ratios at specified values.

2.3 Draw graphs of trigonometric functions.

2.4 Explain periodicity of trigonometric functions.

- 2.5 Define compound angles and state the formulae of $\sin(A\pm B)$, $\cos(A\pm B)$, $\tan(A\pm B)$ and $\cot(A\pm B)$.
- 2.6 Give simple examples on compound angles to derive the values of $\sin 15^\circ$, $\cos 15^\circ$, $\sin 75^\circ$, $\cos 75^\circ$, $\tan 15^\circ$, $\tan 75^\circ$ etc.
- 2.7 Derive identities like $\sin(A+B)\sin(A-B) = \sin^2 A - \sin^2 B$ etc.
- 2.8 Solve simple problems on compound angles.
- 2.9 Derive the formulae of multiple angles $2A$, $3A$ etc and sub multiple angles $A/2$ in terms of angle A of trigonometric functions.
- 2.10 Derive useful allied formulas like $\sin^2 A = (1 - \cos 2A)/2$ etc.
- 2.11 Solve simple problems using the above formulae

Syllabus for Unit test-I completed

- 2.12 Derive the formulae on transforming sum or difference of two trigonometric ratios into a product and vice versa, examples on these formulae.
- 2.13 Solve problems by applying these formulae to sum or difference or product of three or more terms.
- 2.14 Explain the concept of the inverse of a trigonometric function by selecting an appropriate domain and range.
- 2.15 Define inverses of six trigonometric functions along with their domains and ranges.
- 2.16 Derive relations between inverse trigonometric functions so that given $A = \sin^{-1}x$, express angle A in terms of other inverse trigonometric functions with examples.
- 2.17 State various properties of inverse trigonometric functions and identities like

$$\sin^{-1}x + \cos^{-1}x = \frac{\pi}{2} \text{ etc.}$$

- 2.18 Apply formulae like $\tan^{-1}x + \tan^{-1}y = \tan^{-1}\left(\frac{x+y}{1-xy}\right)$, where $x \geq 0, y \geq 0, xy < 1$ etc.,

to solve Simple problems.

- 2.19 Explain what is meant by solutions of trigonometric equations and find the general solutions of $\sin x = k$, $\cos x = k$ and $\tan x = k$ with appropriate examples.
- 2.20 Solve models of the type $a \sin^2 x + b \sin x + c = 0$, $a \cos x + b \sin x = c$ etc., and problems using simple transformations.
- 2.21 State sine rule, cosine rule, tangent rule and projection rule.
- 2.22 Explain the formulae for $\sin A/2$, $\cos A/2$, $\tan A/2$ and $\cot A/2$ in terms of semi-perimeters and sides a, b, c and solve problems.
- 2.23 List various formulae for the area of a triangle.
- 2.24 Solve problems using the above formulae.
- 2.25 Define Sinh x , cosh x and tanh x and list the hyperbolic identities.
- 2.26 Represent inverse hyperbolic functions in terms of logarithms.
- 2.27 Define complex number, its modulus, conjugate and list their properties.
- 2.28 Define the operations on complex numbers with examples.
- 2.29 Define amplitude of a complex number.
- 2.30 Represent the complex number in various forms like modulus-amplitude (polar) form, Exponential (Euler) form with examples.
- 2.31 Write DeMoivre's theorem (without proof) and illustrate with simple examples.

UNIT - III

Coordinate Geometry

C.O. 3 Find the equations and properties of straight lines, circles and conic sections in coordinate system.

- L.O. 3.1 Write the different forms of a straight line – general form, point-slope form, slope-intercept form, two-point form, intercept form and normal form or perpendicular form.
- 3.2 Solve simple problems on the above forms.
- 3.3 Find distance of a point from a line, acute angle between two lines, intersection of two non parallel lines and distance between two parallel lines.
- 3.4 Define locus of a point and define a circle.
- 3.5 Write the general equation of a circle and find the centre and radius.
- 3.6 Find the equation of a circle given (i) centre and radius, (ii) two ends of a diameter (iii) Centre and a point on the circumference (iv) three non collinear points.
- 3.7. Define a conic section.
- 3.8 Explain the terms focus, directrix, eccentricity, axes and latus rectum of a conic with illustrations.
- 3.9 Find the equation of a conic when focus, directrix and eccentricity are given.
- 3.10 Describe the properties of Parabola, Ellipse and Hyperbola in standard forms whose axes are along co-ordinate axes and solve simple examples on above.

Syllabus for Unit test-II completed

C.O.4 Evaluate the limits and derivatives of various functions.

- L.O. 4.1 Explain the concept of limit and meaning of $\lim_{x \rightarrow a} f(x) = l$ and state the properties of limits.
- 4.2 Evaluate the limits of the type $\lim_{x \rightarrow l} \frac{f(x)}{g(x)}$ and $\lim_{x \rightarrow \infty} \frac{f(x)}{g(x)}$
- 4.3 Mention the Standard limits $\lim_{x \rightarrow a} \frac{x^n - a^n}{x - a}$, $\lim_{x \rightarrow 0} \frac{\sin x}{x}$, $\lim_{x \rightarrow 0} \frac{\tan x}{x}$, $\lim_{x \rightarrow 0} \frac{a^x - 1}{x}$, $\lim_{x \rightarrow 0} \frac{e^x - 1}{x}$, $\lim_{x \rightarrow 0} (1+x)^{\frac{1}{x}}$, $\lim_{x \rightarrow \infty} \left(1 + \frac{1}{x}\right)^x$ (without proof) and solve the problems using these standard limits.
- 4.4 Explain the concept of continuity of a function at a point and on an interval with some examples whether a given function is continuous or not.
- 4.5 State the concept of derivative of a function $y = f(x)$ – definition, first principle as $\lim_{h \rightarrow 0} \frac{f(x+h) - f(x)}{h}$ and also provide standard notations to denote the derivative of a function.
- 4.6 State the significance of derivative in scientific and engineering applications.
- 4.7 Find the derivatives of elementary functions like x^n , a^x , e^x , $\log x$, $\sin x$, $\cos x$, $\tan x$, $\sec x$, $\operatorname{cosec} x$ and $\cot x$ using the first principles.
- 4.8 Find the derivatives of simple functions from the first principle .
- 4.9 State the rules of differentiation of sum, difference, scalar multiplication, product and quotient of functions with illustrative and simple examples.

- 4.10 Explain the method of differentiation of a function of a function (Chain rule) with illustrative examples.
- 4.11 Find the derivatives of Inverse Trigonometric functions and examples using the Trigonometric transformations.
- 4.12 Explain the method of differentiation of a function with respect to another function and also differentiation of parametric functions with examples.
- 4.13 Find the derivatives of hyperbolic functions.
- 4.14 Explain the procedures for finding the derivatives of implicit function with examples.
- 4.15 Explain the need of taking logarithms for differentiating some functions with examples like $[f(x)]^{g(x)}$.
- 4.16 Explain the concept of finding the higher order derivatives of second and third order with examples.
- 4.17 Explain the concept of functions of several variables, partial derivatives and difference between the ordinary and partial derivatives with simple examples.
- 4.18 Explain the definition of Homogenous function of degree n.
- 4.19 Explain Euler's theorem for homogeneous functions with applications to simple problems.

C.O. 5 Evaluate solutions for engineering problems using differentiation.

- L.O. 5.1 State the geometrical meaning of the derivative as the slope of the tangent to the curve $y=f(x)$ at any point on the curve.
- 5.2 Explain the concept of derivative to find the slope of tangent and to find the equation of tangent and normal to the curve $y=f(x)$ at any point on it.
- 5.3 Find the lengths of tangent, normal, sub-tangent and sub normal at any point on the curve $y=f(x)$.
- 5.4 Explain the derivative as a rate of change in distance-time relations to find the velocity and acceleration of a moving particle with examples.
- 5.5 Explain the derivative as a rate measurer in the problems where the quantities like volumes, areas vary with respect to time- illustrative examples.
- 5.6 Define the concept of increasing and decreasing functions.
- 5.7 Explain the conditions to find points where the given function is increasing or decreasing with illustrative examples.
- 5.8 Explain the procedure to find the extreme values (maxima or minima) of a function of single variable- simple problems yielding maxima and minima.
- 5.9 Solve problems on maxima and minima in applications like finding areas, volumes etc.
- 5.10 Apply the concept of derivatives to find the errors and approximations in simple problems.

Syllabus for Unit test-III completed

COMMON TO ALL BRANCHES
COURSE CONTENT

Unit-I
Algebra

1. Relations and Functions:

Define Set, Ordered pairs, Cartesian product, Relations, functions, domain & range of functions. Describe types of functions (in-to, many-to-one, one-one, onto and bijective) and inverse functions – examples.

2. Partial Fractions:

Define rational, proper and improper fractions of polynomials. Resolve rational fractions in to their partial fractions covering the types mentioned below.

$$\begin{array}{ll} \text{i)} \quad \frac{f(x)}{(ax+b)(cx+d)} & \text{ii)} \quad \frac{f(x)}{(ax+b)^2(cx+d)} \\ \text{iii)} \quad \frac{f(x)}{(x^2+a^2)(bx+c)} & \text{iv)} \quad \frac{f(x)}{(x^2+a^2)(x^2+b^2)} \end{array}$$

3. Matrices:

Definition of a matrix, types of matrices-examples, algebra of matrices-equality of two matrices, sum, scalar multiplication and product of matrices. Transpose of a matrix-Symmetric, skew symmetric matrices-Minor, cofactor of an element-Determinant of a square matrix-Laplace's expansion, properties of determinants. Singular and non-singular matrices-Adjoint and multiplicative inverse of a square matrix- examples-System of linear equations in 3 variables- Solutions by Cramers's rule and Matrix inversion method-examples.

Unit-II
Trigonometry

4. Trigonometric ratios:

Definition of trigonometric ratios of any angle, values of trigonometric ratios at specified values, draw graphs of trigonometric functions, periodicity of trigonometric functions.

5. Compound angles:

Formulas of $\sin(A\pm B)$, $\cos(A\pm B)$, $\tan(A\pm B)$, $\cot(A\pm B)$, and related identities with problems.

6. Multiple and sub multiple angles:

Formulae for trigonometric ratios of multiple angles $2A$, $3A$ and sub multiple angles $A/2$ with problems.

7. Transformations of products into sums or differences and vice versa simple problems

8. Inverse trigonometric functions:

Definition, domains and ranges-basic properties- problems.

9. Trigonometric equations:

Concept of a solution, principal value and general solution of trigonometric equations: $\sin x = k$, $\cos x = k$, $\tan x = k$, where k is a constant. Solutions of simple quadratic equations, equations involving usage of transformations- problems.

10. Properties of triangles:

Relation between sides and angles of a triangle- sine rule, cosine rule, tangent rule and projection rule-area of a triangle- problems.

11. Hyperbolic functions:

Definitions of hyperbolic functions, identities of hyperbolic functions, inverse hyperbolic functions and expression of inverse hyperbolic functions in terms of logarithms.

12. Complex Numbers:

Definition of a complex number, Modulus and conjugate of a complex number, Arithmetic operations on complex numbers, Modulus- Amplitude (polar) form, Exponential form (Euler form) of a complex number- Problems. DeMoivre's theorem.

UNIT-III**Coordinate geometry**

13. Straight lines: various forms of straight lines, angle between lines, perpendicular distance from a point, distance between parallel lines-examples.

14. Circle: locus of a point, Circle, definition-Circle equation given (i) centre and radius, (ii) two ends of a diameter (iii) centre and a point on the circumference (iv) three non collinear points - general equation of a circle – finding centre, radius.

15. Definition of a conic section, equation of a conic when focus directrix and eccentricity are given. properties of parabola, ellipse and hyperbola in standard forms.

UNIT-IV**Differential Calculus:**

16. Concept of Limit- Definition- Properties of Limits and Standard Limits -Simple Problems- Continuity of a function at a point- Simple Examples only.

17. Concept of derivative- Definition (first principle)- different notations-derivatives of elementary functions- problems. Derivatives of sum, product, quotient, scalar multiplication of functions - problems. Chain rule, derivatives of inverse trigonometric functions, derivative of a function with respect to another function, derivative of parametric functions, derivative of hyperbolic, implicit functions, logarithmic differentiation – problems in each case. Higher order derivatives - examples – functions of several variables - partial differentiation, Euler's theorem-simple problems.

UNIT-V**Applications of Derivatives:**

18. Geometrical meaning of the derivative, equations of Tangent and normal to a curve at any point. Lengths of tangent, normal, sub tangent and subnormal to the curve at any point - problems.

19. Physical applications of the derivative – velocity, acceleration, derivative as a rate measure – Problems.

20. Applications of the derivative to find the extreme values – Increasing and decreasing functions, finding the maxima and minima of simple functions - problems leading to applications of maxima and minima.

21. Using the concept of derivative of a function of single variable, find the absolute error, relative and percentage errors and approximate values due to errors in measuring.

Textbook:

Engineering Mathematics-I, a textbook for first year diploma courses, prepared & prescribed by SBTET, AP.

Reference Books:

1. Shanti Narayan, A Textbook of matrices, S.Chand &Co.
2. Robert E. Moyer & Frank Ayers Jr., Schaum's Outline of Trigonometry, 4th Edition, Schaum's Series
3. M.Vygodsky, Mathematical Handbook, Mir Publishers, Moscow.
4. Frank Ayers & Elliott Mendelson, Schaum's Outline of Calculus, Schaum's Series

Engineering Mathematics – I
Unit Test Syllabus

Unit Test	Syllabus
Unit Test-I	From L.O. 1.1 to L.O. 2.11
Unit Test-II	From L.O. 2.12 to L.O. 3.10
Unit Test-III	From L.O.4.1 to L.O. 5.10

Unit Test I
State Board of Technical Education and Training, A. P
First Year
Subject Name: **Engineering Mathematics-I**
Sub Code: **AA-102**

C –20, AA -102

Time : 90 minutes

Max.Marks:40

Part-A

16Marks

Instructions: (1) Answer all questions.
(2) First question carries four marks and the remaining questions carry three marks each.

1. Answer the following.

a. If $f(x) = x^2$ and domain = $\{-1, 0, 1\}$, then find range. (CO1)

b. If $A = \begin{bmatrix} 1 & 2 \\ 3 & 4 \end{bmatrix}$, then find $3A$. (CO1)

c. Write the value of $\sin 120^\circ$ (CO2)

d. Write the formula for $\tan 2A$ in terms of $\tan A$ (CO2)

2. If $f : R \rightarrow R$ is defined by $f(x) = 3x - 5$, then prove that $f(x)$ is onto. (CO1)

3. If $A = \begin{bmatrix} 1 & 3 \\ 4 & -9 \end{bmatrix}$, $B = \begin{bmatrix} 2 & 4 \\ -3 & 1 \end{bmatrix}$ then find $2A + 3B$ (CO1)

4. Prove that $\sin^2 45^\circ - \sin^2 15^\circ = \frac{\sqrt{3}}{4}$ (CO2)

5. Prove that $\frac{\sin 2A}{1 - \cos 2A} = \cot A$ (CO2)

Part-B

3×8=24

Instructions: (1) Answer all questions.
(2) Each question carries eight marks
(3) Answer should be comprehensive and the criterion for valuation is the content but not the length of the answer.

6. A) Resolve $\frac{2x}{(x-1)(x-3)}$ into partial fractions. (CO1)

or

B) Resolve $\frac{x+4}{x^2-3x+2}$ into partial fractions. (CO1)

7. A) Using Cramer's rule to solve
 $x - y + z = 2, 2x + 3y - 4z = -4, 3x + y + z = 8$ (CO1)
 or

B) Prove that $\begin{vmatrix} bc & b+c & 1 \\ ca & c+a & 1 \\ ab & a+b & 1 \end{vmatrix} = (a-b)(b-c)(c-a)$ (CO1)

8. A) Find the adjoint of Matrix $\begin{bmatrix} 1 & 2 & -2 \\ -1 & 3 & 5 \\ 2 & 7 & -4 \end{bmatrix}$ (CO1)

or

B) If $A = \begin{bmatrix} 2 & 3 & 4 \\ 5 & 7 & 9 \\ -2 & 1 & 3 \end{bmatrix}$, $B = \begin{bmatrix} 3 & 1 & -5 \\ 2 & 1 & 4 \\ 0 & 3 & 1 \end{bmatrix}$, find AB and BA and verify if $AB = BA$. (CO1)

-o0o-

Unit Test II
State Board of Technical Education and Training, A. P
First Year

C –20, AA- 102

Subject Name: **Engineering Mathematics-I**

Sub Code: **AA- 102**

Time : 90 minutes

Max.Marks:40

Part-A

16Marks

Instructions: (1) Answer all questions.
(2) First question carries four marks and the remaining questions carry three marks each

1. Answer the following.

a. $\sin C + \sin D = 2 \cos\left(\frac{C+D}{2}\right) \sin\left(\frac{C-D}{2}\right)$: State TRUE/FALSE (CO2)

b. If $z = 2 + 3i$, then find $|z|$ (CO2)

c. $\sinh x = \frac{e^x - e^{-x}}{2}$: State TRUE/FALSE (CO2)

d. Write the eccentricity of rectangular hyperbola. (CO3)

2. Express $(3 - 4i)(7 + 2i)$ in terms of $a + ib$ (CO2)

3. Find the perpendicular distance from (1,1) to the line $2x + 3y - 1 = 0$ (CO3)

4. Find the angle between lines $2x - y + 3 = 0$ and $x + y - 2 = 0$ (CO3)

5. Find the centre and radius of the circle $x^2 + y^2 - 2x + 4y - 4 = 0$ (CO3)

Part-B

3×8=24

Instructions: (1) Answer all questions.
(2) Each question carries eight marks
(3) Answer should be comprehensive and the criterion for valuation is the content but not the length of the answer.

6. A) Prove that $\frac{\sin 2\theta + \sin 4\theta + \sin 6\theta}{\cos 2\theta + \cos 4\theta + \cos 6\theta} = \tan 4\theta$. (CO2)

or

B) Prove that $\tan^{-1} \frac{1}{2} + \tan^{-1} \frac{1}{5} + \tan^{-1} \frac{1}{8} = \frac{\pi}{4}$ (CO2)

7. A) Solve $2\sin^2 \theta - \sin \theta - 1 = 0$ (CO2)
or
- B) In any $\triangle ABC$, if $\angle B = 60^\circ$ then $\frac{c}{a+b} + \frac{a}{b+c} = 1$ (CO2)
8. A) Find the equation of circle with $(2, 3)$ and $(6, 9)$ as the end points of diameter and also find centre and radius of circle. (CO3)
or
- B) Find the equation of ellipse whose focus is $(1, -1)$, directrix is $x - y + 3 = 0$ and eccentricity is $1/2$. (CO3)

-o0o-

Unit Test III
State Board of Technical Education and Training, A. P
First Year

C -20, AA -102

Subject Name: **Engineering Mathematics-I**

Sub Code: **AA-102**

Time : 90 minutes

Max.Marks:40

Part-A

16Marks

Instructions: (1) Answer all questions.
(2) First question carries four marks and the remaining questions carry three marks each

1. Answer the following.

a. Find $\lim_{x \rightarrow 1} \frac{x^2 + 1}{x + 5}$ (CO4)

b. $\lim_{\theta \rightarrow 0} \frac{\sin 2\theta}{\theta} = 2$: State TRUE/FALSE (CO4)

c. $\frac{d}{dx}(3 \tan^{-1} x) = ?$ (CO4)

d. Formula for percentage error in x is _____ (CO5)

2. Evaluate $\lim_{x \rightarrow 2} \frac{x^5 - 32}{x^2 - 4}$ (CO4)

3. Find the derivative of $3 \tan x - 4 \log x + 7^x$ w.r.t. x (CO4)

4. Differentiate $x^2 \sin x$ w.r.t. x (CO4)

5. Find the derivative of $\frac{2x+3}{3x+4}$ (CO4)

Part-B

3×8=24

Instructions: (1) Answer all questions.
(2) Each question carries eight marks
(3) Answer should be comprehensive and the criterion for valuation is the content but not the length of the answer.

6. A) Find the derivative of $\sin^{-1}\left(\frac{2x}{1+x^2}\right)$ w.r.t. $\tan^{-1}\left(\frac{2x}{1-x^2}\right)$. (CO4)

or

B) Find $\frac{dy}{dx}$ if $y = x^{\cos x}$ (CO4)

7. A) Verify Euler's theorem when $u(x, y) = \frac{x^4 + y^4}{x - y}$ (C04)
- or
- B) Find the equation of tangent and normal to the curve $3y = x^2 - 6x + 17$ at $(4, 3)$ (C05)
8. A) Circular patch of oil spreads on water and the area is growing at the rate of $8 \text{ sqcm} / \text{min}$. How fast is the radius increasing when radius is 5 cm . (C05)
- or
- B) Find the maxima and minima values of $f(x) = x^3 - 6x^2 + 9x + 15$. (C05)

-o0o-

END-EXAM MODEL PAPERS
STATE BOARD OF TECHNICAL EDUCATION, A.P
ENGINEERING MATHEMATICS AA- 102

TIME : 3 HOURS

MODEL PAPER- I

MAX.MARKS : 80M

PART-A

Answer All questions. Each question carries THREE marks.

10x3=30M

1. If $A = \left\{0, \frac{\pi}{6}, \frac{\pi}{4}, \frac{\pi}{3}, \frac{\pi}{2}\right\}$ and $f : A \rightarrow B$ is a function such that $f(x) = \cos x$, then find the range of f . **CO1**

2. Resolve the function $\frac{x}{(x-1)(x-2)}$ into partial fractions. **CO1**

3. If $A = \begin{bmatrix} 3 & 9 & 0 \\ 1 & 8 & -2 \end{bmatrix}$ and $B = \begin{bmatrix} 4 & 0 & 2 \\ 7 & 1 & 4 \end{bmatrix}$, find $A+B$ and $A-B$. **CO1**

4. Show that $\frac{\cos 16^\circ + \sin 16^\circ}{\cos 16^\circ - \sin 16^\circ} = \tan 61^\circ$. **CO2**

5. Prove that $\frac{\sin 2\theta}{1 - \cos 2\theta} = \cot \theta$. **CO2**

6. Find the modulus of the complex number $\left(\frac{1-i}{2+i}\right)$. **CO2**

7. Find the distance between parallel lines $x+2y+3=0$ and $x+2y+8=0$. **CO3**

8. Find $\lim_{x \rightarrow 0} \frac{\sin 77x}{\sin 11x}$. **CO4**

9. Differentiate $3 \tan x - 4 \log x - 7x^2$ w.r.t. x . **CO4**

10. If $x = at^2$, $y = 2at$, then find $\frac{dy}{dx}$. **CO4**

PART-B

Answer All questions. Each question carries EIGHT marks.

5x8=40M

- 11 A) Find the inverse of the matrix $\begin{bmatrix} 3 & -3 & 4 \\ 2 & -3 & 4 \\ 0 & -1 & 1 \end{bmatrix}$. **CO1**

Or

- B) Solve the system of equations $x + y + z = 6$, $x - y + z = 2$ and $2x - y + 3z = 9$ by Cramer's rule. **CO1**

12. A) If $\cos x + \cos y = \frac{3}{5}$ and $\cos x - \cos y = \frac{2}{7}$, then show that CO2

$$21 \tan\left(\frac{x-y}{2}\right) + 10 \cot\left(\frac{x+y}{2}\right) = 0.$$

Or

- B) If $\tan^{-1} x + \tan^{-1} y + \tan^{-1} z = \pi$ then show that $x + y + z = xyz$. CO2

13. A) Solve $\sqrt{3} \cos \theta - \sin \theta = 1$. CO2

Or

- B) In any ΔABC , Show that $\cot \frac{A}{2} + \cot \frac{B}{2} + \cot \frac{C}{2} = \frac{s^2}{\Delta}$. CO2

14. A) Find the equation of the circle with $(4, 2)$ and $(1, 5)$ as the two ends of its diameter and also find its centre and radius. CO3

Or

- B) Find the centre, vertices, equation of axes, lengths of axes, eccentricity, foci, equations of directrices and length of latus rectum of the ellipse $4x^2 + 16y^2 = 1$. CO3

15. A) Find the derivative of $\sin^{-1}\left(\frac{2x}{1+x^2}\right)$ w.r.t. $\tan^{-1}\left(\frac{2x}{1-x^2}\right)$ CO4

Or

- B) If $u = \tan^{-1}\left(\frac{x^3 - y^3}{x + y}\right)$, then prove that $x \frac{\partial u}{\partial x} + y \frac{\partial u}{\partial y} = \sin 2u$. CO4

PART-C

Answer the following question. Question carries TEN marks.

1x10=10M

16. The sum of two numbers is 24. Find them so that the sum of their squares is minimum. CO5

STATE BOARD OF TECHNICAL EDUCATION, A.P
ENGINEERING MATHEMATICS AA- 102

TIME : 3 HOURS

MODEL PAPER- II

MAX.MARKS : 80M

PART-A

Answer All questions. Each question carries THREE marks.

10x3=30M

1. If $f : R \rightarrow R$ is a bijective function such that $f(x) = ax + b$, then find $f^{-1}(x)$. **CO1**
2. Resolve the function $\frac{1}{(x+1)(x-2)}$ into partial fractions. **CO1**
3. If $A = \begin{bmatrix} 0 & -1 & 3 \\ 1 & 0 & 7 \\ -3 & x & 0 \end{bmatrix}$ is a skew-symmetric matrix, find the value of x . **CO1**
4. Find the value of $\sin^2 82\frac{1}{2} - \sin^2 22\frac{1}{2}$. **CO2**
5. Prove that $\frac{\cos 3A}{2\cos 2A - 1} = \cos A$. **CO2**
6. Find the conjugate of the complex number $(3-2i).(4+7i)$ **CO2**
7. Find the equation of the line passing through the points $(1, 2)$ and $(3, -4)$. **CO3**
8. Find $\lim_{x \rightarrow 2} \frac{x^5 - 32}{x - 2}$. **CO4**
9. Differentiate $\sqrt{x} - \sec x + \log x$ w.r.t. x . **CO4**
10. If $u(x, y) = x^3 - 3axy + y^3$, then find $\frac{\partial u}{\partial x}$ and $\frac{\partial u}{\partial y}$. **CO4**

PART-B

Answer All questions. Each question carries EIGHT marks.

5x8=40M

11 A) Show that $\begin{vmatrix} 1 & 1 & 1 \\ a & b & c \\ a^2 & b^2 & c^2 \end{vmatrix} = (a-b)(b-c)(c-a)$. **CO1**

Or

B) Solve the system of equations $x + 2y + 3z = 6, 3x - 2y + 4z = 5$ and $x - y - z = -1$ using matrix inversion method. **CO1**

12 A) Prove that $\frac{\sin 2\theta + \sin 4\theta + \sin 6\theta}{\cos 2\theta + \cos 4\theta + \cos 6\theta} = \tan 4\theta$. CO2

Or

B) Prove that $\tan^{-1} \frac{1}{3} + \tan^{-1} \frac{1}{5} + \tan^{-1} \frac{1}{7} + \tan^{-1} \frac{1}{8} = \frac{\pi}{4}$. CO2

13 A) Solve $2\cos^2 \theta - 3\cos \theta + 1 = 0$. CO2

Or

B) In any ΔABC , Show that $\sum a^3 \cos(B-C) = 3abc$. CO2

14 A) Find the equation of the circle passing through the points $(0,0)$, $(6,0)$ and $(0,8)$. CO3

Or

B) Find the equation of the rectangular hyperbola whose focus is $(1,2)$ and directrix is

$3x + 4y - 5 = 0$. CO3

15 A) If $\sin y = x \sin(a+y)$, then prove that $\frac{dy}{dx} = \frac{\sin^2(a+y)}{\sin a}$. CO4

Or

B) If $y = \tan^{-1} x$, then prove that $(1+x^2)y_2 + 2xy_1 = 0$. CO4

PART-C

Answer the following question. Question carries TEN marks.

1x10=10M

16 Show that the semi-vertical angle of the cone of maximum volume and of given slant height is $\tan^{-1} \sqrt{2}$. CO4

Course code	Course Title	No. of Periods per week	Total No. of Periods	Marks for FA	Marks for SA

Total		120	

Course Title: Engineering Physics	
Course Objectives	<ol style="list-style-type: none"> 1. To familiarize with the concepts of Physics involved in the process of various Engineering, Industrial and Daily life Applications. 2. To understand and apply the basic principles of physics in the field of engineering and technology to familiarize certain natural phenomenon occurring in the day to day life 3. To reinforce theoretical concepts by conducting relevant experiments/exercises

Course Outcomes	CO1	Explain S.I units and dimensions of different physical quantities, basic operations among vector quantities.
	CO2	Explain the motion of objects moving in one dimension and two dimensions, the causes of motion and hindrance to the motion of the objects especially with respect to friction.
	CO3	Explain the mechanical energy of bodies like PE, KE and conservation law of energy, the properties of simple harmonic motion.
	CO4	Explain gas laws, ideal gas equation, Isothermal and adiabatic processes, Specific heats, to study the laws of thermodynamics. Causes, consequences and methods to minimise noise pollution, explain beats, Doppler effect, Reverberation, echoes.
	CO5	Explain certain properties of solids, liquids like elastic properties, viscosity and surface tension. Explain Ohm's law, to study Kirchoff's laws, to study the principle of Wheatstone's bridge and its application to meter bridge. To study the magnetic force and understand magnetic field. To compute magnetic field strength on axial and equatorial lines of a bar magnet. To familiarise with modern topics like photoelectric effect, optical fibres, superconductivity and nanotechnology.

COS, POS, PSOS MAPPING

➤ POs mapping strength (as per given table)

	PO1	PO2	PO3	PO4	PO5	PO6	PO7	PSO1	PSO2	PSO3
CO1	3					1		1	1	1
CO2	3		2					1	1	
CO3	3		2					1		
CO4	3	2			2				2	2
CO5	3			2			2	1	1	

3 = strongly mapped 2= moderately mapped 1= slightly mapped

Note:

The gaps in CO and PO mapping will be achieved by one or more appropriate activities from the following:

i) Seminars ii) Tutorials iii) Guest lectures iv) Assignments v) Quiz competitions vi) Industrial visits vii) Tech Fest viii) Mini project ix) Group discussion x) Virtual classes xi) Library visit for e-books

LEARNING OUTCOMES

1.0 Concept of Units and dimensions

- 1.1 Explain the concept of Units, Physical quantity, Fundamental physical quantities and Derived physical quantities
- 1.2 Define unit, fundamental units and derived units, State SI units with symbols
- 1.3 State Multiples and submultiples in SI system, State Rules of writing S.I. units, State advantages of SI units
- 1.4 Define Dimensions, Write Dimensional formulae of physical quantities
- 1.5 List dimensional constants and dimensionless quantities
- 1.6 State the principle of homogeneity of dimensions
- 1.7 State the applications and limitations of dimensional analysis
- 1.8 Errors in measurement, Absolute error, relative error, percentage error, significant figures
- 1.9 Solve problems

2.0 Concept of Elements of Vectors

- 2.1 Explain the concept of scalars, Vectors and give examples
- 2.2 Represent vectors graphically, Classify the Vectors, Resolve the vectors
- 2.3 Determine the resultant of a vector by component method, represent a vector in Space using unit vectors (i, j, k)
- 2.4 State and explain triangle law, parallelogram law, and polygon law of addition of Vectors
- 2.5 Define Dot product of two vectors with examples (Workdone, Power), mention the Properties of dot product
- 2.6 Define cross product of two vectors with examples (Torque, Linear velocity) Mention the properties of Cross product.
- 2.7 Solve the related numerical problems

3.0 Concept of Dynamics

- 3.1 Write the equations of motion in a straight line. Explain the acceleration due to Gravity.
- 3.2 Explain vertical motion of a body and derive expressions for a) Maximum Height, b) Time of ascent, c) time of descent, and d) time of flight
- 3.3 Derive height of a tower when a body projected vertically upwards from the top of a tower.
- 3.4 Explain projectile motion with examples
- 3.5 Explain horizontal projection and derive an expression for the path of a projectile in horizontal projection
- 3.6 Explain oblique projection and derive an expression for it. Derive formulae for a) Maximum Height b) time of ascent c) time of descent and d) time of flight e) Horizontal Range, f) Maximum range
- 3.7 Define force, momentum, angular displacement, angular velocity, angular acceleration, angular momentum, moment of inertia, torque
- 3.8 Solve the related numerical problems

4.0 Concept of Friction

- 4.1 Define friction and classify the types of friction.
- 4.2 Explain the concept of normal reaction.
- 4.3 State the laws of friction.
- 4.4 Define coefficients of friction, Angle of friction and angle of repose.
- 4.5 Derive expressions for acceleration of a body on a rough inclined plane. (Upwards and downwards)
- 4.6 List the advantages and disadvantages of friction.
- 4.7 Mention the methods of minimizing friction.
- 4.8 Explain why it is easy to pull a lawn roller than to push it.
- 4.9 Solve the related numerical problems.

5.0 Concepts of Work, Power, and Energy

- 5.1 Define the terms Work, Power and Energy. State SI units and dimensional Formulae.
- 5.2 Define potential energy and give examples, derive an expression for potential energy.
- 5.3 Define Kinetic energy and give examples, derive an expression for kinetic energy.
- 5.4 State and derive Work-Energy theorem.
- 5.5 Derive the relation between Kinetic energy and momentum.
- 5.6 State the law of conservation of energy and verify it in the case of a freely falling body.
- 5.7 Solve the related numerical problems.

6.0 Concepts of Simple harmonic motion

- 6.1 Define Simple harmonic motion, Give examples, state the conditions.
- 6.2 Explanation of uniform circular motion of a particle is a combination of two perpendicular S.H.M.s.
- 6.3 Derive expressions for displacement, velocity, acceleration, Frequency, Time period of a particle executing SHM.
- 6.4 Define phase of SHM.
- 6.5 Define Ideal simple pendulum and derive expression for time period of simple pendulum.
- 6.6 State the laws of motion of simple pendulum.
- 6.7 Solve the related numerical problems.

7.0 Concept of heat and thermodynamics

- 7.1 Explain the concept of expansion of gases
- 7.2 State and explain Boyle's and Charles laws.
- 7.3 Define absolute zero temperature, absolute scale of temperature
- 7.4 Define ideal gas and distinguish from real gas
- 7.5 Derive Ideal gas equation. Define specific gas constant and universal gas constant, write S.I unit and dimensional formula. Calculate the value of R.
- 7.6 Explain why universal gas constant is same for all gases
- 7.7 State and explain isothermal process and adiabatic process
- 7.8 State first and second laws of thermodynamics and state applications
- 7.9 Define specific heats and molar specific heats of a gas, Derive $C_p - C_v = R$
- 7.10 Solve the relevant numerical problems

8.0 Concept of Sound

- 8.1 Concept of the sound, Wave motion. (longitudinal and transverse wave)
- 8.2 Distinguish between musical sound and noise.
- 8.3 Explain noise pollution and state SI unit for intensity level of sound.
- 8.4 Explain causes, effects and methods of minimizing of noise pollution.
- 8.5 Explain the phenomenon of beats state the applications.
- 8.6 Define Doppler effect, list the applications.
- 8.7 Define reverberation and reverberation time and write Sabine's formula.
- 8.8 Define and explain echoes state its applications.
- 8.9 State conditions of good auditorium.
- 8.10 Solve the related numerical problems.

9.0 Concepts of properties of matter

- 9.1 Explain the terms elasticity, stress, strain and types of stress and strain.
- 9.2 State and explain Hooke's law.
- 9.3 Definitions of Modulus of elasticity, Young's modulus (Y), Bulk modulus (K), Rigidity modulus (n), Poisson's ratio (σ),
- 9.4 Define surface tension and give examples.
- 9.5 Explain Surface tension with reference to molecular theory.
- 9.6 Define angle of contact and capillarity and write formula for Surface Tension.
- 9.7 Explain the concept of viscosity, give examples, write Newton's formula.
- 9.8 Define co-efficient of viscosity and write its units and dimensional formula and State Poiseuille's equation for Co-efficient of viscosity.
- 9.9 Explain the effect of temperature on viscosity of liquids and gases.
- 9.10 Solve the related numerical problems.

10. Concepts of Electricity and Magnetism

- 10.1 Explain Ohm's law in electricity and write the formula.
- 10.2 Define specific resistance, conductance and state their units.
- 10.3 Explain Kichoff's laws.
- 10.4 Describe Wheatstone's bridge with legible sketch.
- 10.5 Describe Meter Bridge for the determination of resistivity with a circuit diagram.
- 10.6 Explain the concept of magnetism. State the Coulomb's inverse square law of Magnetism.
- 10.7 Define magnetic field and magnetic lines of force and write the properties of magnetic lines of force.
- 10.8 Derive an expression for the moment of couple on a bar magnet placed in a uniform magnetic field.
- 10.9 Derive equations for Magnetic induction field strength at a point on the axial line and on the equatorial line of a bar magnet.
- 10.10 Solve the related numerical problems

11.0 Concepts of modern physics

- 11.1 State and explain Photo-electric effect and Write Einstein's photo electric Equation.
- 11.2 State laws of photo electric effect.
- 11.3 Explain the Working of photo electric cell, write its applications.
- 11.4 Recapitulation of refraction of light and its laws, critical angle, total Internal Reflection.
- 11.5 Explain the principle and working of Optical fiber, mention different types of Optical fiber, state the applications.
- 11.6 Define super conductor and super conductivity and mention examples.
- 11.7 State the properties of super conducting materials and list the applications.
- 11.8 Nanotechnology definition, nano materials, applications.

COURSECONTENT

1. Units and Dimensions:

Introduction, Physical quantity, Fundamental and Derived quantities, Fundamental and Derived units, SI units, Multiples and Sub multiples, Rules for writing S.I. units, Advantages of SI units. Dimensions and Dimensional formulae, Dimensional constants and Dimensionless quantities, Principle of homogeneity, Advantages and limitations of dimensional analysis, Errors in measurement, Absolute error, relative error, percentage error, significant figures, Problems.

2. Elements of Vectors:

Scalars and Vectors, Types of vectors (Proper Vector, Null Vector, Unit Vector, Equal, Negative Vector, Like Vectors, Co-Initial Vectors, Co-planar Vectors and Position Vector). Addition of vectors, Representation of vectors, Resolution of vectors, Parallelogram, Triangle and Polygon laws of vectors, Subtraction of vectors, Dot and Cross products of vectors-Problems.

3. Dynamics

Introduction-Concept of acceleration due to gravity-Equations of motion for a freely falling body and for a body thrown up vertically- Projectiles- Horizontal and Oblique projections- Expressions for maximum height, time of flight, range-Define force, momentum, angular displacement, angular velocity, angular acceleration, angular momentum, moment of inertia, torque-problems.

4. Friction:

Introduction to friction- Causes- Types of friction- Laws of friction- Angle of repose-Angle of friction- rough inclined plane- Advantages and disadvantages of friction-Methods of reducing friction-Problems.

5. Work, Power and Energy:

Work, Power and Energy- Definitions and explanation- potential energy- kinetic energy- Derivations of Potential and Kinetic energies-K.E and Momentum relation - Work-Energy theorem- Law of Conservation of energy- Problems.

6. Simple Harmonic Motion:

Introduction- Conditions of SHM- Definition- Examples- Expressions for displacement, velocity, acceleration, Time period, frequency and phase in SHM- Time period of a simple pendulum- Laws of simple pendulum-seconds pendulum-Problems.

7. Heat and Thermodynamics:

Expansion of Gases, Boyle's law, absolute scale of temperature- Charles laws- Ideal gas equation- Universal gas constant- Differences between gas constant(r) and universal gas constant(R), Isothermal and adiabatic processes, Laws of thermodynamics, Specific heats - molar specific heats of a gas -Different modes of transmission of heat ,laws of thermal conductivity, Coefficient of thermal conductivity-Problems.

8. Sound:

Sound- Nature of sound- Types of wave motion -musical sound and noise- Noise pollution – Causes & effects- Methods of reducing noise pollution- Beats- Doppler effect- Echo- Reverberation-Reverberation time-Sabine 's formula-Conditions of good auditorium-Problems.

9. Properties of matter

Definition of Elasticity –Definition of stress and strain -the units and dimensional formulae for stress and strain-The Hooke's law-Definitions of Modulus of elasticity, Young's modulus(Y), Bulk modulus(K), Rigidity modulus (n),Poisson's ratio (σ), relation between Y, K, n and σ (equations only no derivation)

Definition of surface tension-Explanation of Surface tension with reference to molecular theory - Definition of angle of contact -Definition of capillarity -The formula for surface tension based on capillarity - Explanation of concept of Viscosity - Examples for surface tension and Viscosity - Newton's formula for viscous force- Definition of co-efficient of viscosity- The effect of temperature on viscosity of liquids and gases - Poiseuille's equation for Co-efficient of viscosity- The related numerical problems.

10. Electricity & Magnetism:

Ohm's law and explanation, Specific resistance, Kirchoff's laws, Wheatstone's bridge, Meter bridge, Coulomb's inverse square law, magnetic field, magnetic lines of force, magnetic induction field strength- magnetic induction field strength at a point on the axial line - magnetic induction field strength at a point on the equatorial line–problems.

11. Modern Physics;

Photoelectric effect –Einstein's photoelectric equation-laws of photoelectric effect-photoelectric cell–Applications of photo electric effect- Total internal reflection- fiber optics- principle and working of an optical fiber-types of optical fibers - Applications of optical fibers- superconductivity–applications-Nanotechnology definition, nano materials, applications

*One question of HOTs for 10 marks from any of the unit title 3 or 6 or 7

➤ **Table specifying the scope of syllabus to be covered for Unit Tests**

Unit Test	Learning outcomes to be covered
Unit Test – 1	From 1.1 to 4.9
Unit Test – 2	From 5.1 to 7.10
Unit Test – 3	From 8.1 to 11.8

➤ Model question paper for Unit Tests I,II,III with COs mapped

UNIT TEST –I
MODEL QUESTION PAPER (C-20)
ENGINEERING PHYSICS (AA-103)

TIME: 90 minutes

Total Marks: 40

PART-A

16 Marks

Instructions: (1) Answer all questions.

(2) First question carries 4 marks and others carry 3 marks each.

(3) Answers for the Question numbers 2 to 5 should be brief and straight to the point and shall not exceed five simple sentences.

1. i) The dimensional formula of force is _____ (CO1)
- ii) Which of the following is a scalar [] (CO1)
a) force b) work c) displacement d) velocity
- iii) We can add a scalar to a vector (Yes / No) (CO1)
- iv) Friction is a self-adjusting force. [True / False] (CO2)
2. Define dot product. Give one example (CO1)
3. A force of 150 N acts on a particle at an angle of 30° to the horizontal. Find the horizontal and vertical components of force. (CO1)
4. Define projectile. Give two examples. (CO2)
5. It is easier to pull a lawn roller than to push it. Explain (CO2)

PART—B

3x8=24

Instructions: (1) Answer all questions. Each question carries 8marks.

(2) Answer should be comprehensive and the criteria for evaluation is content but not the length of the answer.

- 6) (A) Derive an expression for magnitude and direction of resultant of two Vectors using parallelogram law of vectors (CO1)
OR
(B) Write any four properties of dot product and any four properties of Cross product (CO1)
- 7) (A) Show that path of a projectile is a parabola in case of oblique Projection. (CO2)
OR
(B) Derive the expression for range and time of flight of a projectile (CO2)
- 8) (A) State and explain polygon law of vector addition with a neat diagram (CO1)
OR
(B) Derive the equation for acceleration of a body on a rough inclined plane (CO2)

UNIT TEST –II
Model Question Paper (C-20)
ENGINEERING PHYSICS (AA–103)

TIME: 90 minutes

Total Marks: 40

PART –A

16 Marks

Instructions: (1) Answer all questions.

(2) First question carries 4 marks and others carry 3 marks each.

(3) Answers for the Question numbers 2 to 5 should be brief and Straight to the point and shall not exceed five simple sentences.

- 1) i) The value of 100°C is equal to _____ in Kelvin scale of temperature **(CO4)**
ii) Write the S.I unit of power **(CO3)**
iii) A simple pendulum be used in artificial satellite (Yes / No) **(CO3)**
iv) Specific heat of a gas is constant for all gases in nature [True / False] **(CO4)**
2. Derive the relation between momentum and kinetic energy **(CO3)**
3. A girl is swinging by sitting in a swing, how the frequency changes if she stands in the swing. **(CO3)**
4. Write the physical significance of universal gas constant. **(CO4)**
5. A body is projected in to the air in the vertically upward direction, find the height at which its potential and kinetic energies are equal. **(CO3)**

PART—B

3x8=24 Marks

Instructions: (1) Answer all questions. Each question carries 8marks.

(2) Answer should be comprehensive and the criteria for evaluation is content but not the length of the answer.

- 6) (A) State the law of conservation of energy and verify it in case of a freely falling body. **(CO3)**
(OR)
(B) State and prove work energy theorem. **(CO3)**
- 7) (A) Define ideal simple pendulum and derive the equation for time period of a simple pendulum **(CO3)**
OR
(B) State the conditions for S.H.M, derive the equation for velocity for a Particle in S.H.M. **(CO3)**
- 8) (A) Define ideal gas, show that for an ideal gas the difference in specific heats is equal to universal gas constant **(CO4)**
(OR)
(B) State gas laws and derive the ideal gas equation **(CO4)**

UNIT TEST –III
Model Question Paper (C-20)
ENGINEERING PHYSICS (AA–103)

TIME: 90 minutes

Total Marks: 40

PART –A

16 Marks

Instructions: (1) Answer all questions.

(2) First question carries 4 marks and others carry 3 marks each.

(3) Answers for the Question numbers 2 to 5 should be brief and straight to the point and shall not exceed five simple sentences.

- 1) i) Photo electric cell converts light energy in to _____ energy (CO5)
- ii) What is elastic limit ? (CO5)
- iii) SI unit of Specific resistance is ----- (CO5)
- iv) Inside a bar magnet magnetic line of force will travel from North pole to South pole [True / False] (CO5)
2. Distinguish between Musical sound and Noise (CO4)
3. What is the effect of temperature on Viscosity of liquids and gases (CO5)
4. The values of resistances P, Q, R are 50Ω , 10Ω , 15Ω respectively in the balanced condition of Wheatstone bridge, find the unknown resistance (CO5)
5. What is nanotechnology and write any two uses. (CO5)

PART—B

3x8=24 Marks

Instructions: (1) Answer all questions. Each question carries 8marks.

(2) Answer should be comprehensive and the criteria for evaluation is content but not the length of the answer.

- 6) (A) Explain Surface Tension based on the molecular theory (CO5)
(OR)
(B) Define Reverberation and Reverberation Time. Derive Sabine formula for reverberation time. (CO4)
- 7) (A) Derive the balancing condition of Wheatstone bridge with neat circuit Diagram. (CO5)
(OR)
(B) Derive an expression for the magnetic induction field strength at a point on the equatorial line of a bar magnet. (CO5)
- 8) (A) Describe an experiment to determine the specific resistance of a wire using meter bridge. (CO5)
(OR)
(B) Explain the principle and working of an optical fiber. (CO5)

BOARD DIPLOMA EXAMINATION, (C-20)
FIRST YEAR EXAMINATION
AA-103, ENGINEERING PHYSICS

Time : 3 hours]

[Total Marks : 80M

PART—A

3×10=30

Instructions: (1) Answer all questions.
(2) Each question carries three marks.
(3) Answers should be brief and straight to the point and shall not exceed five simple Sentences.

1. Write the dimensional formula of the following physical quantities **(CO1)**
(a) Velocity (b) Force (c) Angular momentum
2. Write any three properties of scalar product. **(CO1)**
3. Define projectile. Give two examples. **(CO2)**
4. It is easier to pull a lawn roller than to push it. Explain. **(CO2)**
5. Define potential energy and kinetic energy. **(CO3)**
6. For a body in simple harmonic motion velocity at mean position is 4m/s, if the time period is 3.14 s, find its amplitude. **(CO3)**
7. State first and second laws of thermodynamics. **(CO4)**
8. Write any three conditions of good auditorium **(CO4)**
9. Define ohmic and non-ohmic conductors. **(CO5)**
10. State Coulomb's inverse square law of magnetism. **(CO5)**

PART—B

8 ×5= 40

Instructions: (1) Each question carries eight marks.
(2) Answers should be comprehensive and the criterion for valuation is the content But not the length of the answer.

11. A) Derive an expression for magnitude and direction of the resultant of two vectors using Parallelogram law of vectors. **(CO1)**

OR

B) Show that path of a projectile is parabola in case of oblique projection and derive expression for maximum height. **(CO2)**
12. A) Derive expression for acceleration of a body sliding downwards on a rough inclined plane. **(CO2)**

OR

B) Verify the law of conservation of energy in case of a freely falling body. **(CO3)**

13. A) Derive an expression for velocity and acceleration of a particle performing simple harmonic Motion. **(CO3)**

OR

B) Define ideal gas and derive ideal gas equation. **(CO4)**

14. A) Two tuning forks A and B produce 4 beats per second. On loading B with wax 6 beats are produced. If the quantity of wax is reduced the number of beats drops to 4. If the frequency of A is 326 Hz, find the frequency of B. **(CO4)**

OR

B) Explain surface tension based on molecular theory. Write three examples of surface tension. **(CO5)**

15. A) Derive an expression for balancing condition of Wheat stone's bridge with a neat circuit diagram. **(CO5)**

OR

B) Explain principle and working of optical fibers. Write any three applications. **(CO5)**

PART-C

1 x 10 = 10

16) Derive relationship between molar specific heat of a gas at constant pressure C_p and molar specific heat of a gas at constant volume C_v and hence show that C_p is greater than C_v . **(CO4)**

Course code	Course Title	No. of Periods per week	Total No. of Periods	Marks for FA	Marks for SA

9	Fuels	6	CO4
10	Chemistry in daily life	6	CO4
11	Environmental Studies	16	CO5
	Total	120	

➤ **Course Objectives**

Course Title: Engineering Chemistry & Environmental Studies	
Course Objectives	<ol style="list-style-type: none"> 1. To familiarize with the concepts of chemistry involved in the process of various Engineering Industrial Applications. 2. To know the various natural and man-made environmental issues and concerns with an interdisciplinary approach that include physical, chemical, biological and socio cultural aspects of environment. 3. To reinforce theoretical concepts by conducting relevant experiments/exercises

➤ **Course outcomes**

Course Outcomes	CO1	Explain Bohr`s atomic model, chemical bonding, mole concept, acids and bases, P ^H metallurgical process and alloys
	CO2	Explain electrolysis, Galvanic cell, emf and corrosion
	CO3	Explain the chemistry involved in the treatment of water by advanced method
	CO4	Synthesise of Plastics, rubber and applications of fuel chemical compounds used in our daily life.
	CO5	Explain the causes, effects and control methods of air and water pollution and measures to protect the environment

Course code AA-104	Engg. Chemistry and Environmental studies No of Cos;5			No Of periods 120	
POs	Mapped with CO No	CO periods addressing PO in Col 1 NO %		Level 1,2,3	Remarks
PO1	CO1,CO2,CO3, CO4,CO5	60	50%	3	>40% level 3 (highly addressed) 25% to 40% level2(moderately addressed 5% to 25% level1 (Low addressed < 5%(not addressed)
PO2	CO1,CO2	13	10.8%	1

*One question of HOTs for 10 marks from any of the unit title 5 or 8

Upon completion of the course the student shall be able to learn out

ENGINEERING CHEMISTRY AND ENVIRONMENTAL STUDIES

1.0 Atomic structure

- 1.1 Explain the charge, mass of fundamental particles of an atom (electron, proton and neutron) and the concept of atomic number and mass number.
- 1.2 State the Postulates of Bohr's atomic theory and its limitations.
- 1.3 Explain the significance of four Quantum numbers.
- 1.4 Explain 1. Aufbau principle, 2 Pauli's exclusion principle 3 Hund's rule.
- 1.5 Define Orbital of an atom and draw the shapes of s, p and d- Orbitals.
- 1.6 Write the electronic configuration of elements up to atomic number 30
- 1.7 Explain the significance of chemical bonding
- 1.8 Explain the Postulates of Electronic theory of valency
- 1.9 Define and explain Ionic and Covalent bonds with examples of NaCl, MgO, *H₂, *O₂ and *N₂. (* Lewis dot method)
- 1.10 List out the Properties of Ionic compounds and covalent compounds and distinguish between their properties.
- 1.11 Structures of ionic solids-define a) Unit cell b) co-ordination number and the structures of NaCl and CsCl unit cells.

2.0 Solutions

- 2.1 Define the terms 1. Solution, 2. Solute and 3. Solvent
- 2.2 Classify solutions based on physical state and solubility
- 2.3 Define mole and problems on mole concept.
- 2.4 Define the terms 1. Atomic weight, 2. Molecular weight and 3. Equivalent weight and calculate Molecular weight and Equivalent weight of the given acids. (HCl, H₂SO₄, H₃PO₄) Bases (NaOH, Ca(OH)₂, Al(OH)₃) and Salts (NaCl, Na₂CO₃, CaCO₃)
- 2.5 Define molarity and normality and numerical problems on molarity and normality
 - a) Calculate the Molarity or Normality if weight of solute and volume of solution are given
 - b) Calculate the weight of solute if Molarity or normality with volume of solution are given
 - c) Problems on dilution to convert high concentrated solutions to low concentrated Solutions

3.0 Acids and bases

- 3.1 Explain Arrhenius theory of Acids and Bases and give the limitations of Arrhenius theory of Acids and Bases.
- 3.2 Explain Bronsted–Lowry theory of acids and bases and give the limitations of Bronsted–Lowry theory of acids and bases.
- 3.3 Explain Lewis theory of acids and bases and give the limitations of Lewis theory of acids and bases.
- 3.4 Explain the Ionic product of water
- 3.5 Define pH and explain P^H scale and solve the Numerical problems on pH (Strong Acids and Bases)
- 3.6 Define and explain buffer solution and give the examples of buffer solutions.
- 3.7 State the application of buffer solutions

4.0 Principles of Metallurgy

- 4.1 List out the Characteristics of Metals and non-metals
- 4.2 Distinguish between Metals and Non-metals
- 4.3 Define the terms 1. Mineral, 2. Ore, 3. Gangue, 4. Flux 5. Slag
- 4.4 Describe the methods of concentration of Ore; 1. Handpicking, 2. Levigation and 3. Froth Floatation
- 4.5 Describe the methods involved in extraction of crude metal- Roasting, Calcination and Smelting.
- 4.6 Explain the purification of Copper by Electrolytic Refining
- 4.7 Define an Alloy and Write the composition and uses of the following alloys. 1. Brass 2. German silver 3. Nichrome.

5.0 Electrochemistry

- 5.1 Define the terms 1. Conductor 2. Semiconductor 3. Insulator, 4. Electrolyte 5. Non–electrolyte. Give two examples each.
- 5.2 Distinguish between metallic conduction and Electrolytic conduction
- 5.3 Explain electrolysis by taking example fused NaCl
- 5.4 Explain Faraday's laws of electrolysis
- 5.5 Define 1. Chemical equivalent (E) 2. Electrochemical equivalent (e) and their relation.
- 5.6 Solve the Numerical problems on Faraday's laws of electrolysis and applications of electrolysis (Electro plating)
- 5.7 Define Galvanic cell and explain the construction and working of Galvanic cell.
- 5.8 Distinguish between electrolytic cell and galvanic cell
- 5.9 Explain the electrode potentials and standard electrode potentials
- 5.10 Explain the electrochemical series and its significance
- 5.11 Explain the emf of a cell and solve the numerical problems on emf of the cell based on standard electrode potentials.

6.0 Corrosion

- 6.1 Define the term corrosion.
- 6.2 state the Factors influencing the rate of corrosion
- 6.3 Describe the formation of a) composition cell b) stress cell c)concentration cell during corrosion.
- 6.4 Define rusting of iron and explain the mechanism of rusting of iron.
- 6.5 Explain the methods of prevention of corrosion
 - a) Protective coatings (anodic and cathodic coatings)
 - b) Cathodic protection (Sacrificial anode process and Impressed–voltage process)

7.0 Water Treatment

- 7.1 Define soft water and hard water with respect to soap action.
- 7.2 Define and classify the hardness of water.
- 7.3 List out the salts that causing hardness of water (with Formulae)
- 7.4 State the disadvantages of using hard water in industries.
- 7.5 Define Degree of hardness and units of hardness (mg/L) or(ppm).
- 7.6 Explain the methods of softening of hard water: a) Ion-exchange process, b)Permutit process or zeolite process
- 7.7 State the essential qualities of drinking water.
- 7.8 Chemistry involved in treatment of water (Coagulation, Chlorination, deflouridation)
- 7.9 Explain Osmosis and Reverse Osmosis with examples.
- 7.10 State the applications of Reverse Osmosis.

8.0 Polymers

- 8.1 Explain the concept of polymerisation
- 8.2 Describe the methods of polymerization a)addition polymerization of ethylene b)condensation polymerization of Bakelite(Only flow chart)
- 8.3 Define thermoplastics and thermosetting plastics with examples.
- 8.4 Distinguish between thermo plastics and thermosetting plastics
- 8.5 List the Characteristics of plastics and state the disadvantages of using plastics.
- 8.6 State the advantages of plastics over traditional materials.
- 8.7 Explain the methods of preparation and uses of the following plastics:
1. PVC, 2.Teflon, 3. Polystyrene 4. Nylon 6,6
- 8.8 Explain processing of Natural rubber and write the structural formula of Natural rubber.
- 8.9 List the Characteristics of raw rubber
- 8.10 Define and explain Vulcanization and List out the Characteristics of Vulcanized rubber.
- 8.11 Define the term Elastomer and describe the preparation and uses of the following synthetic rubbers a) Buna-s and b)Neoprene rubber.

9.0 Fuels

- 9.1 Define the term fuel
- 9.2 Classify the fuels based on physical state and based on occurrence.
- 9.3 List the characteristics of good fuel.
- 9.4 State the composition and uses of gaseous fuels.
 - a)water gas b) producer gas, c) natural gas, d) Coal gas, e)Biogas.

10.0 Chemistry in daily life

- 10.1 Give the basic chemical composition, applications, health aspects and pollution impacts of
 - a) soaps, and detergents b) vinegar c) Insect repellents d) activated charcoal e) Soft drinks

11.0 ENVIRONMENTALSTUDIES

- 11.1 Define the term environment and explain the scope and importance of environmental studies
- 11.2 Define the segments of environment 1).Lithosphere, 2).Hydrosphere, 3).Atmosphere, 4).Biosphere,

- 11.3 Define the following terms 1)Pollutant, 2).Pollution, 3).Contaminant, 4)receptor, 5)sink, 6) particulates, 7)dissolved oxygen (DO), 8)Threshold limit value (TLV), 9).BOD,10).COD 11) eco system12) Producers13) Consumers 14) Decomposers with examples
- 11.4 State the renewable and non renewable energy sources with examples.
- 11.5 Explain biodiversity and threats to biodiversity
- 11.6 Define air pollution and classify the air pollutants-based on origin and physical state of matter.
- 11.7 Explain the causes, effects of air pollution on human beings, plants and animals and control methods of air pollution.
- 11.8 State the uses of forest resources.
- 11.9 Explain causes and effects of deforestation
- 11.10 Explain the causes and effects of the following
1) Greenhouse effect, 2) Ozone layer depletion and 3) Acid rain
- 11.11 Define Water pollution, explain the causes, effects and control methods of Water pollution.

COURSE CONTENT

ENGINEERING CHEMISTRY AND ENVIRONMENTAL STUDIES

1. Fundamentals of Chemistry

Atomic Structure: Introduction - Fundamental particles – Bohr's theory – Quantum numbers –Aufbau principle - Hund's rule - Pauli's exclusion Principle- Orbitals, shapes of s, p and d orbitals - Electronic configurations of elements

Chemical Bonding: Introduction – types of chemical bonds – Ionic and covalent bond with examples–Properties of Ionic and Covalent compounds- structures of ionic crystals (NaCl and CsCl).

2. Solutions

Introduction of concentration methods – mole concept, molarity and normality – Numerical problems on mole, molarity and normality.

3. Acids and Bases

Introduction – Theories of acids and bases and limitations – Arrhenius theory- Bronsted – Lowry theory – Lewis acid base theory – Ionic product of water- pH related numerical problems–Buffer solutions, action of buffer and its applications.

4. Principles of Metallurgy

Characteristics of Metals and non-metals –Distinguish between Metals and Non-metals, Define the terms i) Metallurgy ii) ore iii) Gangue iv) flux v) Slag - Concentration of Ore –Hand picking, Levigation, Froth floatation – Methods of Extraction of crude Metal – Roasting, Calcination, Smelting – Alloys – Composition and uses of brass, German silver and nichrome.

5. Electrochemistry

Conductors, semiconductors, insulators, electrolytes and non-electrolytes – electrolysis – Faraday's laws of electrolysis-application of electrolysis(electroplating) -numerical problems on Faraday's laws – Galvanic cell – standard electrode potential – electrochemical series–emf and numerical problems on emf of a cell .

6. Corrosion

Introduction - factors influencing corrosion - composition, stress and concentration cells – rusting of iron and its mechanism – prevention of corrosion by coating methods, cathodic protection methods.

7. Water technology

Introduction – soft and hard water – causes of hardness – types of hardness – disadvantages of hard water – degree of hardness (ppm and mg/lit) – softening methods – permutit process – ion exchange process – qualities of drinking water – Chemistry involved in treatment of water (Coagulation, Chlorination, defluoridation) - Osmosis, Reverse Osmosis – Applications of Reverse osmosis.

8. Polymers

Introduction – polymerization – types of polymerization – addition, condensation with examples – plastics – types of plastics – advantages of plastics over traditional materials- Disadvantages of using plastics – Preparation and uses of the following plastics i).PVC ii) Teflon iii) Polystyrene iv) .Nylonn 6,6 –Processing of natural rubber - Vulcanization – Elastomers- Preparation and applications of Buna-s, Neoprene rubbers.

9. Fuels

Definition and classification of fuels – characteristics of good fuel – composition and uses of gaseous fuels.

10. Chemistry in daily life

Basic composition, applications, health aspects and pollution impacts of soaps and detergents, vinegar, insect repellents, soft drinks, activated charcoal.

11. ENVIRONMENTAL STUDIES

Introduction – environment – scope and importance of environmental studies – important terms related to environment – renewable and non-renewable energy sources – Concept of ecosystem – Biotic components – Forest resources – Deforestation – Biodiversity and its threats – Air pollution – causes – effects – Global environmental issues – control measures – Water pollution – causes – effects – control measures.

Table specifying the scope of syllabus to be covered for unit test 1, unit test 2 and unit test 3

Unit Test	Learning outcomes to be covered
Unit Test - 1	From 1.1 to 3.7
Unit Test - 2	From 4.1 to 7.10
Unit Test - 3	From 8.1 to 11.11

Model question paper for Unit Test with Cos mapped

UNIT TEST –I
MODEL QUESTION PAPER (C-20)
ENGINEERING CHEMISTRY & ENVIRONMENTAL STUDIES (AA-104)

TIME: 90 minutes

Total Marks: 40

PART-A

16 Marks

Instructions: (1) Answer all questions.

(2) First question carries 4 marks and each of rest carries 3 marks.

(3) Answers for Q.No. 2 to 5 should be brief and straight to the point and shall not exceed five simple sentences.

1. a. Number of neutrons in ${}_{11}\text{Na}^{23}$ is ----- (CO1)
b. The molarity and normality of HCl is the same (True or False) (CO1)
c. What is the p^H range of base? (CO1)
d. Graphite is a good conductor of electricity (Yes or No) (CO1)
2. Distinguish between orbit and orbital. (CO1)
3. Define Covalent bond. Explain the formation of covalent bond in Oxygen and Nitrogen molecules. (CO1)
4. Define mole. Calculate the number of moles present in 50 gm of CaCO_3 and 9.8 gm of H_2SO_4 . (CO1)
5. Define P^H . Calculate the P^H of 0.001M HCl and 0.01M NaOH solution. (CO1)

PART – B

3x8M = 24M

Answer either (A) or (B) from each questions from Part-B. Each question carries 8 marks.

6. A) Explain Postulations of Bhor's atomic theory. Give its limitations. (CO1)
(OR)
B) Explain the significance of Quantum numbers. (CO1)
7. A) Express molarity normality with mathematical equation. Calculate the molarity and normality of 10gm of NaOH present in 500 ml solution. (CO1)
(OR)
B) Classify solutions based the physical state of solute and solvent and give an example each. (CO1)
8. A) What is buffer solution? Classify with examples and give it's applications. (CO1)
(OR)
B) Explain Bronsted-Lowry theory of acids and bases. Give its limitations. (CO1)

UNIT TEST –II
MODEL QUESTION PAPER (C-20)
ENGINEERING CHEMISTRY & ENVIRONMENTAL STUDIES (AA-104)

TIME: 90 minutes

Total Marks:40Marks

PART-A

16 Marks

Instructions: (1) Answer all questions.

(2) First question carries 4 marks and each of rest carries 3 marks.

(3) Answers for Q.No. 2 to 5 should be brief and straight to the point and shall not exceed five simple sentences.

1. a) Bauxite is the ore of metal (CO2)
b) What is the unit of electrochemical equivalent? (CO2)
c) CaSO_4 is the permanent hardness causing salt. (True or False) (CO3)
d) Write the Chemical formula of rust. (CO2)
2. Write any three differences between metallic conduction and electrolytic conduction. (CO2)
3. Write the composition and applications of German silver and Nichrome. (CO1)
4. Mention any three disadvantages of using hard water in industries. (CO3)
5. Define electro chemical equivalent and chemical equivalent. Give the relation between them. (CO2)

PART – B

3x8M = 24M

Answer either (A) or (B) from each questions from Part-B. Each question carries 8 marks.

6. A) What is galvanic cell? Explain construction and working of galvanic cell with neat diagram (CO2)

(OR)

B) State and explain Faraday`s laws of electrolysis. (CO2)
7. A) Explain different types of galvanic cells formed during the corrosion of metals. (CO2)

(OR)

B) What is hard water? Explain zeolite process of softening of hard water. (CO3)
8. A) Explain Froth floatation process. (CO1)

(OR)

B) Explain Electrolytic refining processing of copper. (CO1)

UNIT TEST –III
MODEL QUESTION PAPER (C-20)
ENGINEERING CHEMISTRY & ENVIRONMENTAL STUDIES (AA-104)

TIME: 90 minutes

Total Marks:40

PART-A

16 Marks

Instructions: (1) Answer all questions.

(2) First question carries 4 marks and each of rest carries 3 marks.

(3) Answers for Q. No. 2 to 5 should be brief and straight to the point and shall not exceed five simple sentences.

1. a) The monomer of PVC..... (CO4)
b) Sulphur is the vulcanising agent. (True/False) (CO4)
c) Give an example for secondary pollutant. (CO5)
d) Presence of ozone in stratosphere is a pollutant.(Yes/No) (CO5)
2. List any three characteristic properties of vulcanised rubber. (CO4)
3. Define primary fuel and secondary fuels give an example each. (CO4)
4. Mention the basic chemical composition and applications of vinegar. (CO4)
5. Write any three threats to the biodiversity. (CO5)

PART – B

3x8M = 24M

Answer either (A) or (B) from each questions from Part-B. Each question carries 8 marks.

6. A) Explain addition and condensation polymerisation with an example each. (CO4)
(OR)
B) Give a method of preparation and applications of the following
i) Buna-S ii) Neoprene (CO4)
7. A) What is air pollution? Explain any three causes of air pollution. (CO5)
(OR)
B) Briefly explain ozone layer depletion and green house effect. (CO5)
8. A) What is water pollution? Explain any three controlling methods of water pollution.(CO5)
(OR)
B) What are thermoplastics and thermo setting plastic? Write any four differences between these two plastics. (CO4)

Model Question Paper (C-20)
ENGINEERING CHEMISTRY & ENVIRONMENTAL STUDIES (AA-104)

TIME: 3hrs

Total Marks:80

PART-A

Instructions: (1) Answer all questions. 3x10=30M
(2) Each question carries 3 marks.

1. Draw the shapes of s and p orbitals. (CO1)
2. Define mole. Find the mole number of 10 g of CaCO_3 (CO1)
3. Define Buffer solution. Give any two examples. (CO1)
4. Define chemical equivalent and electrochemical equivalent. Give their relation. (CO2)
5. State name of the salts and their formulae that cause hardness. (CO3)
6. Write any three disadvantages of using plastics. (CO4)
7. Classify the fuels based on their occurrence. (CO4)
8. Mention the basic chemical composition and applications of vinegar. (CO4)
9. List out any three threats to biodiversity. (CO5)
10. Define pollutant and contaminant. Give an example each. (CO5)

PART – B

Each question carries eight marks. 8x5=40M

11. A) Explain Bohr's atomic theory and give its limitations. (CO1)
(OR)
B) Explain ionic bond formation and covalent bond formation with one example each (CO1)
12. A) Calculate the molarity and normality of 250 ml of sodium carbonate solution that contains 10.6 gm of sodium carbonate. (CO1)
(OR)
B) Explain Bronstead and Lowry theory of acids and bases. Give its limitations. (CO1)
13. A) Explain froth floatation and electrolytic refining of copper with neat diagrams. (CO1)
(OR)
B) Explain the construction and working of galvanic cell. (CO2)
14. A) Explain Cathode protection methods. (CO2)
(OR)
B) Explain ion-exchange of softening of hard water with a neat diagram. (CO3)
15. A) Explain addition and condensation polymerisation with an example each. (CO4)
(OR)
B) Explain the causes and effects of air pollution. (CO5)

PART – C

- Question carries ten marks 10x1 =10M**
16. Analyse the products formed at cathode and anode with electrode reactions during the Electrolysis of aqueous NaCl in compare with fused NaCl. (CO2)

BUILDING MATERIALS (C-20)

Subject Title	Subject Code	Periods / Week	Periods / Year
Building Materials	AA-105	04	120

TIME SCHEDULE

Sl. No	Major Topics	No. of periods	Weightage of Marks	Part-A No of short ans. questions	Part-B No of Essay ans. questions	Part-C Question
1.	Stones	08	03	1	-	1
2.	Bricks	10	08	-	1	
3.	Lime	08	03	1	-	
4.	Clay Products	10	03	1	-	
5.	Sand	06	03	1	-	
6.	Cement	08	08	-	1	
7.	Mortars	08	03	1	-

12.	Paints & Varnishes	08	03	1	-	
13.	Plastics	08	08	-	1	
14.	Modern Materials	12	11	1	1	
	From all the above topics		10			
Total:		120	80	10	5	1

Note on Examination: -

Part-A: 30 marks, 10 questions - 3 marks each, **NO CHOICE** - 60 minutes (6 Minutes for each question)

Part-B: 40 marks, 5 questions - 8 marks each, **EITHER OR TYPE** - 90 minutes (18 Minutes each question)

Part-C: 10 marks 1 question-30 minutes (**Higher Order Question**)

Note: The subject teachers have to organize a practical assignment which enables the all the students in gaining the knowledge by touch the material and experience it physically for which the following modalities are to be followed: -

1. Subject teacher has to make students in to batches comprising minimum three and maximum five for each batch.
2. Each batch of students have to be entrusted to collect the material specimens mentioned in the course content sharing equally from various sources (shops, source productions, factories, markets, wholesale and retail dealers.
3. All such Specimen to be deposited in the Building materials display Room or laboratory.
4. Material display room to be made accessible to all students to perceive the material collected by other batches and students of the course.
5. Material display room to be in the control of the HoS / Arch or with Subject teacher.

6. For said Collection of specimen material job the students are to be permitted with required permission letter processed through Subject teacher, HoS, Principal and to be permitted only on Second Saturdays with in the vicinity of the town where their institution is existing.

COURSE OBJECTIVES and OUTCOMES

BUILDING MATERIALS		
Course Objectives	(i)	To understand the need to know and learn the course to communicate to the stake holders such as clients, contractors, masons, workers and materials traders.
	(ii)	To define, describe, explain the properties, know the uses of the materials which are used for construction of main structure and appurtenant components i.e., Stones, Bricks, Lime, Clay Products, Sand, Cement, Mortars, Concrete.
	(iii)	To understand the rendering material used for interior and exterior of buildings along with their characteristics i.e., of Timber, Glass, Metals, Various Paints, Varnishes and Plastics, Modern Materials.
	(iv)	To comprehend the knowledge of each building material in detail which are used for conventional and non-conventional with their source, other forms, by-products and substitutes wherever it is possible.
	(v)	To understand the scope and limitations of the building materials i.e., Stones, Bricks, Lime, Clay Products, Sand, Cement, Mortars, Concrete, Timber, Glass, Metals, Various Paints, Varnishes and Plastics, Modern Materials.
	(vi)	To collect the material specimen so to gain experience perception of its touch, colour, smell, physical form, texture, quality, availability, cost etc.
Course Outcome	CO1	Understand and communicate with clients and related stakeholders in serving and specifying adequate and suitable material for such work of the building and construction while conveying their properties, durability and application methodology.
	CO2	Apply the knowledge in serving the profession and job, matching to the prevailing industry and latest needs while experimenting with new / equivalent / substitute / better than the conventional materials.
	CO3	Serve the clients and society by adopting and maintaining the standards specified and prescribed by ISI and ISO.
	CO4	Specify suitable material for needful solution and improvising the quality of building construction, appearance, rendering while maintaining standards and cost-effective techniques.
	CO5	Acquire knowledge of modern or latest materials available in the building material market to face and solve various cropping challenges in construction, satisfying the clients' needs for various building planning requirements.
	CO6	Serves the profession through educating and making the clients aware of the importance of natural sources of various materials and their scarcity to implement the environment friendly and maintain the ecological balance.
	CO7	Having experienced the specimen material collected during the course work period understanding their properties, cost and limitations is adding power of confidence for their application and specifying the suitable materials serving through professional practice or being an employee at an architect's office or in a construction agency which practises a lifelong learning and serving.

LEARNING OUTCOMES:

On completion of the course the student will be able to

1.0 Stones: -

- 1.1 State the characteristics of good building Stones
- 1.2 State the common varieties of stones used in different items of construction works
- 1.3 Explain the purpose of dressing of stones
- 1.4 Know the uses of different type of stones for building construction and interiors

2.0 Bricks: -

- 2.1 State the ISI specifications of bricks IS-1077-1971
- 2.2 State the Characteristics of good bricks
- 2.3 State the Uses and properties of (i) Refractory bricks, (ii) Full G Bricks
- 2.4 State the uses (i) Hollow concrete blocks & (ii) Cement mortar bricks embedded with stone

3.0 Lime: -

- 3.1 Define and explain the terms – (i) Slaking, (ii) Hydraulicity and (iii) Calcination
- 3.2 State the Properties and uses of (i) Fat lime and (ii) Hydraulic lime

4.0 Clay Products: -

- 4.1 State the Types & Uses of (i) Roofing tiles (Mangalore tiles only), (ii) Floor tiles, (iii) Ceiling tiles, (iv) Wall tiles
- 4.2 State the Characteristics of good tiles.
- 4.3 know the Stoneware pipes and their Uses
- 4.4 know the Porcelain glazed tiles and their uses.
- 4.5 know Vitreous Tiles and their uses.

5.0 Sand: -

- 5.1 State the classification of sand.
- 5.2 State the characteristics of sand.
- 5.3 State the uses of good sand.
- 5.4 State the percentage of bulk allowance for construction work.
- 5.5 State the necessity of crushed stone powder as a substitute of sand.

6.0 Cement: -

- 6.1 List the ingredients of Cement.
- 6.2 State the classification of Cement and their uses.
- 6.3 State the characteristics of ordinary Portland cement.
- 6.4 State the grades of cement and their compressive strengths.
- 6.5 State the importance of Blended cement and its application (mixture of Fly ash or Furnace slag).

7.0 Mortars: -

- 7.1 State the classification and uses of various mortars.
- 7.2 State the different proportions of mortars for various works.
- 7.3 Explain the methods of preparation of cement mortars.
- 7.4 State the characteristics of good mortar.

8.0 Concrete: -

- 8.1 State the Ingredients of plain concrete and Reinforced concrete
- 8.2 Explain the Proportioning – Usual proportions for different item of works – Foundations, Columns, slabs, beam for ordinary buildings.
- 8.3 Define (i) Fine Aggregate, (ii) Coarse Aggregate and (iii) Workability.
- 8.4 Explain the terms – (i) Hydration of cement, (ii) water cement Ratio.
- 8.5 Know the Methods of preparation of concrete and advantages of (i) Hand Mix, (ii) Machine Mix
- 8.6 understand the Laying and Curing of concrete

- 8.7 Know the Properties of concrete
- 8.8 Know the preparation and application of ready-mix concrete and its advantages
- 8.9 Understand the Light Weight Concrete its application
- 9.0 Timber & Timber Products: -**
- 9.1 State the characteristics of good timber
- 9.2 State the importance of seasoning and define preservation of timber
- 9.3 Identify and Name the common varieties of trees in A.P, used for building construction and Interiors.
- 9.4 State the uses of wood products in construction work
- 10.0 Glass: -**
- 10.1 State the important uses of glass
- 10.2 State the types of glasses available in market and their uses
- 11.0 Metals**
- 11.1 State the uses of Copper, Lead, Zinc, Aluminum, Cast Iron, and Brass, Steel, Stainless steel.
- 11.2 State the characteristics and uses of the above metals.
- 12.0 Paints & Varnishes: -**
- 12.1 know the Characteristics of Paints – Varnishes.
- 12.2 Know the Different types of paints on different wall surfaces – (i) White cement, (ii) Cement Primer, (iii) Oil bound distempers, (iv) Emulsion Paints.
- 12.3 State (i) Paints applied on Metals, (ii) Powder coated paints
- 12.4 Paints applied on wood work – (i) oil paints, (ii) plastic emulsions,
- 12.5 (i) Varnishes, (ii) Polyurethane coating, (iii) Touchwood, (iv) Wood seals, (v) Melamine finishes. (vi) Antifungal & (vii) Anti corrosive paints
- 13.0 Plastics: -**
- 13.1 State the characteristics and uses of different types of Plastics –(i) Fibre plastics, (ii) Reinforced plastics, (iii) Plastics for doors and windows (PVC form), (iv) Plastics for water tanks (v) Plastics for False Ceilings
- 13.2 Understand and know application of Thermosetting and Thermodynamic Plastics
- 14.0 Modern Materials: -**
- 14.1 Gain the knowledge of (i) Thermocole, (ii) Plaster of Paris (POP), (iii) Gypsum Boards, (iv) Aluminum Elevation sheets, (v) Aluminum composite panels, (vi) Polycarbonate sheets, (vii) Glass wool, (viii) Fiber-glass, (ix) Wall paper, (x) Cement Boards, (xi) Cork boards, (xii) Rubber sheets, (xiii) Tensile Roofing,
- 14.2 Understand the application or Use of above materials in Building Construction.

COURSE CONTENTS

1.0 STONES:

- 1.1 Classification of stones
- 1.2 Characteristics of good building stone.
- 1.3 Common Varieties of stones – (i) Granites, (ii) Marble, (iii) Cuddaph-slabs, (iv) Shahabad stones, (v) sand stone, (vi) lime stone.
- 1.4 Dressing of stones – purpose and uses.

2.0 BRICKS:

- 2.1 ISI specifications of bricks IS-1077-1971.
- 2.2 Characteristics of good bricks.
- 2.3 Uses and properties of (i) Refractory bricks, (ii) Fal G Bricks.
- 2.4 (i) Hollow concrete blocks & (ii) Cement mortar bricks embedded with stone.

- 3.0 LIME:**
- 3.1 Definition for the terms – (i) Slaking, (ii) Hydraulicity and (iii) Calcination.
- 3.2 Properties and uses of (i) Fat lime and (ii) Hydraulic lime.
- 4.0 CLAY PRODUCTS:**
- 4.1 Tiles – Types & Uses – (i) Roofing tiles (Mangalore tiles only), (ii) Floor tiles, (iii) Ceiling tiles, (iv) Wall tiles.
- 4.2 Characteristics of good tiles.
- 4.3 Stoneware pipes – Uses.
- 4.4 Porcelain glazed tiles.
- 4.5 Vitreous Tiles.
- 5.0 SAND:**
- 5.1 Classification of sand: (i) River sand, (ii) Pit sand and (iii) Sea Sand.
- 5.2 Characteristics of the above sands.
- 5.3 Bulking of sand – Percentage of bulking allowance to be permitted.
- 5.4 Crushed stone powder as substitute of sand.
- 6.0 CEMENT:**
- 6.1 Ingredients of Cement
- 6.2 Classification of Cement – (i) Ordinary port land cement, (ii) Quick setting cement, (iii) Rapid hardening cement, (iv) White cement, (v) Coloured cement.
- 6.3 Grades of cements, their strength & uses.
- 6.4 Blended cement (it is a mixture of Fly ash or Furnace slag) and its application.
- 7.0 MORTARS:**
- 7.1 Classification and uses of Mortars – (i) Mud Mortar, (ii) Lime Mortar, (iii) Cement Mortar, (iv) Surkhi Mortar, (v) Blended mortar, (vi) Gauged, (vii) Gypsum.
- 7.2 Different proportions of ingredients in cement mortars for various works.
- 7.3 Preparation of cement Mortar.
- 7.4 Brick laying Mortar and Finishing Mortars.
- 8.0 CONCRETE:**
- 8.1 Ingredients of plain concrete and Reinforced concrete.
- 8.2 Proportioning – Usual proportions for different item of works – Foundations, Columns, slabs, beams for ordinary buildings.
- 8.3 (i) Define Fine Aggregate, (ii) Coarse Aggregate and (iii) Workability.
- 8.4 (i) Hydration of cement, (ii) water cement Ratio.
- 8.5 Methods of preparation of concrete – (i) Hand Mix, (ii) Machine Mix.
- 8.6 Laying and Curing of concrete.
- 8.7 Properties of concrete
- 8.8 Introduction to ready mix concrete.
- 8.9 Light Weight Concrete its uses.
- 9.0 TIMBER AND TIMBER PRODUCTS:**
- 9.1 Characteristics of good timber.
- 9.2 Seasoning of timber – Importance
- 9.3 Common varieties of timber used for different works (such as Doors, Windows, Framework, Centering, Flooring and Cladding, Furniture, etc.).
- 9.4 Wood Products – (i) Veneer, (ii) Ply wood, (iii) Particle Board, (iv) Laminated Board, (v) Straw board and their uses.
- 10.0 GLASS:**
- 10.1 Properties and uses of glasses.
- 10.2 Types and uses of glass available in market – (i) Soda lime glass, (ii) Sheet glass, (iii) Glass bricks, (iv) Fibre glass, (v) Structural glass, (vi) Wired glass and (vii) Bullet proof glass.

11.0 METALS:

11.1 Properties and Uses of – (i) Copper, (ii) Aluminium, (iii) Cast –Iron, (iv) Brass,(v) Steel &(vi) Stainless steel.

11.2 Usage of the above metals in Building Construction.

12.0 PAINTS AND VARNISHES:

12.1 Characteristics of Paints – Varnishes.

12.2 Different types of paints on different wall surfaces – (i) White cement, (ii) Cement primer, (iii) Oil bound distempers, (iv) Emulsion Paints.

12.3 (i) Paints applied on Metals, (ii) Powder coated paints

12.4 Paints applied on wood work – (i) oil paints, (ii) plastic emulsions,

12.5 (i) Varnishes, (ii) Polyurethane coating, (iii) Touchwood, (iv) Wood seals, (v) Melamine finishes for interiors and furniture, (vi) Anti-fungus &(vii) Anti corrosive paints

13.0 PLASTICS:

13.1 Uses of Plastics – (i) Fibre plastics, (ii) Reinforced plastics, (iii) PVC for doors and windows, (iv) Plastics for water tanks (v) Plastics for False Ceilings

13.2 Thermosetting and Thermodynamic Plastics.

13.3 (i) Fibre reinforced plastics, (ii) Alkathene,(iii) Polythene, (iv) PVC, (v) Perspex, (vi) Thermo-plastics, (vii) Thermosetting plastics.

14.0 MODERN MATERIALS:

14.1 Properties & Uses of the following materials: - (i) Thermocole, (ii) Plaster of Paris (POP), (iii) Gypsum Boards, (iv) Aluminum Elevation sheets, (v) Aluminum composite panels,(vi) Polycarbonate sheets, (vii)Glass wool, (viii) Fibre-glass, (ix) Wall paper, (x) Cement Boards, (xi) Cork boards, (xii) Rubber sheets, (xiii) Tensile Roofing,

BASIC DESIGN (C-20)

Course Title	Course Code	Periods / Week	Periods / Year
Basic Design	AA-106	06	180

Course Title: Basic Design															
Course Objectives	(i) To develop drawing and drafting skills. (ii) To understand the basic design skills to be applied in architectural drawings. (iii) To express the design ideas and architectural vocabulary.														
Course Outcomes	<table border="1" style="width: 100%; border-collapse: collapse;"> <tbody> <tr> <td style="width: 10%;">C01</td> <td>Understand the importance of Architecture</td> </tr> <tr> <td>C02</td> <td>Use of drawing instruments to draw horizontal and vertical lines, line weights, dimensioning, freehand lettering and graphic symbols to represent various building elements.</td> </tr> <tr> <td>C03</td> <td>Understand colour and colour schemes.</td> </tr> <tr> <td>C04</td> <td>sketch human figures, trees and plants, etc., in freehand in order to apply in presentation drawings</td> </tr> <tr> <td>C05</td> <td>Understand design principles to create compositions of geometrical and non-geometrical objects.</td> </tr> <tr> <td>C06</td> <td>Explain scales to know how to measure an object or room and draw to scale.</td> </tr> <tr> <td>C07</td> <td>Explain plan, elevation and section in order to create a small design of a building</td> </tr> </tbody> </table>	C01	Understand the importance of Architecture	C02	Use of drawing instruments to draw horizontal and vertical lines, line weights, dimensioning, freehand lettering and graphic symbols to represent various building elements.	C03	Understand colour and colour schemes.	C04	sketch human figures, trees and plants, etc., in freehand in order to apply in presentation drawings	C05	Understand design principles to create compositions of geometrical and non-geometrical objects.	C06	Explain scales to know how to measure an object or room and draw to scale.	C07	Explain plan, elevation and section in order to create a small design of a building
C01	Understand the importance of Architecture														
C02	Use of drawing instruments to draw horizontal and vertical lines, line weights, dimensioning, freehand lettering and graphic symbols to represent various building elements.														
C03	Understand colour and colour schemes.														
C04	sketch human figures, trees and plants, etc., in freehand in order to apply in presentation drawings														
C05	Understand design principles to create compositions of geometrical and non-geometrical objects.

C07	Explain plan, elevation and section in order to create a small design of a building														

TIME SCHEDULE

Sl. No	Major Topics	No. of periods	Weightage of marks	No of short ans. questions	No of essay ans. questions
1.	Introduction	06	-	-	-
2.	Drawing Instruments	15	-	-	-
3.	Lines and Lettering	24	5	1	-
4.	Conventional Signs	09	5	1	-
5.	Colours	12	5	1	
6.	Architectural Rendering and Graphic symbols	12	5	1	
7.	Principles of basic design	27	5	1	-
8.	Scale and measure drawings	24	-	-	-
9.	Building Drawings and design	51	35	1	1
	Total:	180	60	6	1

*** Instructions for End Examinations: -**

- Big Size Drawing sheets are to be issued as many as required by the candidate,
- A separate drawing sheet to be provided to answer Part A which is to be collected at the end of first session.
- The drawing sheets to be issued for Part-B after completion of Part-A during the first session itself

Note: 1. Duration of examination is for **6 hours (Two sessions)**

2. No choice in Part- A and Part-B

3. Part-A: **6** questions- each of **5 marks**

Part-B: 1 question – **30marks** from **9th** topic

LEARNING OUTCOMES:

Upon completion of the course, the student should be able to

1.0 Introduction

1.1 Explain about Architecture and design.

2.0 Drawing Instruments:

2.1 Practice thoroughly the use of set-square and T-square

2.2 Know Grades of pencils available and their uses.

3.0 Lines and Lettering:

3.1 Use pencils 2H, H, HB, B, 2B and 4B and drawing horizontal lines with varying pressures.

3.2 Practice IOX to perfection and then practicing single stroke freehand lettering.

3.3 Practice Single stroke architectural lettering (a) Upper case lettering
(b) Lower case lettering.

4.0 Conventional signs

4.1 Draw the representation of various Building materials

4.2 Draw the representation of various Electrical Signs

4.3 Draw the representation of various Plumbing signs

4.4 Draw the representation of various Doors and Windows.

5.0 Colours

5.1 Explain basic theory on colour like hue, tone, gradient, opacity and tint.

5.2 Draw the Colour wheel showing primary, secondary and tertiary colours. Explain warm and cool colours.

5.3 Draw the colour wheel to show the various Colour schemes like monochromatic, analogous, complimentary, split complimentary and triadic.

6.0 Architectural Rendering and Graphic symbols

6.1 Explain various types of renderings and their uses in presentation drawings.

6.2 Draw various freehand hatching patterns representing water, grass, rocks, ramps, various tones and textures.

6.2 Sketch the graphical representation of trees and plants in plan and elevation.

6.4 Sketch the Graphical representation of human figures in various positions.

7.0 Principles of Basic Design

- 7.1 Explain with illustrations the Principles of design like Unity, Balance, Rhythm, Proportion, Dominance and Contrast.
- 7.2 Explain the term Composition in architectural design by applying the Laws of composition, elements of composition, solids and voids, colours and textures, light and shadow.
- 7.3 Draw Compositions using basic geometrical forms like squares, circles, triangles, rectangles, etc. And also few non-geometrical forms like curves.
- 7.4 Practice Exercises on Drawing of Patterns like flooring, paving patterns, window grill, door and ceiling patterns.

8.0 Scale and measure Drawings:

- 8.1 Understand how to draw plan, elevation and section.
- 8.2 Explain types of Scales and Selection of scales for various types of drawings.
- 8.3 Explain how to lay Dimensions in drawings and also various types of dimension styles.
- 8.4 Understand how to measure an object using a measuring tape and how to sketch the object plan and section and to note the measurements taken.
- 8.5 Transfer the measured object and Drawing it to said scale in plan, elevation and section of (a) Chair (b) Table
- 8.6 Measure and Draw to scale the plan, section of a classroom.
- 8.7 Measure and Draw to scale the plan, section and elevation of a pedestal.

9.0 Building drawings and design.

- 9.1 Explain the Basics of Designing small structures and developing the elevation and sections from the plan, with complete dimensions.
- 9.2 Explain the typical bus shelter and make students to Design a Bus-stop shelter of their own.
- 9.3 Explain the typical Design of an Ice cream parlour and make students to design themselves.
- 9.4 Explain the requirements and let the student design the Watch man's cabin.
- 9.5 Explain the requirements and functions to make the student Design a Small building with multipurpose hall, kitchen and toilet.
- 9.6 Explain the functional requirements of a single bedroom house with living cum dining, kitchen, bedroom, toilet and sit-out and the student should be able to design on his own, the plan, section and elevation.

COURSE CONTENTS:

1.0 Introduction:

- 1.1 Introduction to Architecture.

2.0 Drawing Instruments:

- 2.1 Types of drawing instruments and their uses.
- 2.2 Importance and Usage of drawing instruments.

3.0 Lines and Lettering:

- 3.1 Different line weights and their importance.
- 3.2 Types of single stroke freehand lettering.
- 3.3 Single stroke architectural lettering
 - (a) Upper case lettering
 - (b) Lower case lettering.

4.0 Conventional signs:

- 4.1 Building materials
- 4.2 Electrical Signs
- 4.3 Plumbing signs
- 4.4 Doors and Windows.

5.0 Colour

- 5.1 Colour theory: hue, tone, gradient, opacity and tint.
- 5.2 Colour wheel: primary colours, secondary colours, tertiary colours. Warm colours and cool colours.
- 5.3 Colour schemes: monochromatic, analogous, complimentary, split complimentary and triadic.

6.0 Architectural Rendering and Graphic symbols

- 6.1 Types of renderings and their uses in presentation drawings.
- 6.2 Various freehand hatching patterns representing water, grass, rocks, ramps, tones and textures.
- 6.3 Graphical representation of trees and plants in plan and elevation.
- 6.4 Graphical representation of human figures in various positions.

7.0 Principles of Basic Design

- 7.1 Principles of design: Unity, Balance, Rhythm, Proportion, Dominance, Contrast
- 7.2 Composition: Laws of composition, elements of composition, solids and voids, colours and textures, light and shadow.
- 7.3 Drawing Compositions using basic geometrical forms and non-geometrical forms.
- 7.4 Drawing of Patterns: flooring and paving patterns, window grill patterns, door patterns, ceiling patterns.

8.0 Scale and Measure Drawings:

- 8.1 Understanding plan, elevation and section.
- 8.2 Scales: Selection of scales for various types of drawings.
- 8.3 Dimensioning: Types of dimension styles and placing of dimensions.
- 8.4 Sketching the plan, elevation and section of objects and taking measurements of the objects with measuring tape.
- 8.5 Drawing to scale the plan, elevation and section of furniture:
 - (a) Chair
 - (b) Table
- 8.6 Drawing to scale the plan, section of a classroom.
- 8.7 Drawing to scale the plan, section and elevation of a pedestal.

9.0 Building Drawings and Design:

- 9.1 Basics of Designing small structures in plan, elevation and sections with complete dimensions.
- 9.2 Design of a Bus-stop shelter
- 9.3 Design of an Ice cream parlour
- 9.4 Design of a Watch man's cabin
- 9.5 Design of a Small building: multipurpose hall, kitchen, toilet
- 9.6 Design of a single bedroom house: living cum dining, kitchen, bedroom, toilet and sit-out.

Exercises:

2.0 Use of Drawing Instruments:

- 1) Drawing exercise on drawing parallel lines with t-square.
- 2) Drawing exercise on drawing vertical lines with set squares.
- 3) Drawing exercise on drawing diagonal lines with set squares.

3.0 Lines and Lettering:

- 4) Drawing line weights using various grades of pencils.
- 5) Practicing the letters IXO in freehand.
- 6) Single stroke Upper case architectural lettering style-1
- 7) Single stroke Upper case architectural lettering style-2
- 8) Single stroke Lower case architectural lettering

4.0 Conventional signs:

- 9) Conventional signs of Building materials, Doors and Windows
- 10) Conventional signs of Electrical and Plumbing.

5.0 Colour

- 11) Colour wheel showing primary, secondary and tertiary colours.
- 12) Colour wheel showing Colour schemes: monochromatic, analogous, complimentary, split complimentary and triadic

6.0 Architectural Rendering and Graphic symbols

- 13) Various freehand hatching patterns representing water, grass, rocks, ramps, tones and textures.
- 14) Graphical representation of trees, plants in plan and elevation and human figures in various positions.

7.0 Principles of Basic Design

- 15) Sketches showing the Principles of design: Unity, Balance, Rhythm, Proportion, Dominance and Contrast.
- 16) Drawing Compositions using basic geometrical forms like squares circles, triangles and rectangles.
- 17) Drawing Compositions using non-geometrical forms.
- 18) Drawing Patterns of flooring and paving.
- 19) Drawing Patterns of window grills and doors.
- 20) Drawing Patterns of ceilings.

8.0 Scale and Measure Drawings:

- 21) Sketching the plan, elevation and section of objects and taking note of the measurements of chair and table with measuring tape and drawing the same to scale in plan and section.
- 22) Drawing to scale the plan, section of a classroom.
- 23) Drawing to scale the plan, section and elevation of a pedestal.

9.0 Building Drawings and Design

- 24) Drawing a given one bed room residence in plan, elevation and sections with complete dimensions.
- 25) Design of a Bus-stop shelter in plan, elevation and sections with complete dimensions.
- 26) Design of an Ice cream parlour in plan, elevation and sections with complete dimensions.
- 27) Design of a Watch man's cabin in plan, elevation and sections with complete dimensions.
- 28) Design of a Small building: multipurpose hall, kitchen, toilet in plan, elevation and sections with complete dimensions.
- 29) Design of single bed roomed house in plan, elevation and sections with complete dimensions.

Note: However, sheet no: 1,2,3 and 5 doesn't carry any marks

ARCHITECTURAL GRAPHICS (C-20)

Course Title	Course Code	Periods / Week	Periods / Year
Architectural Graphics	AA-107	04	120

Course Objectives	(i) To know various types of Drawing Instruments and understand their Importance, applications. (ii) To get the knowledge how to draw line weights, dimensioning, lettering, polygons, projections of solids, section of solids, views and construction of scales	
Course Outcomes	C01	State different procedures to draw line weights, dimensioning, lettering, polygons,
	C02	Explain the concepts of scales, enlarging and reducing scales, R.F and construct plain and diagonal scales
	C03	Draw first angle projections of solids when axis perpendicular to one plane and axis inclined to one plane,
	C04	Explain correct position of sectional plane, solids cut by different sectional plane and true shape with hatching
	C05	State the differences between isometric, axonometric and oblique views.
	C06	Draw isometric, axonometric and oblique views for given solids and engineering objects.
	C07	Practice perfection to draw different objects.

TIME SCHEDULE

Sl. No	Major Topics	No. of periods	Weightage of marks	No of short ans. questions	No of essay ans. questions
1.	Introduction	02	-	-	-
2.	Drawing instrument	02	-	-	-
3.	Lines	04	03	-	1
4.	Dimensioning	04	03	-	
5.	Lettering & Numbering	14	09	1	
6.	Scales	14	15	1	1
7.	Geometrical construction	20	15	1	1
8.	Orthographic Projection	20	15	1	1
9.	Sections	20	10	-	1
10.	Isometric, Axonometric, Oblique views.	20	10	-	1
Total:		120	80	4	6

- Note:**
1. Duration of examination is for 3 hours
 2. Part A: 4 questions – each question carries 5 marks
 3. Part B: 4 questions have to be answered out of 6 questions each question carries 10 marks

LEARNING OUTCOMES:

Upon completion of the Course, the student should be able to

- 1. Introduction:**
 - 1.1 Understand the importance of drawing.
 - 1.2 Know the importance of drawing as a communication tool.
 - 1.3 Understand the link between Geometrical drawing and other subjects related to Architecture.

- 2. Drawing Instruments:**
 - 2.1 Select correct instrument to draw horizontal, vertical and angular lines.
 - 2.2 Select correct instrument to draw small, large circles and arcs.
 - 2.3 Select correct instruments to measure the distance on the drawing.

- 3. Lines:**
 - 3.1 Select correct grade of pencils for different types of lines, thickness, given the functions.

- 4. Dimensioning:**
 - 4.1 State the need for dimensioning a drawing according to accepted standard.
 - 4.2 Define "Dimensioning"
 - 4.3 Identify the system of dimensioning to be followed.
 - 4.4 Practice Dimensioning and notation of important features of the drawing.
 - 4.5 Prepare title block and identify steps to keep the drawing neat & tidy.

- 5. Lettering & Numbering:**
 - 5.1 Write drawing titles using vertical and sloping alphabets and numbers.
 - 5.2 Select suitable size of lettering for different layouts and applications and lettering stencils.

- 6. Scale:**
 - 6.1 Define the concepts of scales
 - 6.2 Understand enlarging and reducing scales.
 - 6.3 Construct Plain Scale.
 - 6.4 Construct diagonal scale.
 - 6.5 Understand the application of scale in drawing.

- 7. Geometrical Construction:**
 - 7.0 Divide a given line into desired number of equal parts internally.
 - 7.1 Construct Polygons based on given data.
 - 7.2 Construct ellipse by concentric circles method
 - 7.3 Construct parabola by rectangle method
 - 7.4 Construct rectangular hyperbola from the given data
 - 7.5 Construct involute from the given data
 - 7.6 Construct Cycloid and helix from the given data

8. Orthographic Projection:

- 8.1 Explain the principles of orthographic Projection with simple sketches.
- 8.2 Draw orthographic projection of geometrical plane in first angle projection.
- 8.3 draw orthographic projection of geometrical solids in first angle projection.

9. Section:

- 9.1 Explain the need to draw sectional view.
- 9.2 Select correct position of sectional plane to show maximum details.
- 9.3 Draw sectional views of geometrical solids cut by different sectional plane.
- 9.4 Understand and apply principles of hatching.

10. Isometric, Axonometric and Oblique view:

- 10.1 State the need for isometric, axonometric and oblique views.
- 10.2 Draw isometric view for given solids.
- 10.3 Draw isometric view, axonometric view and oblique view of the object for the given orthographic projection,
- 10.4 Differentiate between isometric, axonometric and oblique views.

COURSE CONTENTS

1.0 Introduction:

- 1.1 Importance of drawing in graphic communication.
- 1.2 Scope and objectives of the subject of drawing
- 1.3 Role of drawing in architecture.

2.0 Drawing Instruments:

- 2.1 Basic tools of drawing: Straight line, curved lines, distances, T-Square, set square, compass, drawing board, French curves, inking pens, Stencils, furniture templates, circles of ellipse templates, parallel bar, adjustable set square, selection of pencils, care and maintenance of drawing sheet and instruments.

3.0 Lines:

- 3.1 Lines, Line types and line weights.

4.0 Dimensioning:

- 4.1 Purpose of dimensioning
- 4.2 Know the Size, description of engineering object
- 4.3 Definition of dimensioning, size description, locations of features, Surface finish, fully dimensioned drawing.
- 4.4 Know the Notation and tools for dimensioning dimension line, extension line, leader line, arrow, symbols, numbers and notes, rules to be observed.
- 4.5 Placing of dimension line – aligned, Unidirectional
- 4.6 Arrangement of dimension – Chain, parallel, combined, program by co- ordinate methods.
- 4.7 Rules for dimensioning circles, arcs, angles, chamfer, taper and narrow spaces.
- 4.8 Importance and contents layout of sheet.

5.0 Lettering and Numbering

- 5.1 Purpose of lettering
- 5.2 Guide lines for lettering
- 5.3 Recommended size of letters and numbers.
- 5.4 Types of lettering – vertical, italics, etc
- 5.5 Advantage of single stroke and Simple Style of letters
- 5.6 Use of lettering stencils.

6.0 Scale:

- 6.1 Scales, R.F. importance of scales construction of plain scale, diagonal scale.

7.0 Geometrical Construction:

- 7.1 Division of a line into given no. of equal parts, Bisectors
- 7.2 Methods to draw Polygons – i) using set squares, using compass – circles method, inscribing and circumscribing of polygon and circles
- 7.3 Construction of Ellipse by concentric circles method
- 7.4 Construction of parabola by rectangle method,
- 7.5 Construction of rectangular hyperbola
- 7.6 Construction of General curves: Involute
- 7.7 Constructions of Cycloid and Helix.

8.0 Orthographic Projection:

- 8.1 Orthographic Projection, concept of front view, top view, side view.
- 8.2 “First Angle Projection”, position of three views in first angle.
- 8.3 Projection, use of mitre line for projection of side views.
- 8.4 Projections of planes (Cases of planes perpendicular to one plane and inclined to other plane only.), of squares, rectangle, circles, polygons.
- 8.5 Projection of solids (Cases of axis perpendicular to one plane and inclined to other plane only), of cubes, prism, pyramid, solids of revolution – Cylinder and cones.

9.0 Section:

- 9.1 Need of drawing Sectional views.
- 9.2 Cutting planes – location, purpose, selection for maximum information.
- 9.3 Sections of Geometrical solids and their projections – cubes, cuboid, Prisms and pyramid.
- 9.4 Hatching of cut surfaces.

10.0 Isometric views, Axonometric views and Oblique views.

- 10.1 Pictorial drawing – Isometric, axonometric and oblique views.
- 10.2 Isometric drawing, angle for projection, visual distortion, isometric scale.
- 10.3 Isometric view of planes – Square, rectangle, polygons, circles.
- 10.4 Isometric views of solids- i) Prisms- Triangular, square, pentagonal, Hexagonal, ii) Pyramids - Triangular, square, pentagonal, Hexagonal, and engineering objects.

EXERCISES:

1. To draw layout of sheet.
2. Simple exercises on the use of drawing instruments.
3. Lines, line weights.
4. Line types.
5. Dimensioning of a given drawings using the rules and method of Dimensioning.
6. Free hand lettering of alphabets and Numerals, vertical and sloping, capitals and small letters with different heights.
7. Free hand lettering of passage.
8. Construction of plain scale given R.F and max. length, 5 and 6 problems to be solved.
9. Construction of diagonal scale given R.F, 5 and 6 problems to be solved.
10. Construction of line into equal parts, perpendicular bisectors, angle bisectors with compass.
11. Construction of polygon using circle method.
12. Construction of polygon using set squares and T. squares
13. Construction of polygon using compass.
14. Orthographic projections of geometrical planes in different relative position with reference to HP & VP – 10 exercises.
15. Orthographic projections of geometrical solids in different relative position with reference to HP& VP-10 exercises.
16. Sections of solids and their projection with different sectional planes.
17. Isometric views of solids and engineering objects.
18. Axonometric views of engineering objects.
19. Part-B No of essay ans. questions Oblique views of engineering objects.

Reference Books:

- 3.V.Gopal Krishna : Engineering Drawing
4. Shaw, Kale and Patki : Building Drawing

PERSPECTIVE & SCIOGRAPHY (C-20)

Course Title	Course Code	Periods / Week	Periods /Semester
Perspective & Sciography	AA-108	06	180

Course Title: Perspective & Sciography	
Course Objectives	(i) To understand the concepts of drawing perspective views from basic blocks to small buildings.
	(ii) To understand the concepts of sciography and learn to draw sciography in plans and elevations of various blocks and small structures.
Course Outcomes	C01 State the types of perspectives, terminology and their uses in architectural drawings.
	C02 Explain the concepts of one-point perspective and draw views of interiors.
	C03 Explain the concepts of two-point perspectives and draw the perspective views of blocks and small buildings.
	C04 Explain the concepts of sciography and draw it on simple elevations.

TIME SCHEDULE

Sl. No	Major Topics	No. of periods	Weightage of Marks		No of short ans. questions	No of essay ans. questions
			Part A	Part B		
1.	Introduction	03	-		-	-
2.	Terminology	06	5		1	-
3.	One-point prospective	45	5	30	1	1
4.	Two-point perspective	90	5		1	
5.	Rendering & Sciography	36	5	10	1	1
	Total:	180	20	40	4	2

Note:

- The problem should be limited to small unit to enable the student to complete it within three hours of examination
- Duration of the examination is 3 hours (one session only)
- No choice in Part A and B
- Part-A: 4 questions –each of 5 marks
Part B: 2 questions
5th Question – 30 Marks, from Major Topic No.4
6th Question – 10 Marks, from Major Topic No.5

LEARNING OUTCOMES

Upon completion of the Course, the student should be able to

1.0 Introduction

- 1.1 State the importance of perspective views in architectural drawings.
- 1.2 Explain the uses of perspective views.

2.0 Terminology

- 2.1 Define and explain the terminology with sketches.
- 2.2 Explain the difference between the perspectives (One and two point).

3.0 One-point perspective

- 3.1 Explain the principle of projecting the view.
- 3.2 Draw & Explain on a board so as to understand by candidate to draw

4.0 Two-point perspective

- 4.1 Explain to understand the principle of projecting the view.
- 4.2 Draw & Explain on a board so as to understand by candidate to draw

5.0 Rendering & Sciography

- 5.1 Explain with sketches while defining the terminology
- 5.2 Explain to draw Sciography in elevations and simple blocks with different media pencil (black & White), Colour pencils etc.

COURSE CONTENT

1.0 Introduction

- i. Introduction to the subject and its importance.
- ii. Uses of the perspectives in Architectural Design.

2.0 Terminology

- i. Ground Plane
- ii. Horizontal Plane
- iii. Auxiliary Plane,
- iv. Centre of vision
- v. Central plane
- vi. Eye level & Eye level plane
- vii. Object
- viii. Station point
- ix. Height line
- x. Picture plane
- xi. Vanishing points
- xii. Cone of vision
- xiii. Fore ground
- xiv. Back ground
- xv. Sky line
- xvi. Any other terms relevant to the subject
- xvii. One-point perspective
- xviii. Two-point perspective
- xix. Differences and applicable uses of both perspectives.

3.0 One-point perspective

- i. Concept and uses
- ii. Method of projection & principles / Guide lines

Exercises

- i) Object placed on the picture plane
- ii) Object placed behind the picture plane
- iii) Object placed in front of the picture plane

The exercises (i) (ii) and (iii) to be done considering single block (or) multiple blocks (or) Composed with various geometric forms (iv) An interior view for a bed room (or) small restaurant (or) class room (or) conference hall. (v) An Exterior view for an entrance façade.

4.0 Two-point perspective

- i) Concept and uses of it
- ii) Method of projection & principles / Guidelines

- a. Exercises – (a) Single block & multiple blocks forms of L,H,I & T, Steps etc.
Note any two exercises to be done from the above.
- b. Composite form of cube (Square / rectangle) Cylinder, Cone etc,
- c. Small buildings – Simple bed room unit
- d. Buildings of two bed room having single floor only.

5.0 Rendering & Sciography

Definitions of terms

- i Shade
- ii Shadow
- iii Shadow line
- iv Sciography

Exercises in pencil media / colour pencils

- a. Sciography for simple blocks in elevations
- b. Sciography for the views of one point & Two-point exercises did above.
- c. Sciography for an elevation of building (Single bed or double bed unit).

REFERENCE BOOKS

**PHYSICS LAB PRACTICE
(C-20 CURRIUCULUM COMMON TO ALL BRANCHES)**

Subject Code	Subject Title	Periods per week	Total periods per year
AA-109 A	Physics Laboratory	03	45

TIMESCHEDULE

S.No	Name of the Experiment	No.of Periods
1.	Hands on practice on Vernier Calipers	03
2.	Hands on practice on Screw gauge	03
3.	Verification of Parallelogram law of forces and Triangle law of forces	03
4.	Simple pendulum	03
5.	Velocity of sound in air – (Resonance method)	03
6.	Focal length and Focal power of convex lens (Separate & Combination) (Single lens)	03
7.	Refractive index of solid using traveling microscope	03
8.	Boyle’s law verification	03
9.	Meter bridge	03
10.	Mapping of magnet lines of force and locate null points	03
	DEMONSTRATION EXPERIMENTS	
11.	Surface tension of liquid using traveling microscope	03
12.	Coefficient of viscosity by capillary method	03
	Revision	06
	Test	03
	Total	45

Objectives:

Upon completion of the course the student shall be able to

- 1.0 Practice with Vernier calipers to determine the volumes and areas of a cylinder and sphere and their comparison etc .
- 2.0 Practice with Screw gauge to determine thickness of a glass plate, cross sectional area of a wire and volumes of sphere and also their comparison etc
- 3.0 Verify the parallelogram law and Triangle law
- 4.0 Determine the value of acceleration due to gravity using Simple Pendulum
- 5.0 Determine the velocity of sound in air at room temperature and its value at zero degree centigrade.
- 6.0 Calculate the Focal length and focal power of convex lenses using distant object method , U-V method , U-V graph and $1/U - 1/V$ graph methods and their comparison.
- 7.0 Determine the refractive index of a solid using travelling microscope.
- 8.0 Verify the Boyle’s law employing a Quill tube.
- 9.0 Determine the specific resistance of material of a wirel using Meter Bridge.
- 10.0 Drawing magnetic lines of force under N-S and N-N methods and locate null points.
- 11.0 Determine the surface tension of a liquid using travelling Microscope (**Demo**)
- 12.0 Determine the viscosity of a liquid using capillary method (**Demo**)

Competencies and Key competencies to be achieved by the student

Name of the Experiment (No of Periods)	Competencies	Key competencies
1. Hands on practice on Vernier Calipers(03)	<ul style="list-style-type: none"> • Find the Least count • Fix the specimen in posit • Read the scales • Calculate the physical quantities of given object 	<ul style="list-style-type: none"> • Read the scales • Calculate the requisite physical quantities of given objects
2. Hands on practice on Screw gauge(03)	<ul style="list-style-type: none"> • Find the Least count • Fix the specimen in posit • Read the scales • Calculate thickness of glass place and cross section of wire and other quantities 	<ul style="list-style-type: none"> • Read the scales • Calculate thickness of given glass plate • Calculate cross section of wire and other quantities
3. Verification of Parallelogram law of forces and Triangle law of forces(03)	<ul style="list-style-type: none"> • Fix suitable weights • Note the positions of threads on drawing sheet • Find the angle at equilibrium point • Construct parallelogram • Compare the measured diagonal • Construct triangle • Find the length of sides • Compare the ratios 	<ul style="list-style-type: none"> • Find the angle at equilibrium point • Constructing parallelogram • Construct triangle • Compare the ratios of force and length
4. Simple pendulum(03)	<ul style="list-style-type: none"> • Fix the simple pendulum to the stand • Adjust the length of pendulum • Find the time for number of oscillations • Find the time period • Calculate the acceleration due to gravity • Draw I-T and I-T² graph 	<ul style="list-style-type: none"> • Find the time for number of oscillations • Find the time period • Calculate the acceleration due to gravity • Draw I-T and I-T² graph
5. Velocity of sound in air –Resonance method (03)	<ul style="list-style-type: none"> • Arrange the resonance apparatus • Adjust the reservoir level for booming sound • Find the first and second resonating lengths • Calculate velocity of sound 	<ul style="list-style-type: none"> • Adjust the reservoir level • Find the first and second resonating lengths • Calculate velocity of sound at room temperature • Calculate velocity of sound at 0⁰ C

<p>6. Focal length and Focal power of convex lens (Separate & Combination) (03)</p>	<ul style="list-style-type: none"> • Fix the object distance • Find the Image distance • Calculate the focal length and power of convex lens and combination of convex lenses • Draw u-v and $1/u - 1/v$ graphs 	<ul style="list-style-type: none"> • Calculate the focal length and power of convex lens • Draw u-v and $1/u - 1/v$ graphs
<p>7. Refractive index of solid using traveling microscope(03)</p>	<ul style="list-style-type: none"> • Find the least count of vernier on microscope • Place the graph paper below microscope • Read the scale • Calculate the refractive index of glass slab 	<ul style="list-style-type: none"> • Read the scale • Calculate the refractive index of glass slab
<p>8. Boyle's law verification (03)</p>	<ul style="list-style-type: none"> • Note the atmospheric pressure • Fix the quill tube to retort stand • Find the length of air column • Find the pressure of enclosed air • Find and compare the calculated value $P \times l$ 	<ul style="list-style-type: none"> • Find the length of air column • Find the pressure of enclosed air • Find the value $P \times l$
<p>9. Meter bridge(03)</p>	<ul style="list-style-type: none"> • Make the circuit connections • Find the balancing length • Calculate unknown resistance • Find the radius of wire • Calculate the specific resistance 	<ul style="list-style-type: none"> • Find the balancing length • Calculate unknown resistance • Calculate the specific resistance

10. Mapping of magnet lines of force(03)	<ul style="list-style-type: none"> • Draw magnetic meridian • Placed the bar magnet in NN and NS directions • Draw magnetic lines of force • Locate the neutral points along equatorial and axial lines 	<ul style="list-style-type: none"> • Draw magnetic lines of force • Locate the neutral points along equatorial and axial lines
11. Surface tension of liquid using traveling microscope(03)	<ul style="list-style-type: none"> • Find the least count of vernier on microscope • Focus the microscope to the lower meniscus & bent pin • Read the scale • Calculate height of liquid rise • Calculate the surface tension of water 	<ul style="list-style-type: none"> • Read the scale • Calculate height of liquid rise • Calculate the surface tension of water
12.. Coefficient of viscosity by capillary method(03)	<ul style="list-style-type: none"> • Find the least count of vernier • Fix the capillary tube to aspiratory bottle • Find the mass of collected water • Find the pressure head • Calculate rate of volume of liquid collected • Find the radius of capillary tube • Calculate the viscosity of water using capillary method 	<ul style="list-style-type: none"> • Find the pressure head • Calculate rate of volume of liquid collected • Find the radius of capillary tube • Calculate the viscosity of water

Scheme of Valuation for end Lab Practical Examination :

A. Writing Aim, Apparatus, Formula, Graph, Precautions carries	10 (Ten) Marks
B. For Drawing the table, taking Readings, Calculation work, Drawing the graph, finding result carries	15 (Fifteen) Marks
C. Viva Voice	05 (Five) Marks
Total	30 (Thirty) Marks

➤ **Course outcomes**

Course Outcomes	CO1	Experiments with Vernier calipers, Screw gauge, Parallelogram law and Triangle law
	CO2	Experiments with Simple pendulum, Resonance apparatus (Velocity of sound in air)
	CO3	Experiments with Convex lens, Refractive index of solid by travelling microscope
	CO4	Experiments with quill tube (Boyles law verification), Meter bridge, Mapping of magnetic lines of force
	CO5	Experiments with Surface tension and Viscosity

➤ **COs-PO mapping strength (as per given table)**

	PO1	PO2	PO3	PO4	PO5	PO6	PO7

2= moderately mapped

1= slightly mapped

CHEMISTRY LABORATORY
(C-20 curriculum common to all Branches)

Subject Code	Subject Title	Periods per week	Total periods per year
AA -109B	Chemistry Laboratory	03	45

CO1	Operate and practice volumetric apparatus and preparation of standard solution
CO2	Evaluate and judge the neutralization point in acid base titration
CO3	Evaluate the end point of reduction and oxidation reaction
CO4	Judge the stable end point of complex formation, stable precipitation
CO5	Judge operate and demonstrate and perform precise operations with instrument for investigation of water pollution parameters

PO CO mapping

Course code AA-109B	Chemistry Laboratory No of Cos;5			No Of periods 45	
POs	Mapped with CO No	CO periods addressing PO in Col 1 NO	%	Level 1,2,3	remarks

2= moderately mapped

1= slightly mapped

Note:

The gaps in CO and PO mapping will be achieved by one or more appropriate activities from the following:

- i) Seminars ii) Tutorials iii) Guest Lectures iv) Assignments v) Quiz competitions vi) Industrial visit vii) Tech Fest viii) Mini project ix) Group discussions x) Virtual classes xi) Library visit for e-books

TIMESCHEDULE

SL. No	Name of the Experiment	No.of Periods	Mapped with COs
1.	a) Recognition of chemical substances and solutions used in the laboratory by senses. b) Familiarization of methods for Volumetric analysis	03	CO1
2.	Preparation of Std Na_2CO_3 and making solutions of different dilution	03	CO1
3.	Estimation of HCl solution using Std. Na_2CO_3 solution	03	CO2
4.	Estimation of NaOH using Std. HCl solution	03	CO2
5.	Estimation of H_2SO_4 using Std. NaOH solution	03	CO2
6.	Estimation of Mohr's Salt using Std. KMnO_4	03	CO3
7.	Determination of acidity of water sample	03	CO2
8.	Determination of alkalinity of water sample	03	CO2
9.	Determination of total hardness of water using Std. EDTA solution	03	CO4
10.	Estimation of Chlorides present in water sample	03	CO4
11.	Estimation of Dissolved Oxygen(D.O)in water sample	03	CO5
12.	Determination of pH using pH meter	03	CO5
13.	Determination of conductivity of water and adjusting ionic strength	03	CO5
14.	Determination of turbidity of water	03	CO5
15.	Estimation of total solids present in water sample	03	CO5
	Total:	45	

OBJECTIVES:**Upon completion of the course the student shall be able to**

- 1.0 Practice volumetric measurements (using pipettes, measuring jars, volumetric flask, burettes) and gravimetric measurements (using different types of balances), making dilutions, etc. To identify the chemical compounds and solutions by senses.
- 2.0 Practice making standard solutions with pre weighed salts and to make solutions of desired dilutions using appropriate techniques.
- 3.0 Conduct titrations adopting standard procedures and using Std. Na_2CO_3 solution for estimation of HCl
- 4.0 Conduct titrations adopting standard procedures and using Std. HCl solution for estimation of NaOH
- 5.0 Conduct titrations adopting standard procedures and using Std. NaOH solution for

- estimation of H_2SO_4
- 6.0 Conduct titrations adopting standard procedures and using Std. $KMnO_4$ solution for estimation of Mohr's Salt
 - 7.0 Conduct titrations adopting standard procedures to determine the acidity of given samples of water (One ground water and one surface / tap water, and rain water if available)
 - 8.0 Conduct titrations adopting standard procedures to determine the alkalinity of given samples of water (One ground water and one surface / tap water)
 - 9.0 Conduct titrations adopting standard procedures to determine the total hardness of given samples of water (One ground water and one surface / tap water) using Std. EDTA solution
 - 10.0 Conduct titrations adopting standard procedures to determine the chlorides present in the given samples of water and wastewater (One ground water and one surface / tap water)
 - 11.0 Conduct the test using titrometric / electrometric method to determine Dissolved Oxygen (D.O) in given water samples (One sample from closed container and one from open container / tap water)
 - 12.0 Conduct the test on given samples of water / solutions (like soft drinks, sewage, etc.) to determine their pH using standard pH meter
 - 13.0 Conduct the test on given samples of water / solutions
 - a) To determine conductivity
 - b) To adjust the ionic strength of the sample to the desired value
 - 14.0 Conduct the test on given samples of solutions (coloured and non coloured) to determine their turbidity in NTU
 - 15.0 To determine the total solids present in given samples of water (One ground water and one surface / tap water)

Competencies and Key competencies to be achieved by the student

Name of the Experiment (No of Periods)	Competencies	Key competencies
Familiarization of methods for Volumetric analysis. Recognition of chemical substances And solutions (03)	-	--
Preparation of Std Na_2CO_3 and making solutions of different dilution(03)	<ul style="list-style-type: none"> ▪ Weighing the salt to the accuracy of .01 mg ▪ Measuring the water with volumetric flask, measuring jar, volumetric pipette and graduated pipette ▪ Making appropriate dilutions 	<ul style="list-style-type: none"> ▪ Weighing the salt to the accuracy of .01 mg ▪ Measuring the water with volumetric flask, measuring jar, volumetric pipette and graduated pipette ▪ Making appropriate dilutions
Estimation of HCl solution using Std. Na_2CO_3 solution (03)	<ul style="list-style-type: none"> ▪ Cleaning the glassware and rinsing with appropriate solutions 	<ul style="list-style-type: none"> ▪ Making standard solutions ▪ Measuring accurately the standard solutions and titrants
Estimation of NaOH using Std. HCl solution (03)	<ul style="list-style-type: none"> ▪ Making standard solutions 	<ul style="list-style-type: none"> ▪ Effectively Controlling the flow

Estimation of H ₂ SO ₄ using Std.NaOH solution (03)	<ul style="list-style-type: none"> ▪ Measuring accurately the standard solutions and titrants ▪ Filling the burette with titrant ▪ Fixing the burette to the stand ▪ Effectively Controlling the flow of the titrant ▪ Identifying the end point ▪ Making accurate observations ▪ Calculating the results 	<ul style="list-style-type: none"> of the titrant ▪ Identifying the end point ▪ Making accurate observations
Estimation of Mohr's Salt using Std.KMnO ₄ (03)		
Determination of acidity of water sample (03)		
Determination of alkalinity of water sample (03)		
Determination of total hardness of water using Std. EDTA solution (03)		
Estimation of Chlorides present in water sample (03)		
Estimation of Dissolved Oxygen(D.O) in water sample (By titration method) (03)		
Determination of pH using pH meter (03)	<ul style="list-style-type: none"> ▪ Familiarize with instrument ▪ Choose appropriate 'Mode' / 'Unit' ▪ Prepare standard solutions / buffers, etc. ▪ Standardize the instrument with appropriate standard solutions ▪ Plot the standard curve ▪ Make measurements accurately ▪ Follow Safety precautions 	<ul style="list-style-type: none"> ▪ Prepare standard solutions / buffers, etc. ▪ Standardize the instrument with appropriate standard solutions ▪ Plot the standard curve ▪ Make measurements accurately
Determination of conductivity of water and adjusting ionic strength to required level (03)		
Determination of turbidity of water (03)		
Estimation of total solids present in water sample (03)	<ul style="list-style-type: none"> ▪ Measuring the accurate volume and weight of sample ▪ Filtering and air drying without losing any filtrate ▪ Accurately weighing the filter paper, crucible and filtrate ▪ Drying the crucible in an oven 	<ul style="list-style-type: none"> ▪ Measuring the accurate volume and weight of sample ▪ Filtering and air drying without losing any filtrate ▪ Accurately weighing the filter paper, crucible and filtrate

SCHEME OF VALUATION

A) Writing Chemicals, apparatus ,principle and procedure	5M
B) Demonstrated competencies	20M
Making standard solutions	
Measuring accurately the standard solutions and titrants	
Effectively controlling the flow of the titrant	
Identifying the end point	
Making accurate observations	
C) Viva-voce	5M

Total	30M

Course code	Course Title	No. of Periods/Weeks	Total No. of periods	Marks for FA	Marks for SA
AA-110 (common to all branches)	Computer Fundamentals Lab	3	90	40	60

Time schedule:

S.No.	Chapter/Unit Title	No. of sessions each of 3 periods duration	No. of Periods
1.	Computer hardware Basics	2	6
2.	Windows Operating System	2	6
3.	MS Word	8	24
4.	MS Excel	7	21
5.	MS PowerPoint	5	15
6.	Adobe Photoshop	6	18
Total periods		30	90

S.No.	Chapter/Unit Title	No. of Periods	CO's Mapped
1.	Computer hardware Basics	6	CO1
2.	Windows Operating System	6	CO1
3.	MS Word	24	CO2
4.	MS Excel	21	CO3
5.	MS PowerPoint	15	CO4
6.	Adobe Photoshop	18	CO5
Total periods		90	

Course Objectives	i) To know Hardware Basics ii) To familiarize operating systems iii) To use MS Office effectively to enable to students use these skills in future courses iv) To use Adobe Photoshop in image editing.
--------------------------	--

Course Outcomes	At the end of the course students will be able to		
	CO1	AA-110.1	Identify hardware and software components
	CO2	AA-110.2	Prepare documents with given specifications using word processing software
	CO3	AA-110.3	Use Spread sheet software to make calculation and to draw various graphs / charts.
	CO4	AA-110.4	Use Power point software to develop effective presentation for a given theme or topic.
	CO5	AA-110.5	Edit digital or scanned images using Photoshop

CO-PO/PSO MATRIX

Average	3	3	3	3	3	3	3	3	2	3

3=Strongly mapped , 2=moderately mapped, 1=slightly mapped

LEARNING OUTCOMES:

I. Computer Hardware Basics

1. a).To Familiarize with Computer system and hardware connections
b).To Start and Shut down Computer correctly
c).To check the software details of the computer
2. To check the hardware present in your computer

II. Windows's operating system

3. To Explore Windows Desktop
4. Working with Files and Folders
5. Windows Accessories: Calculator – Notepad – WordPad – MS Paint

III. Practice with MS-WORD

6. To familiarize with Ribbon layout of MS Word
Home – Insert- Page layout – References – Review- View.
7. To practice Word Processing Basics
8. To practice Formatting techniques
9. To insert a table of required number of rows and columns
10. To insert Objects, Clipart and Hyperlinks
11. To use Mail Merge feature of MS Word
12. To use Equations and symbols features

IV.Practice with MS-EXCEL

13. To familiarize with MS-EXCEL layout
14. To access and enter data in the cells
15. To edit a spread sheet- Copy, Cut, Paste, and selecting Cells
16. To use built in functions and Formatting Data
17. To create Excel Functions, Filling Cells
18. To enter a Formula for automatic calculations
19. To sort and filter data in table.
20. To present data using Excel Graphs and Charts.
21. To develop lab reports of respective discipline.
22. To format a Worksheet in Excel, Page Setup and Print

V. Practice with MS-POWERPOINT

23. To familiarize with Ribbon layout features of PowerPoint 2007.
24. To create a simple PowerPoint Presentation
25. To set up a Master Slide in PowerPoint
26. To insert Text and Objects
27. To insert a Flow Charts
28. To insert a Table
29. To insert a Charts/Graphs

- 30. To insert video and audio
- 31. To practice Animating text and objects
- 32. To Review presentation

VI. Practice with Adobe Photoshop

- 33. To familiarize with standard toolbox
- 34. To edit a photograph.
- 35. To insert Borders around photograph.
- 36. To change Background of a Photograph.
- 37. To change colors of Photograph.
- 38. To prepare a cover page for the book in your subject area.
- 39. To adjust the brightness and contrast of the picture so that it gives an elegant look.
- 40. To type a word and apply the shadow emboss effects.

Key competencies:

Expt No	Name of Experiment	Competencies	Key competencies
1 (a).	To familiarize with Computer system and hardware connections	<ul style="list-style-type: none"> a. Identify the parts of a Computer system: i). CPU ii). Mother Board iii) Monitor iv) CD/DVD Drive v) Power Switch vi) Start Button vii) Reset Button b. Identify and connect various peripherals c. Identify and connect the cables used with computer system d. Identify various ports on CPU and connect Keyboard & Mouse 	Connect cables to external hardware and operate the computer
1 (b).	To Start and Shut down Computer correctly	<ul style="list-style-type: none"> a. Log in using the password b. Start and shut down the computer c. Use Mouse and Key Board 	<ul style="list-style-type: none"> a. Login and logout as per the standard procedure b. Operate mouse & Key Board
1 (c).	To Explore Windows Desktop	<ul style="list-style-type: none"> a. Familiarize with Start Menu, Taskbar, Icons and Shortcuts b. Access application programs using Start menu, Task manager c. Use Help support 	<ul style="list-style-type: none"> a. Access application programs using Start menu b. Use taskbar and Task manager
2.	To check the software details of the computer	<ul style="list-style-type: none"> a. Find the details of Operating System being used b. Find the details of Service Pack installed 	Access the properties of computer and find the details
3.	To check the hardware present in your computer	<ul style="list-style-type: none"> a. Find the CPU name and clock speed b. Find the details of RAM and Hard disk present 	<ul style="list-style-type: none"> a. Access device manager and find the details b. Type /Navigate the

		<p>c. Access Device manager using Control Panel and check the status of devices like mouse and key board</p> <p>d. Use My Computer to check the details of Hard drives and partitions</p> <p>e. Use the Taskbar</p>	<p>correct path and Select icon related to the details required</p>
4.	Working with Files and Folders	<p>a. Create folders and organizing files in different folders</p> <p>b. Use copy / paste move commands to organize files and folders</p>	<p>a. Create files and folders Rename , arrange and search for the required folder/file</p>
	Working with Files and Folders Continued....	<p>c. Arrange icons – name wise, size, type, Modified</p> <p>d. Search a file or folder and find its path</p> <p>e. Create shortcut to files and folders (in other folders) on Desktop</p> <p>f. Familiarize with the use of My Documents</p> <p>g. Familiarize with the use of Recycle Bin</p>	<p>b. Restore deleted files from Recycle bin</p>
5.	To use Windows Accessories: Calculator – Notepad – WordPad – MS Paint	<p>a. Familiarize with the use of Calculator</p> <p>b. Access Calculator using Run command</p> <p>c. Create Text Files using Notepad and WordPad and observe the difference in file size</p> <p>d. Use MS paint and create .jpeg, .bmp files using MS Paint</p>	<p>a. Use windows accessories and select correct text editor based on the situation.</p> <p>b. Use MS pain to create /Edit pictures and save in the required format.</p>
6.	To familiarize with Ribbon layout of MS word. – Home – Insert- page layout- References-Review- View	<p>a. Create/Open a document</p> <p>b. Use Save and Save as features</p> <p>c. Work on two Word documents simultaneously</p> <p>d. Choose correct Paper size and Printing options</p>	<p>a. Create a Document and name appropriately and save</p> <p>b. Set paper size and print options</p>
7.	To practice Word Processing Basics	<p>a. Typing text</p> <p>b. Keyboard usage</p> <p>c. Use mouse (Left click / Right click / Scroll)</p>	<p>a. Use key board and mouse to enter/edit text in the document.</p>

		<p>d. Use Keyboard shortcuts</p> <p>e. Use Find and Replace features in MS- word</p> <p>f. Use Undo and Redo Features</p> <p>g. Use spell check to correct Spellings and Grammar</p>	<p>b. Use shortcuts</p> <p>c. Use spell check/ Grammar features for auto corrections.</p>
8.	To practice Formatting techniques	<p>a. Formatting Text</p> <p>b. Formatting Paragraphs</p> <p>c. Setting Tabs</p> <p>d. Formatting Pages</p> <p>e. The Styles of Word</p> <p>f. Insert bullets and numbers</p> <p>g. Themes and Templates</p> <p>h. Insert page numbers, header and footer</p>	<p>a. Format Text and paragraphs and use various text styles.</p> <p>b. Use bullets and numbers to create lists</p> <p>c. Use Templates /Themes</p> <p>d. Insert page numbers date, headers and footers</p>
9.	To insert a table of required number of rows and columns	<p>a. Edit the table by adding the fields – Deleting rows and columns – inserting sub table –marking borders. Merging and splitting of cells in a Table</p> <p>b. Changing the background colour of the table</p> <p>c. Use table design tools</p> <p>d. Use auto fit – fixed row/ column height/length – Even distribution of rows / columns features</p> <p>e. Convert Text to table and Table to Text</p> <p>f. Use Sort feature of the Table to arrange data in ascending/descending order</p>	<p>a. Insert table in the word document and edit</p> <p>b. Use sort option for arranging data.</p>
10.	To Insert objects, clipart and Hyperlinks	<p>a. Create a 2-page document. & Insert hyperlinks and t Bookmarks.</p> <p>b. Create an organization chart</p> <p>c. Practice examples like preparing an Examination schedule notice with a hyperlink to Exam schedule table.</p>	<p>a. Insert hyperlinks & Bookmarks</p> <p>b. Create organization charts/flow charts</p>
11.	To Use Mail merge feature of MS Word	<p>a. Use mail merge to prepare individually addressed letters</p> <p>b. Use mail merge to print envelopes.</p>	Use Mail merge feature

12.	To use Equations and symbols features.	<ul style="list-style-type: none"> a. Explore various symbols available in MS Word b. Insert a symbol in the text c. Insert mathematical equations in the document 	Enter Mathematical symbols and Equations in the word document
13.	To Practice with MS-EXCEL	<ul style="list-style-type: none"> a. Open /create an MS Excel spreadsheet and familiarize with MS Excel 2007 layout like MS office Button- b. Use Quick Access Toolbar- Title Bar- Ribbon-Worksheets-Formula Bar-Status Bar 	<ul style="list-style-type: none"> a. Familiarize with excel layout and use b. Use various features available in toolbar
14.	To access and Enter data in the cells	<ul style="list-style-type: none"> a. Move Around a Worksheets-Quick access -Select Cells b. Enter Data-Edit a Cell-Wrap Text-Delete a Cell Entry-Save a File-Close Excel 	<ul style="list-style-type: none"> a. Access and select the required cells by various addressing methods b. Enter data and edit
15.	To edit spread sheet Copy, Cut, Paste, and selecting cells	<ul style="list-style-type: none"> a. Insert and Delete Columns and Rows-Create Borders-Merge and Center b. Add Background Color-Change the Font, Font Size, and Font Color c. Format text with Bold, Italicize, and Underline-Work with Long Text-Change a Column's Width 	Format the excel sheet
16.	To use built in functions and Formatting Data	<ul style="list-style-type: none"> a. Perform Mathematical Calculations verify -AutoSum b. Perform Automatic Calculations-Align Cell Entries 	Use built in functions in Excel
17.	To enter a Formula for automatic calculations	<ul style="list-style-type: none"> a. Enter formula b. Use Cell References in Formulae c. Use Automatic updating function of Excel Formulae d. Use Mathematical Operators in Formulae e. Use Excel Error Message and Help 	Enter formula for automatic calculations
18.	To Create Excel Functions, Filling Cells	<ul style="list-style-type: none"> a. Use Reference Operators b. Work with sum, Sum if , Count and Count If Functions c. Fill Cells Automatically 	<ul style="list-style-type: none"> a. Create Excel sheets involving cross references and equations b. Use the advanced functions for conditional calculations

19.	To sort and filter data in table	<ul style="list-style-type: none"> a. Sort data in multiple columns b. Sort data in a row c. Sort data using Custom order d. Filter data in work sheet 	<ul style="list-style-type: none"> a. Refine the data in a worksheet and keep it organized b. Narrow a worksheet by selecting specific choice
20.	To Practice Excel Graphs and Charts	<ul style="list-style-type: none"> a. Produce an Excel Pie Chart b. Produce c. Excel Column Chart 	<ul style="list-style-type: none"> a. Use data in Excel sheet to Create technical charts and graphs Produce Excel Line Graph b. Produce a Pictograph in Excel
21.	To develop lab reports of respective discipline	Create Lab reports using MS Word and Excel	<ul style="list-style-type: none"> a. Insert Practical subject name in Header and page numbers in Footer
22.	To format a Worksheet in Excel, page setup and print	<ul style="list-style-type: none"> a. Shade alternate rows of data b. Add currency and percentage symbols c. Change height of a row and width of a column d. Change data alignment e. Insert Headers and Footers f. Set Print Options and Print 	<ul style="list-style-type: none"> a. Format Excel sheet b. Insert headers & footers and print
23.	To familiarize with Ribbon layout & features of PowerPoint 2007.	<p>Use various options in PowerPoint</p> <ul style="list-style-type: none"> a. Home b. Insert c. Design d. Animation e. Slideshow f. View g. Review 	Access required options in the tool bar
24.	To create a simple PowerPoint Presentation	<ul style="list-style-type: none"> a. Insert a New Slide into PowerPoint b. Change the Title of a PowerPoint Slide c. PowerPoint Bullets d. Add an Image to a PowerPoint Slide e. Add a Textbox to a PowerPoint slide 	<ul style="list-style-type: none"> a. Create simple PowerPoint presentation with photographs/ClipArt and text boxes b. Use bullets option
25.	To Set up a Master Slide in PowerPoint and add notes	<ul style="list-style-type: none"> a. Create a PowerPoint Design Template b. Modify themes c. Switch between Slide master view and Normal view 	<ul style="list-style-type: none"> a. Setup Master slide and format b. Add notes

		<ul style="list-style-type: none"> d. Format a Design Template Master Slide e. Add a Title Slide to a Design Template f. The Slide Show Footer in PowerPoint g. Add Notes to a PowerPoint Presentation 	
26.	To Insert Text and Objects	<ul style="list-style-type: none"> a. Insert Text and objects b. Set Indents and line spacing c. Insert pictures/ clipart d. Format pictures e. Insert shapes and word art f. Use 3d features g. Arrange objects 	<p>Insert Text and Objects</p> <p>Use 3d features</p>
27.	To insert a Flow Chart / Organizational Charts	<ul style="list-style-type: none"> a. Create a Flow Chart in PowerPoint b. Group and Ungroup Shapes c. Use smart art 	Create organizational charts and flow charts using smart art
28.	To insert a Table	<ul style="list-style-type: none"> a. PowerPoint Tables b. Format the Table Data c. Change Table Background d. Format Series Legend 	Insert tables and format
29.	To insert a Charts/Graphs	<ul style="list-style-type: none"> a. Create 3D Bar Graphs in PowerPoint b. Work with the PowerPoint Datasheet c. Format a PowerPoint Chart Axis d. Format the Bars of a Chart e. Create PowerPoint Pie Charts f. Use Pie Chart Segments g. Create 2D Bar Charts in PowerPoint h. Format the 2D Chart e. Format a Chart Background 	Create charts and Bar graphs, Pie Charts and format.
30.	To Insert audio & video, Hyperlinks in a slide Add narration to the slide	<ul style="list-style-type: none"> a. Insert sounds in the slide and hide the audio symbol b. Adjust the volume in the settings c. Insert video file in the format supported by PowerPoint in a slide d. Use automatic and on click options e. Add narration to the slide f. Insert Hyperlinks 	<ul style="list-style-type: none"> a. Insert Sounds and Video in appropriate format. b. Add narration to the slide c. Use hyperlinks to switch to different slides and files
31.	To Practice Animation effects	<ul style="list-style-type: none"> a. Apply transitions to slides b. To explore and practice special animation effects like Entrance, Emphasis, Motion Paths &Exit 	Add animation effects

32.	Reviewing presentation	<ul style="list-style-type: none"> a. Checking spelling and grammar b. Previewing presentation c. Set up slide show d. Set up resolution e. Exercise with Rehearse Timings feature in PowerPoint f. Use PowerPoint Pen Tool during slide show g. Saving h. Printing presentation <ul style="list-style-type: none"> (a) Slides (b) Hand-out 	<ul style="list-style-type: none"> a. Use Spell check and Grammar feature b. Setup slide show c. Add timing to the slides d. Setup automatic slide show
33	To familiarize with standard toolbox	<ul style="list-style-type: none"> a. Open Adobe Photoshop b. Use various tools such as <ul style="list-style-type: none"> i. The Layer Tool ii. The Color & Swatches Tool iii. Custom Fonts & The Text Tool iv. Brush Tool v. The Select Tool vi. The Move Tool vii. The Zoom Tool viii. The Eraser ix. The Crop Tool x. The Fill Tool 	Open a photograph and save it in Photoshop
34	To edit a photograph	<ul style="list-style-type: none"> a. Use the Crop tool b. Trim edges c. Change the shape and size of a photo d. Remove the part of photograph including graphics and text 	a. Able to edit image by using corresponding tools.
35	To insert Borders around photograph	<ul style="list-style-type: none"> a. Start with a single background layer b. Bring the background forward c. Enlarge the canvas d. Create a border color e. Send the border color to the back f. Experiment with different colors 	Able to create a border or frame around an image to add visual interest to a photo
36	To change Background of a Photograph	<ul style="list-style-type: none"> a. open the foreground and background image b. Use different selection tools to paint over the image c. Copy background image and paste it on the foreground. d. Resize and/or drag the background image to reposition. e. In the Layers panel, drag the background layer below the foreground image layer. 	Able to swap background elements using the Select and Mask tool and layers.

37	To change colors of Photograph	a. Change colors using: i) Color Replacement tool ii) Hue/Saturation adjustment layer tool	Able to control color saturation
38	To prepare a cover page for the book in subject area	a. open a file with height 500 and width 400 for the cover page. b. apply two different colors to work area by dividing it into two parts using Rectangle tool. c. Copy any picture and place it on work area→ resize it using free transform tool. d. Type text and apply color and style e. Apply effects using blended options	Able to prepare cover page for the book
39	To adjust the brightness and contrast of picture to give an elegant look	a. open a file. b. Go to image→ adjustments→ Brightness/Contrast. c. adjust the brightness and contrast. d. Save the image.	Able to control brightness/contrast.
40	To type a word and apply the shadow emboss effects	a. open a file b. Select the text tool and type text. c. Select the typed text go to layer→ layer style→ blended option→ drop shadow, inner shadow, bevel and emboss→ contour→ satin→ gradient overlay d. Save the image.	Able to apply shadow emboss effects

Table specifying the scope of syllabus to be covered for unit tests

Unit Test	Learning outcomes to be covered
Unit test-1	From 1 to 8
Unit test-2	From 9 to 22
Unit test-3	From 23 to 40

**I YEAR INTERNAL LAB EXAMINATION
